| Tota | Total | | (+9. <u>6</u> %) | = US\$ 1,535mil | Domestic 87% / Ex | port 13% |
| Merge Re | eversal | - | - | (2,204) | | |
| Total after | r offset | - | - | 45,619 | | (+4. <u>0</u> %) |
| | | | | = US\$ 1,464mil | | |

(III) Financial report:

1. Due to the increase in market demand in FY2023 and the gradual planning to improve the manufacturing process,

production costs have dropped, resulting in a reduction in operating losses and an increase in net profit after tax.

2.

| | | | Unit: NT\$ '000 |

| EPS (adjusted retroactive) | NTD 0. <u>01</u> | NTD -0. <u>25</u> |

2024 Annual Business Plan Outlone:

Business Operation Strategy, Law Compliance & Economic Impact Analysis:

In 2023, after the pandemic, global supply chains underwent restructuring, geopolitical tensions escalated, and there was a significant investment in net-zero transformation and complex structural changes. These factors caused US government bond yields to skyrocket to new highs in the fourth quarter, surpassing post-financial crisis levels. As we move into 2024, inflation is expected to decrease, prompting global central banks, with the Federal Reserve in the United States at the forefront, to gradually announce interest rate cuts. The economy is projected to recover at a moderate pace, although facing a short-term period of relatively high interest rates.

In late 2023, China's Ministry of Commerce pre-announced its finding that Taiwan's trade restrictions on China amounted to a trade barrier. This was seen as contradicting the goals of fostering normalized, institutionalized, and liberalized cross-strait economic relations under the Economic Cooperation Framework Agreement (ECFA). As a result, there could potentially be a complete or partial suspension of the ECFA's early harvest list comprising 539 items, coupled with China imposing corresponding sanctions on 2,509 items prohibited by Taiwan. We advised the government to devise response plans accordingly. Meanwhile, as a response to the EU's Carbon Border Adjustment Mechanism (CBAM) and the US Clean Competition Act (CCA), it is imperative to set clear energy efficiency targets and favorable fee structures. This will aid businesses in independently reducing carbon emissions. Furthermore, evaluations should be conducted concerning the imposition of carbon tariffs on imported goods. It's suggested to reconsider energy policies by boosting incentives for green energy investments. This can be achieved through measures like investment offsets, interest subsidies for financing, and tax incentives for private equity leasing. These steps will encourage green energy firms to invest in infrastructure, promote research and application of carbon capture & storage technology, and hasten the transition to a low-carbon, clean energy environment. Regarding the comprehensive rise in electricity prices beginning in April, it's advisable for the central bank to align with global interest rate reductions and avoid raising interest rates, although it will affect both industrial and consumer prices.

Regarding sustainable business practices, as global companies enhance their ESG (Environmental, Social, and Governance) investments and policies, Taiwan Glass has consistently earned recognition. It has been awarded the "Silver Award for Traditional Manufacturing Industry" at the Taiwan Corporate Sustainability Awards for eight years running. Furthermore, in the TCSA evaluation, it has garnered accolades such as the "Circular Economy Leader Award," "Innovative Growth Leader Award," and "Taiwan Top 100 Sustainable Exemplary Enterprise Award," among other ESG honors. Taiwan Glass remains committed to reducing environmental and social impacts across its product chain. Collaborating closely with its supply partners, we strive for mutual growth, leading to significant and visible achievements.

This year marks 60th anniversary of Taiwan Glass, and we would like to extend our heartfelt thanks to our stockholders, directors, independent directors, employees, corporate partners, distributors, and customers for their unwavering support throughout the years. Over the past six decades, amid changing times and external landscapes, we've faced continuous competition and challenges. In recent years, especially in the post-pandemic era, rapid global changes and the adoption of AI intelligence, digitization, and unmanned technology have ushered in a new era. Alongside adapting and innovating, as a leader in the glass industry, Taiwan Glass, with all stakeholders, is intensifying sustainable transformation efforts and establishing a low-carbon operational model, building upon our strong foundation. We are committed to keeping abreast of current trends, maintaining steady operations, and addressing future challenges in business management, environmental stewardship, and social responsibility.

Brief of Technology and R&D:

In response to the increasing prices of raw materials in the production of flat glass, our factories are continuing to implement cost reduction and efficiency improvement plans. We are also complying with the government's carbon reduction policy by replacing old equipment with low energy consumption efficiency and gradually increasing the ratio of natural gas fuel usage in our factories. Additionally, we are strengthening cooperation with external research institutions and introducing AI, energy-saving, and carbon-reducing technologies. Our goal is to utilize AI big data analysis to further reduce energy consumption in production and enhance the competitiveness of flat glass without compromising quality.

As the age of 5G is approaching, we are living in an era that everything can be connected to the Internet. Due to the characteristics of faster transmission speed, high bandwidth and low delay, the demand for such high-end substrates is increasing day by day. In addition to expanding our current production lines of low dielectric fiberglass fabric, we have developed products with lower dielectric constant and low dielectric loss to meet clients' needs for applications in big data, artificial intelligence, self-driving cars, Internet of Things, etc. To meet the needs for thinner IC substrates and low coefficient of thermal expansion (Low CTE) for insulating materials, we have developed fiberglass with low CTE to avoid warpages or broken traces due to CTE differences between chips and substrates during packaging process. Newly developed high-strength fiberglass yarn can be used in aviation, aerospace and composite materials in military & defense industry. Furthermore, to meet downstream needs for thin FRP products, we developed flat CS fiberglass for high-fiberglass products, which helps to decrease warps substantially. TG also adopts Roving products certified by DNV GL on the application of wind power generation in response to global environmental protection as well as energy saving and carbon reduction.

Operating Prospects:

Reviewing Taiwan Glass's performance in 2023, various factors like inventory clearance in the electronics sector, inflation, and exchange rate losses have impacted overall results. The group's consolidated revenue for 2023 amounted to NT\$45.62 billion, with a post-tax net profit of NT\$25 million. The following is a report detailing the business activities of each product.

In terms of flat glass, as raw material prices continue to climb, our factories are rolling out plans to cut costs and boost efficiency. They're also aligning with government policies on carbon reduction by installing solar photovoltaic systems totaling 8,700KW. Furthermore, they're swapping out outdated, inefficient equipment, utilizing AI and big data analysis for energy and carbon savings, further trimming down production energy usage. With Taiwan's power structure and electricity prices undergoing changes, the Company is also actively developing LOW-E energy-saving glass applications. This effort extends to promoting smart, zero-carbon green buildings in commercial and residential sectors to meet stricter energy-saving standards for building glass curtain walls. This initiative targets reducing air conditioning energy consumption and effectively cutting electricity expenses.

Beginning in 2023, authorities in China have eased restrictions on the real estate industry, offering increased support for consumers and property developers. This initiative has also prompted infrastructure development, leading to a gradual rebound in domestic demand. The market sees promising business opportunities after these changes and expects them to stimulate the industry and economy.

In the fiber business, Taiwan Glass is focused on cost reduction, speeding up R&D and enhancing product value. To meet the future market demands for electronic-grade fiberglass fabric in high-speed, high-frequency transmission, and AI applications, we offer low DK (DK value of 4.58 at 10GHz) and second-generation low DK (DK value of 4.3 at 10GHz) fiberglass fabrics. These products consistently earn certifications from major international end-users. Through

collaboration with Owens Corning in FRP, Taiwan Glass is increasing production capacity, lowering costs, and providing customers with comprehensive and high-performance environmentally friendly products.

In the container, tableware, kitchenware and private brand sector, Taiwan Glass is actively pursuing bids for various domestic market projects and securing foreign orders to enhance profit margins.

In terms of Shihlien Chemical Industrial Jiangsu Co., Ltd. (SCJ, 43.<u>99</u>% of its shareholding held by Taiwan Glass) in 2023, the competitive environment for soda ash and ammonium chloride intensified due to increased production capacity and changes in overall inventory. Shihlien China Holding Co., Ltd. reported a consolidated operating income of US\$530 million, with a consolidated net profit of around US\$60 million.

Important Sales Policy:

1. Innovative Technology

4. Reasonable Price

2. Excellent Quality
 5. Product Development

Cost Efficiency
 Comprehensive Services

Two. Profile

I. Date of Establishment: August 25, 1964

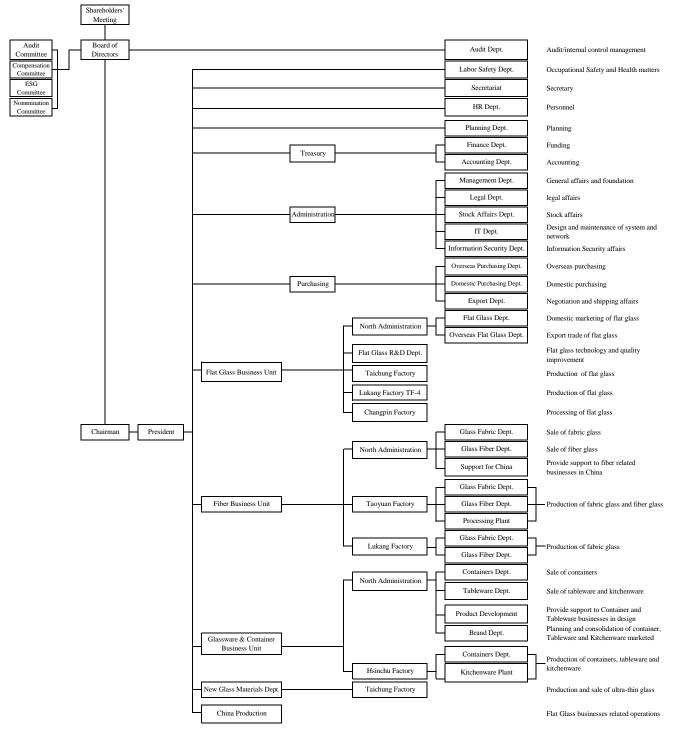

II. Organization and Operations

| Year | Milestones |
|------|---|
| 1964 | Company was established with a capital of NT\$150 million |
| 1965 | Cooperated with Asahi, Japan for sheet glass TAA |
| 1967 | Hsinchu TS Factory sheet glass plant launched into production |
| 1970 | Cooperation with U.S. WHEATON GLASS for glass containers TAA |
| 1972 | TGI Building inaugurated |
| 1973 | TGI stock listed on Taiwan Stock Exchange |
| 1974 | Cooperated with Pilkington PLC. UK for tinted glass TAA |
| 1977 | Cooperated with Veba Glass Ag. Germany for tableware glass TAA |
| 1980 | Cooperated with Pilkington PLC. UK for float glass TAA |
| 1983 | Taichung TF Factory float glass plant production |
| | Cooperated with OWENS CORNING FIBERGLAS CORP. for fiberglass reinforced TAA |
| 1987 | Cooperated with Sibata Hario, Ltd. Japan for heat-resistant glass TAA |
| 1988 | Work with Kanebo, Ltd. Japan for fiberglass fabric glass TAA |
| 1989 | 25 th Anniversary of Taiwan Glass Group |
| 1990 | Taoyuan TT Factory fiberglass fabric & fiberglass reinforced plant production |
| 1992 | Founder took the business trip to Mainland China. |
| 1993 | Taiwan Glass China Holding Ltd. established |
| | Cooperated with HERMANN HEYE for container glass TAA |
| 1994 | 30 th Anniversary of Taiwan Glass Group |
| | Establishment of TG Qingdao Factory |
| | Cooperated with Ishizuka Glass Co., Ltd. Japan for tableware TAA |

B The relationship between the tennineration and performance of the directors, independent directors and inanegers of the company is explained as follows.

I. Directors.

(1) Around surplus carnings for commension: If there is a surplus in the annual finit account, 1.5% of the surplus will be allocated as the directory compensation, and the compensation will be distributed differently according to the positions of the directors, the degree of participation in the company's operations, etc.

(2)Fired travel expenses: Not related to directors' individual performances

2 Independent directors: Fixed remuneration. No purticipation in the surplus carming distribution according to individual performances

3 Managers.

(1) Solary: Salary adjustment made according to operating performance.

(2)Quarterly retruineration on operating performance: Compensation will be paid based on the comparison between the current quarter's operating performance and the best operating performance. in noccart years

(3)Annual surplus carnings remunention on performance . If there is a surplus in the annual final account, production&saler bonases will be given based on actual performances of managers

IV. Status of Corporate Governance

(I) Information about functions and operations of the Board of Directors

The Board of Directors has called 4 meetings (A) in the most recent year, and the directors' attendance is stated as follows:

| Independent Director | Lin, Z Y | 3 | 1 | 75. <u>00</u> | |
| 2110000 | Wang, Y C | 4 | 0 | 100. <u>00</u> | |

Other matters to be specified:

(A) If any of the following circumstances occur, it is necessary to specify the dates of the board meetings, sessions, contents of motion, all independent directors' opinions, and the Company's responses towards independent directors' opinions:

(1) Matters referred to in Article 14-3 of the Securities and Exchange Act.

(2) In addition to item (1), other matters involving objections or expressed reservations by independent directors that were recorded or stated in writing that require a resolution by the board of directors: None.

(B) If any director's recusal from the discussion or voting of proposal due to conflict of interest should occur, director's name, contents of motion, causes for recusal, and voting should be specified: None.

(C) The company listed on TWSE/TPEx shall disclose the evaluation cycle and duration, scope of evaluation,

methodology, and evaluation contents of the self (peer) evaluation of the Board of Directors and fill out the "Board of Directors Evaluation Status": self-evaluation of the Board of Directors was implemented in 2023, please refer to "Board of Directors Evaluation Status" on the following page for detail.

(D) Measures taken to strengthen the functioning of the Board of Directors (e.g. establishment of the Audit Committee, increasing transparency) to assist the board in carrying out its various duties: The Company's Board has approved "Self-Evaluation or Peer Evaluation of the Board of Directors" on March, 2020.

Note 1: The name and representative of the institutional shareholder of any director who is a corporation, if any, shall be disclosed. Note 2:

- (1) Where a specific director may be relieved from duty before the end of the fiscal year, specify the date of discharge. His actual attendance rate (%) to Board session shall be calculated on the basis of the actual number of sessions held and the number of sessions he attended.
- (2) Where a reelection may be held for filling the vacancies of directors before the end of the fiscal year, list out both the new and the discharged directors, and specify if they are the former directors, or newly elected, re-elected and the date of the reelection. Their attendance rate (%) at the Board session shall be calculated on the basis of the actual number of sessions held and the number of sessions they attended during the term of office.

Board of Directors Evaluation Report

| Evaluation cycle (Note 1) | Internal performance evaluations are conducted once a year, while external performance evaluations are carried out every three years. |
|--------------------------------|--|
| Evaluation period (Note 2) | From January 1, 2023 until December 31, 2023. |
| Evaluation scope (Note 3) | Evaluation of the board, individual directors and functional committees. |
| | The board evaluation is conducted by the corporate governance manager who fills out the internal self-assessment questionnaire for the board. |
| Evaluation method (Note 4) | The evaluation on the individual director is conducted by the Questionnaire of Self-Performance Evaluation of Board Members completed by each individual director. |
| | For the performance evaluation of functional committees (including the audit committee and remuneration committee), each member fills in the functional committee performance evaluation questionnaire. |
| | The contents of the board performance evaluation include: the level of participation in company operations, the quality of board decision-making, board composition and structure, director selection and continuing education, and internal Audit controls. |
| Evaluation content (Note 5) | Performance evaluation questionnaire for the individual director will cover the following aspects: alignment of the goals and missions of the Company, awareness of the duties of a director, participation in the operation of the Company, management of internal relationship and communication, the director's professionalism and continuing education, and internal control. |
| | Performance evaluation criteria of Functional Committee(include the audit committee and remuneration committee): participation in the operation of the company, awareness of the duties of the functional committee, improvement of quality of decisions made by the functional committee, makeup of the functional committee and election of its members, internal control and etc. |

Note 1: Fill out the frequency of the evaluation of the Board of Directors, e.g. once a year.

- Note 2: Fill in the period covered by the evaluation of Board of Directors, e.g., evaluate the effectiveness of the Board of Directors from January 1, 2019 to December 31, 2019.
- Note 3: The scope of evaluation includes performance of the Board of Directors as a whole, individual director, and the functional committee.
- Note 4: Methods of evaluations include the self-evaluation of the Board, self-evaluation by individual directors, peer review, and evaluation by appointed external professional institutions, experts, or other appropriate methods.

Note 5: Contents of the evaluation shall at least include the following items:

- (1)Performance evaluation of the Board of Directors as a whole: shall at least include participation in the operation of the Company, the quality of the Board of Directors' decision making, composition and structure of the Board of Directors, election and continuing education of the directors, and internal control and more.
- (2)Performance evaluation for the individual directors: shall at least include alignment of the goals and missions of the Company, awareness of the duties of a director, participation in the operation of the Company, management of internal relationship and communication, the director's professionalism and continuing education, and internal control and more.
- (3)Performance evaluation of the functional committees: participation in the operation of the Company, awareness of the duties of the functional committee, the quality of decisions made by the functional committee, composition of the functional committee and election of its members, and internal control and more.

(II) Information about Functions and Operations of Audit Committee :

The Audit Committee has called 4 meetings in the most recent year, and the directors' attendance is stated as follows:

| Director | Wang, Y C | 4 | 0 | 100. <u>00</u> | |
| Other metter | to be specified. | • | | | |

Other matters to be specified:

If any of the following circumstances should occur, the dates of meetings, sessions, contents of motion, resolutions of the Audit Committee and the Company's response to the Audit Committee's opinion should be specified:

(I) Matters referred to in Article 14-5 of the Securities and Exchange Act. See Annual Report.

(II) Other matters which were not approved by the Audit Committee but were approved by two-thirds or more of all directors: None.

II. If any independent director's recusal from the discussion or voting of proposal due to conflict of interest should occur, director's name, contents of motion, causes for recusal, and voting should be specified: None.

III. Communications between the independent directors, the Company's chief internal auditor and CPAs (e.g. discussion items, methods and results of audits of corporate finance or operations, etc.)

(I) The CPAs hired by the Company participates in the Audit Committee meeting periodically to review or audit the financial statements of the Company and its domestic and overseas subsidiaries. The CPAs also report important accounting/audit issues to the independent directors and exchange opinions on adjusting the journal entries and the effects or account presentation due to amendments to laws. Communications between the independent directors and CPAs are stated as follows:

- 2023-03-06: Audit result report on the 2022 annual financial statements, communication with the corporate governance unit and management, Quality Management Standard 1 (ISQM 1/TWSQM 1), EY Insights – Data Analysis (analysis of customer payment terms, raw material inventory changes, raw material unit cost analysis), updates on securities and futures regulations.
- 2023-08-04: Report on the review of the 2023 second quarter financial statements, communication with the corporate governance unit and management, EY Insights – Data Analysis (customer master file analysis, customer credit limit analysis, customer aging analysis), updates on securities and futures regulations, latest developments in sustainability disclosure standards, tax law updates.
- 2023-11-03: Report on the review of the 2023 third quarter financial statements, communication with the corporate governance unit and management, EY Insights Data Analysis (customer aging analysis), updates on securities and futures regulations, latest developments in sustainability disclosure standards.
- (II) Internal audits are conducted in accordance with the annual audit plan and internal audit report is provided to independent directors for review by the end of the next month after the audit. A quarterly follow-up report will be provided to the independent directors if internal control defects or improved results of defects are found. The internal audit chief attends the Audit Committee meeting to present audit report. Communications between the independent directors and the internal audit chief are stated as follows:
 - •2023-03-06: (1) 2022-10~2023-01 internal audit report
 - (2) Assessment of the effectiveness of 2022 internal control system and Statement of Internal Control System.
 - •2023-05-09: 2023-02~03 internal audit report.
 - •2023-08-04: 2023-04~06 internal audit report.
 - •2023-11-03: (1)2023-07~09 internal audit report.
 - (2) Motion for 2024 audit plan.
- IV. Key matters of the year and its operation situation:
 - (I) Audit Committee of the Company is composed of 3 independent directors, assisting the board of directors to supervise fair presentation of financial reports of the Company, the hiring (and dismissal), independence, and performance of certificated public accountants of the Company, effective implementation of the internal control system of the Company, compliance with relevant laws and regulations by the Company and management of the existing or potential risks of the Company.
 - (II) 4 meetings were convened by the Audit Committee in 2023. Contents of each proposal and follow-ups are listed in the chart of "Resolutions related to Securities and Exchange Act §14-5."Key matters are as follows:
 - 1. Evaluation of the External Auditor's Independence.
 - 2. Motion for amendments to the "Regulations Governing the Acquisition and Disposition of Assets", "Operating Procedure for Financial Derivatives Transactions", "Operating

Procedure for Making Endorsements/Guarantees", "Operating Procedure for Granting Loans to Others".

- 3. Motion for amendments to the "Internal Control System".
- 4. Loaning funds to subsidiaries and making endorsements or guarantees for subsidiaries.
- 5. Audit the Financial Report.
- 6. Motion for audit plan.
- 7. Review the Business Report.

Note 1:Where a specific independent director may be relieved from duty before the end of the fiscal year, specify the date of discharge. His actual attendance rate (%) to Board session shall be calculated on the basis of the actual number of sessions held and the number of sessions he attended.

Note 2:Where a reelection may be held for filling the vacancies of independent directors before the end of the fiscal year, list out both the new and the discharged independent directors, and specify if they are the former independent directors, or newly elected, re-elected and the date of the reelection. Their attendance rate (%) at the Audit Committee session shall be calculated on the basis of the actual number of sessions held and the number of sessions they attended during the term of office.

Please filled in as independent director or others in the status (Please indicated if served as the convener).
- Note2:Professional Qualification and Experience: Explanation on the professional qualification and experience of the individual members of salary and remuneration committee.
- Note3:The circumstances of fulfill the independence: explanation on the circumstances of members of salary and remuneration committee fulfill the independence, including but not limited to himself, herself, spouse, relatives within second degree kinship serve as the director, supervisor or employees of the company or its affiliated companies; shareholding of the company and ratio by himself/herself, spouse, relatives within second degree kinship(or under others' name); served as director, supervisor or employees of the company (refer to the subparagraph 5 to 8, Paragraph 1, Article 6 of the Regulations Governing the Appointment and Exercise of Powers by the Salary and Remuneration Committee of a Company whose Stock is Listed on the Taiwan Stock Exchange or the Taipei Exchange); the amount of compensation from providing services of commerce, legal, finance, accounting and others to the company or its affiliated companies within the most recent 2 years.
- Note4:Please refer to the Best Practice Referencing Sample on the website of Corporate Governance Center, TWSE for the ways of disclosure.

(2) Attendance of Members at Remuneration Committee Meetings

- 1. There are 3 members in the Remuneration Committee.
- 2. 5th Committee members' term: from July 2, 2021 to July 1, 2024.

The Remuneration Committee has called 2 meetings (A) in the most recent year, and the Committee members' attendance is stated as follows:

| | Title | Name | Actual number of attendance (B) | Attend through proxy | Actual attendance rate (%) (B/A) | Remarks |
|---------------------|----------|-------------|--|----------------------------|---|---------|
| The 5 th | Convenor | Lin, S. C. | 2 | 0 | 100. <u>00</u> | |
| Remuneration | Member | Wang, Y. C. | 2 | 0 | 100. <u>00</u> | |
| Committee | Member | Chen, C. C. | 2 | 0 | 100. <u>00</u> | |

Annotation:

1. The Remuneration Committee has discussed content of the motion and Resolutions:

| Session | Date of the | Content of the motion | Resolutions |
|--|-------------|--|----------------------------|
| Session | meeting | | |
| The 4^{th} meeting of the 5^{th} | 2023-03-06 | Motion for allocation of remuneration to | |
| Remuneration Committee | | directors and managers 2022. | |
| The 5 th meeting of the 5 th | 2023-08-04 | Periodic review "Motion for | Ammanadha |
| Remuneration Committee | | remuneration to directors and | Approved by all members |
| | | managers." | all members |
| The 6^{th} meeting of the 5^{th} | 2024-03-11 | Motion for allocation of remuneration to | |
| Remuneration Committee | | directors and managers 2023. | |

- 2. If the board of directors declines to adopt or modifies a recommendation of the remuneration committee, it should specify the date of the meeting, session, content of the motion, resolution by the board of directors, and the Company's response to the remuneration committee's opinion (e.g., the remuneration passed by the Board of Directors exceeds the recommendation of the remuneration committee, the circumstances and cause for the difference shall be specified): None.
- 3. Resolutions of the remuneration committee objected to by members or expressed reservations and recorded or declared in writing, the date of the meeting, session, content of the motion, all members' opinions and the response to members' opinion should be specified: None.

Note :

- (1) If a member of the remuneration committee resigns before the end of the year, the resignation date should be noted in the remarks column. The actual attendance rate (%) shall be calculated based on the number of remuneration committee meetings held and the member's actual attendance during their tenure.
- (2) If there is a re-election of the remuneration committee before the end of the year, both the new and old members of the committee should be listed. The remarks column should indicate whether the member is an outgoing, incoming, or re-elected member, as well as the date of the re-election. The actual attendance rate (%) shall be calculated based on the number of remuneration committee meetings held and the member's actual attendance during their tenure.

(3)The information on the members of nomination committee and its implementation

1. The qualification criteria of appointing the member of the nomination committee of the company and its duties: The company established the nomination committee to complete the system of nominating directors of the company. The committee authorised from the board of directors to assisting the board of directors on the identification, check, nomination, composition and development in the organisation of the board of directors to ensure the well-composed of the board of directors. The committee is composed by at least three directors appointed from the board of directors and shall include the involvement of independent directors.

Duties of the members of the committee:

- (1) Looking for suitable director candidates, proposed the director candidates list to the board of directors, and a prior check on the director candidates' qualification conditions, educational background, working experience and any of the circumstances stated under each paragraph of article 30 of the Company Act. Propose the suggestion lists of director candidates along with the check result to the board of directors for approval and providing as the reference to elected in the shareholders' meeting.
- (2) To enacted and establish the criteria of each committee belongs to the board of directors and suggests its charter and provided suggestions of amendment to the board of directors when necessary.
- (3) Review on the qualification of the candidates for the member of each committee, the potential conflicts of interest, and recommend the candidate of new members and convener for each committee to the board of directors.
- 2. The professional qualification and experience of the member of the nomination committee and its implementation:
 - (1) There are 6 members of the nomination committee of the company.
 - (2) The service term of the 2nd committee: July 2, 2021 to July 1, 2024. The nomination committee has called 0 meeting (A) in the most recent year, within the most recent year, the qualification and experience of the members, attendance and discussion matters as follows:

| Title | Name | Professional Qualification and Experience | Actual number of attendance (B) | 0 | Actual attendance rate (%) (B/A) | Remarks |

| lated Information of TWSE/TPEx Listed Company | Climate-Related Information |
|---|--------------------------------------|
| (VI) Climate-Related Inform | 1. Implementation of Climate-Related |

| | Projects | Implementation Status |
|------|--|--|
| فتتر | Describe the Board of Directors' and | The board of director acts as the highest governance unit to the climate issues by the TGI in terms of |
| | Management's Oversight and Governance of | monitoring the climate related risks and opportunities for monitoring and decision, and establishment of |
| | Climate-Related Risks and Opportunities. | the ESG Committee to report on the working progress of the risks and opportunity from the climate to |
| | | the Board of Directors. The ESG Committee will formulate the medium- and long-term sustainable |
| | | development goals of TGI, and be responsible for integrating the company's resources cross department, |
| | | identifying climate issues related to the company's operations, formulating strategies in response to |
| | | climate change, tracking the achievement of goals, and reporting the implementation to the board of |
| | | directors promptly. The "ESG Committee." through biannual meetings and task forces formed based on specific issues. |
| | | identifies climate-related risks and opportunities relevant to the Company's operations and of concern to |
| | | stakeholders. From the four perspectives of "governance," "strategy," "risk management," and "metrics |
| | | and targets," strategies and actions to address climate change are formulated with the aim of reducing |
| | | the impact of climate risks and ensuring the management of climate-related risks and opportunities is |
| | | implemented in the Group's operations. |
| 2 | Describe how the Identified Climate Risks and | The ESG Committee will regularly identify climate risks and opportunities, annually reviewing changes |
| _ | Opportunities affect the Business, Strategy, and | in transition risks and opportunities related to policies, regulations, technology, markets, and reputation. |
| | Finances of the Business (Short, Medium, and | Simultaneously, through the identification of climate risks and opportunities, the assessment results of |
| | Long Term). | physical risks, transition risks, and opportunities will be regularly reviewed and addressed jointly with |
| | | each plant. The potential financial impact of significant climate risks will be analyzed, and contingency |
| _ | | and preventive measures will be formulated to enhance climate resilience. |
| | | Regarding climate risks, the Company has identified the intensification of extreme climate events, |
| | | increased costs or insufficient supply of raw materials, which could lead to delays in production |
| | | schedules. Additionally, as environmental regulations become increasingly stringent and carbon pricing |
| | | and carbon tax mechanisms are gradually refined, the Company's operating costs may also increase. In |
| | | terms of climate opportunities, the Company is actively improving energy efficiency, developing low- |
| | | carbon products using recycled raw materials, and providing guidance to high-risk suppliers to enhance |
| | | supply chain stability. |
| | | |

| Implementation Status The head of each factory and department of TGI held meetings with external consulting experts to investigate the extreme climate events and the impacts to the finance within the transitional actions according to the physical risks, transformation risks, and climate change opportunities of the TCFD, the potential impacts on finance and operation of the risks of climate change as follows: Delay in the production schedule due to unstable power supply and other measures: The increased of operating costs may result in operating interruptions, and the delayed in the product shipment may loss the clients' confidence in TGI. The enactment of the Carbon Fac/Carbon Tax Levy System has started in various countries: Increase in operating cost, affecting the price competitiveness of products. The impact of unstable supply/transportation of energy supply due to extreme weather (such as natural gas, dieset, heavy oil, LPG) may lead to delay delivery. The delay in the production schedule and increase in additional cost due to the measures of controlling total carbon emission by the government and orders for suspension of business or cased production, or others: Some of the equipment in the factory may not shut down; equipment damage may occur when it is shutdown; and reduce throners. Increase in cost as the laws and regulations for energy become stricter. The operating costs increase due to the establishment of factory may not shut down; equipment damage may occur when it is shutdown; and reduce throners. | The Committee summarizes major climate risk and opportunity issues and corresponding risk management measures, and reviews and tracks them regularly based on the results of the questionnaire on identifying climate change risks and opportunities. In addition, the company reviewed changes in policies, regulations, technology, markets and goodwill in the risks and opportunity of transformation amually, reviewed physical risks, transformation risks and opportunity evolution results regularly through climate risks and opportunity identification; and responded by working together with each factory plant at the same time. |
|--|--|
| Projects Describe the Financial Impact of Extreme Weather Events and Transformative Actions. | Describe how climate risk identification, assessment, and management processes are integrated into the overall risk management system. |
| ei | 4 |

| | Projects | Implementation Status |
|------------|--|---|
| vi | If scenario analysis is used to assess resilience to climate change risks, the scenarios, parameters, assumptions, analysis factors and major financial impacts used should be described. | To respond to sustainable development and mitigate the risk of extreme weather events disrupting company operations, our company has implemented climate scenario analysis to assess the risks of extreme weather events at operational sites. The Company adopted the "Representative Concentration extreme weather events at operational sites. The Company adopted the "Representative Concentration Pathways" from the IPCC's Fifth Assessment Report, using the difference in radiative forcing between 2100 and 1750 as an indicator to analyze the flood risk at operational sites. The RCP 8.5 scenario was used, and the climate conditions were estimated based on information from the "National Science and Technology Center for Disaster Risk Reduction - Climate Change Disaster Risk Adaptation Platform." II. Carbon pricing risk analysis: The Company analyzed Taiwan Glass's future carbon emissions trajectory based on three scenarios proposed by the International Energy Agency: The Stated Policies Scenario (STEPS), the Announced Pledges Scenario (APS), and the Net Zero Emissions by 2050 Scenario (NZE). By considering variations in carbon pricing per unit of carbon emissions trajectory analyzed Taiwan Glass's potential carbon pricing levels until 2050 using two different carbon price level scenarios. |
| 9 | If there is a transition plan for managing climate-related risks, describe the content of the plan, and the indicators and targets used to identify and manage physical risks and transition risks. | Each factory of TGI will analyze climate risks and opportunities based on the condition of the factory building and describe management policies. In response to the TCFD risk identification results, regular supplier evaluations will be conducted to reduce production risks caused by insufficient raw materials, and high energy consumption equipment will be gradually replaced according to the needs of the factory building. At the same time, the company has planned for the establishment and use of solar energy, and with an increase in the usage ratio of renewable energy every year. The construction was completed by the end of 2022, and it began operating in tandem in 2023. |
| F. | If internal carbon pricing is used as a planning tool, the basis for setting the price should be stated. | The company will introduce the internal carbon pricing in the future to efficiently encourage the staff to put carbon reduction into practice, hoping to reduce carbon emissions from oneself, and to promote the carbon reduction in action within the industry. |
| o ó | If climate-related targets have been set, the activities covered, the scope of greenhouse gas emissions, the scope, and the progress achieved each year should be specified. If carbon credits or renewable energy certificates (RECs) are used to achieve relevant targets, the source and quantity of carbon credits or RECs to be offset should be specified. | According to the Sustainable Development Roadmap of TWSE/TPEx Listed Companies published by the Financial Supervisory Commission in March 2022, the company as those with paid in capital of 10.0 billion and above. Our company completed the inventory of Scope 1, 2, and 3 greenhouse gas emissions for individual companies (i.e., the parent company) in 2023, and verification is scheduled to be completed in 2024, and continuously control the implementation of schedules for completing inventory and the disclosure of verification according to the guidelines and relevant regulations published by the competent authorities. |

1-2. Greenhouse gas reduction goals, strategies and concrete action plans

The Company actively promotes various energy-saving measures, selects equipment with high energy efficiency and energy-saving designs, reduces energy consumption for the enterprise and products, and expands the use of renewable energy to optimize energy efficiency.

and recovered water, actively optimizing the energy efficiency of manufacturing processes, replacing the use of heavy oil with clean energy, and installing renewable The Company sets annual carbon reduction targets, continuously reducing electricity consumption by 1% every year, increasing the total amount of recycled water energy power generation facilities in each plant area. As of the end of 2023, the installation of solar panels was completed and grid-connected power generation began, with an installed generation capacity of 8,769 kW, gradually increasing the efficiency of renewable energy utilization year by year.

The raw materials used by the Company comply with the RoHS and REACH regulations of the European Union. Under the "Sustainable Development Committee," circular system. This includes strengthening energy management, reducing product carbon footprints, enhancing water resource management, promoting circular an Environmental Protection, Energy Conservation, and Carbon Reduction Task Force has been established to build a cross-platform resource integration and economy, and using renewable energy to reduce environmental impact.

research and development of waste reduction technologies, and the design and sale of recycled products, we create circular value and increase the volume of waste In terms of green manufacturing, the Company aims to reduce unnecessary resource waste and seek waste reduction and reuse technology development. Upstream and downstream in the value chain, efforts are made to jointly recycle and reuse packaging materials. Furthermore, for products, efforts are being made to test the use of recycled materials with low environmental impact, maximizing the benefits of a circular economy. Through the recovery of process raw materials, the glass and glass reuse rate year by year.

Note 1: It shall be processed in accordance with the schedule prescribed in Article 10, paragraph 2 of the guidelines.

Note 2: The base year should be the year in which the inventory is completed within the scope of the consolidated financial statements. For example, according to the regulations stipulated in Paragraph 2, Article 10 of these Regulations, companies with a capital of NTS10 billion or more should complete the inventory of the 2024 consolidated financial statements by 2025. Therefore, the base year is 2024. If a company has completed the inventory of the consolidated financial statements earlier, it may use the earlier year as the base year. The data for the base year can be calculated based on a single year or the average value of multiple years.

Note 3: Please refer to the Best Practice Reference Examples on the website of the Corporate Governance Center of Taiwan Stock Exchange for the disclosure content.

TAIWAN GLASS IND. CORP. Statement of Declaration of Internal Control System

March 11, 2024

The Company hereby declares the following based on its self-assessment result on the internal control system in 2023:

- 1. The Company acknowledges that the Board and management shall be responsible for establishing, implementing and maintaining the internal control system. The Company has already established the system. The internal control system is intended to provide reasonable assurance on the operating result and efficiency (including profit, performance and safety of assets, et al.), reliability of financial statements and compliance with laws.
- 2. Notwithstanding, the internal control system is subject to some restrictions. No matter how perfectly it is designed, an effective internal control system is only able to provide reasonable assurance on said three objectives. Besides, the validity of the internal control system might vary subject to changes in environments and circumstances. The Company's internal control system is subject to a self-supervisory mechanism. Any defect will be corrected by the Company immediately upon identification.
- 3. The audit of the Company dealing operation has been conducted in accordance with the Standards for Public Companies in the Establishment of Internal Control System (the "Standards") for identifying the effectiveness of the internal control system, and determines if the design and enforcement of internal control are effective. The Standards are intended to judge the internal control system by dividing the system into five elements according to the management control process, namely, (1). control over environment, (2). risk assessment, (3). control operation, (4). information and communication, and (5). supervision. Each element consists of certain items. For said items, please refer to the "Standards".
- 4. The Company has already adopted said criteria to identify the effectiveness of the internal control system and to determine if the design and enforcement thereof are effective.
- 5. Based on the result referred to in the preceding paragraph, the design and enforcement of the Company's internal control system (including supervision and control over its subsidiaries) on December 31, 2023, including the achievement of operating result and efficiency, reliability of financial statements and compliance with laws, is considered effective and able to provide reasonable assurance on said objectives.
- 6. The statement constitutes the summary content of the Company's Annual Report of current year and the Offering Prospectus, and shall be disclosed to the public. Any misrepresentation or concealment of the aforementioned disclosures shall be liable to violation of Articles 20, 32, 171 and 174 of the Securities and Exchanges Act and the legal consequences thereof.
- 7. This statement has been approved by the meeting of the Board of Directors on March 11, 2024, and those 15 directors present, 0 opposed, and all agree with the contents of this statement.

TAIWAN GLASS IND. CORP. Chairman: Lin, P F President & CEO: Lin, P S

- (XIII) Adverse opinion from directors or supervisor over important resolution of the Board from the most recent year until the day the Annual Report was printed with records or written declaration, and the contents of such opinion: None.
- (XIV) Information on resignation and termination of parties relating to the financial report from the most recent year until the date the Annual Report was printed: None.

V. Audit fee information :

Currency Unit: NTD thousand

| Accounting Firm | Name of CPA | Audit Period | Audit fee | Non-Audit fee | Total | Remark |
|-----------------|------------------|--------------|-----------|---------------|--------|--------|
| Ernst & Young | Lee,Yu-Ju | 2023.01.01~ | 9.089 | 2,639 | 11.728 | |
| Effisi & Foung | Huang, Chien-Che | 2023.12.31 | 9,089 | 2,039 | 11,720 | |

Note: Non-Audit fee expenses are NT\$2,639 thousand for the grant thornton, transfer pricing report, ESG report, reimbursement and report documentation services.

In the event of any of the following circumstances, the Company shall disclose the independent auditor fee information:

- (I) In the case of change of independent auditing firm and the audit fees of the year in which the independent auditing firm was changed less than that of the previous year, please disclose the amount of audit fees before and after the change, and reasons of the change: N/A.
- (II) In the case of audit fees less than that of the previous year by more than 10%, please disclose the decrease in the audit fees, and proportion and cause thereof: N/A.
- VI. Information on the replacement of independent auditors for the most recent two years and afterwards:

The company copes with the internal duty rotation of Ernst & Young Taiwan in first quarter of 2022 and 2023. The Certified Public Accountant Hsiao, Teresa, and Fuh, Andrew was replaced by Certified Public Accountant Hsiao, Teresa and Huang, Chien-che, and Teresa, and Fuh, Andrew was replaced by Certified Public Accountant Hsiao, Teresa and Huang, Chien-che

- VII. Name of auditing firm or its affiliates at which the company's chairman, president, or managers responsible for financial or accounting matters was an employee over the past tear, his/her position and employment period: N/A.
- VIII. Evaluation of the External Auditor's Independence:

The Audit Committee of the Company has reviewed the independency and competency of audit accountant based on the following criteria and reported the examination results to the Board:

(1) The Company has acquired Statement of Accountant Independency.

- (2) The Audit Committee pre-approves all audit and non-audit services conducted by the auditor to ensure that the non-audit services do not influence the results of the audit.
- (3) Ensure the audit partner rotates every seven years
- (4) Each year, the Audit Quality Indicators (AQIs) are referenced to evaluate the independence and competence of the certified public accountants. The evaluation items include the size and reputation of the accounting firm, the academic and professional experience of the certified public accountants, the quality of audit services, the ratio of non-audit service fees, whether the certified public accountants regularly communicate and interact with the management and the audit committee, whether the Company's independent directors and relevant senior executives are independent from the certified public accountants, whether no former audit personnel from the accounting firm have been appointed as the Company's directors, managers, or positions with significant decision-making authority within the past two years, and whether there have been no significant audit violations or legal litigation cases. These items are consolidated to assess the independence and competence of the certified public accountants.

IX. Equity changes, transfers, and pledges of directors, supervisors, managers and shareholders who hold more than 10% of the Company's shares in the most recent year and until the date of publication of the Annual Report:

V. Information on market value, net value, earnings and dividends per share during the most recent two years

Note 1: Price-Earnings Ratio=Average Closing Price Per Share in current year/Earnings Per Share.

Note 2: Dividend Yield=Average Closing Price Per Share in current year/Cash Dividend Per Share.

Note 3: Cash Dividend Yields=Cash Dividend Per Share/Average Closing Price Per Share in the current year.

VI. Dividend policy and implementation:

(I) Dividend Policy

The shareholder's meeting of the Company passed a resolution on June 17, 2016 to amend the Company Charter, in which the dividend policy has been revised and reinstated as follows:

If there is any profit of annual revenue, the Company shall distribute one point five percent (1.5%) of net profit to the employees as remuneration, and less than one point five percent (1.5%) of net profit to the directors as remuneration. If there is any accumulated deficit, the amount of restitution shall be remained first.

If there is any profit after annual accounting, it shall be distributed with the following order.

1. To restitute deficits.

2. To distribute ten percent (10%) of net profits to a legal reserve. If the legal reserve has reached the amount of Capital, it is no limitation.

3. To distribute special reserve.

4. After distribution of Item 1~3 above mentioned, if there is any net profit remaining, the Board of Directors shall prepare a distribution proposal and submit to the shareholders' meeting for resolution.

For sound financial planning, appropriate dividend strategies shall be made according to the annual actual operating situation, Capital budget of next annual, and the necessary of supporting capital by profits for sustainable operation and development. After deducted Item 1 to 3 above from Income, the dividends and bonuses above mentioned shall not be lower than 50% of the earnings. Only when the dividends and bonuses is lower than 1% of capital, it can be resolved to transfer all of them to retained earnings and not to be distributed. The rate of distributing cash dividends shall not be lower than 20% of total dividends.

(II) Allocation of dividends proposed at the shareholders' meeting

The shareholders' meeting resolved that based on the outstanding common stock totaling 2,908,060,800 shares, the Cash Dividend would be allocated at NT\$0.0 per share and Stock Dividend at NT\$0.0 per share, totaling NT\$0.0 per share.

VII. The effects of stock grants proposed at this shareholders' meeting on business performance and EPS: N/A, as no stock dividend was allocated.

VIII. Remuneration to employees ,directors and supervisors:

(I) Proportion or scope of remuneration to employees ,directors and supervisors as stated in the Company's Articles of Incorporation:

If there is any profit of annual revenue, the Company shall distribute one point five percent (1.5%) of net profit to the employees as remuneration, and less than one point five percent (1.5%) of net profit to the directors as remuneration. If there is any accumulated deficit, the amount of restitution shall be remained first.

(II) The accounting in the case of deviation from the basis for stating remuneration to employees and remuneration to directors, the basis for calculating the quantity of stock dividends to be allocated, and the actual allocation.

| Currency | Unit: | NTD | thousand |
|----------|-------|-----|----------|
| | | | |

| | Stated as expenditure | <u>Actual</u> <u>allocation</u> | Deviation |
|---|--------------------------|------------------------------------|-----------|
| Cash remuneration to employee | 651 | 651 | - |
| Stock remuneration to employee | - | - | - |
| Remuneration to directors and supervisors | 651 | 651 | - |

Deviation treatment: N/A.

- (III) Information about any proposed allocation of remuneration by the Board of Directors' Meeting:
 - 1. Allocation of cash remuneration and stock remuneration to employees/ directors/supervisors.

Currency Unit: NTD thousand

| Cash remuneration to employee | 651 |
|---|-----|
| Stock remuneration to employee | - |
| Remuneration to directors and supervisors | 651 |

2. Quantity of stock remuneration to be allocated to employees, and the proportion thereof to net income, and total of the same and remuneration to employees to net income, for the current period:

No stock remunerations have been allocated to employees.

(IV) The actual allocation of remuneration to employees/directors/supervisors in the previous year (including the number, amount and stock price of allocated shares), the remuneration between the actual allocation and the estimated figures, if any, and cause and treatment thereof.

Due to the current loss incurred in 2022, pursuant to Article 26 of the amended company articles, no director or employee remuneration will be distributed.

IX. Buyback of common stocks: N/A

- X. Information on the Company's Issuance of Corporate Bonds: N/A
- XI. Information on Preferred Shares, Global Depository Receipts, Employee Stock Warrants and Issuance of New Shares in Connection with a Merger or Acquisition or with Acquisition of Shares of Any Other Company: N/A
- XII. The Company's Capital Allocation Plans: N/A

Five. Overview of Operations

I. Content

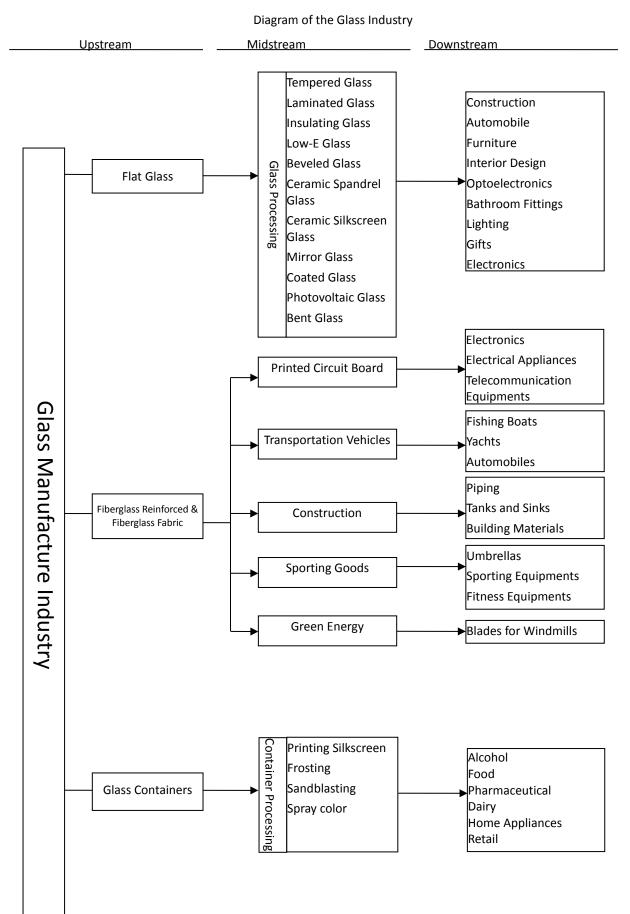

- (I) Scope of Business
 - 1 The scope of business covers the following areas:
 - (1) Mining, processing, and sale of glass materials.
 - (2) Manufacturing and sale of flat glass products.
 - (3) Manufacturing and sale of rolled glass products.
 - (4) \checkmark Manufacturing and sale of wire glass products.
 - (5) Processing and sale of reflective flat glass products.
 - (6) Processing and sale of tempered and laminated glass products.
 - (7) \checkmark Processing and sale of mirror glass products.
 - (8) Processing and sale of insulating multi-layer glass products.
 - (9) Processing and sale of railcar coach glass products.
 - (10) Processing and sale of tabletop and beveled glass products.
 - (11) Manufacturing and sale of glass container products.
 - (12) Manufacturing and sale of glass tableware products.
 - (13) Manufacturing, processing and sale of high temperature-resistant glass products.
 - (14) Manufacturing, processing and sale of fiberglass reinforced and fabric products.
 - (15) Export of glass manufacturing machinery and technologies.
 - (16) Import and export of glass materials and machinery.
 - (17) Glass installation project engineering.
 - (18) Taiwan Glass may conduct businesses other than the registered categories permitted by the laws and relevant regulations.

2 Current Major Products and Ratio of the Company

| Major Products | Ratio |
|-----------------|--------|
| Flat Glass | 73.77% |
| Glass Fiber | 17.84% |
| Glass Container | 8.39% |

- 3 Products under Development:
 - (1) Changpin Plant developed a series of high-performance toughened triple silver coating Low-E glass and toughened double silver coating Low-E glass.
 - (2) Heat resistant milk bottles and laboratory bottles, stable quality and continuous growth. and development of high-white spirit bottles and portable bottles.
 - (3) TG brand homeware was officially launched in December 2018 and has sold 110 items so far, and the brand develops 30 new products each year. This brand will help Taiwan Glass to enhance product value and to enter B2C market. The TG flagship store was opened at the first floor of the Taiwan Glass Building on December 15, 2020.

(II) Overview of the Industry: This section briefly describes the current status and development of this industry, the links between the upper, middle, and lower stream products and the development/market trend and competition in the industry.

- 1 Flat Glass:
 - (1) Current Status and Development:
 - A
 Taiwan Glass Industrial Co. Ltd. (TGI) responds to the fluctuations in domestic and global demand and the world economy by making timely adjustments to the production lines and the capacity of the processing plants. It also actively seeks business opportunities with a focus on the domestic market and holds an ambition to venture into the export market under the principle of stable costs for maximum competitiveness.
 - B Vith the advantage of an integrated supply chain and in response to the policy of "Service-oriented Manufacture", TGI teams up with its partners to confront competition in the domestic and foreign markets and create a market-leading brand.
 - C

 In response to the development of energy-efficient architecture and the optoelectronic industry, in addition to continuously developing energy-saving and environmentally friendly Low-E coated glass technology, TGI has further upgraded the processing equipment and production capacity at the Chuanghua Coastal Industrial Park to meet the demand in the domestic market for energy-efficient construction.
 - D Uncertainty of ECFA. Under the influence of CPTPP, ASEAN treaties and agreements between the US and South Korea, the emerging nations in Asia are expanding their glass production lines and capacities rapidly with upgraded technology; TGI is expected to encounter fierce competition in the market.
 - E Unexpected uncertainties in the global economy, such as a slow recovery in the U.S.-China trade war and on both sides of the Taiwan Strait, are creating instability.
- 2 Fiberglass Fabric and Reinforced
 - (1) Fiberglass fabric is an upstream material for PCB production; therefore, it is highly sensitive to fluctuations in the electronic market and characterized by a closely-knit network in the industrial supply chain. The final product is developed towards slim, high precision, and high performance, in order to achieve market differentiation.
 - (2) The low dielectric constant (LDK) fiberglass cloth has been successfully developed and in mass production, to fulfill the market demand for the 5G high-frequency and high-speed materials.
 - (3) Fiberglass reinforced is mainly used for thermal-plastic related applications. It is a green product gradually replacing the thermal-setting manufacturing process; therefore a higher level of quality is demanded. This is beneficial for TGI in the sense that it avoids direct impact from the competition of lower-quality fiberglass manufacturing regions.

- 3 Container
 - (1) Capacity: The cold period of TS-3 will last for five months in 2024. The capacity 137 thousand tons.
 - (2) Deepening education and training, equipping new employees with quality, improving quality, reducing workforce.
- 4 Tableware and Kitchenware
 - (1) The supply to the domestic market is focused on gift items and retail. The major competition is glassware imported from China, Europe, US and Turkey.
 - Tableware: The supply for export is mainly focused on the markets in Japan and Korea, and the channels are mainly retail, gift items and vintners.
 Kitchenware: 90% of kitchenware is exported to small appliances vendors in China, which are then exported to Europe and the U.S. after assembly.
 - (3) When compared with major competitors, Taiwan's glass products are taxable between 8 to 30% when exported to the US, China, EU Nations and ASEAN Nations. This is a major setback in global competitiveness.
- 5 Brand

As the production technology of TAIWAN GLASS for food containers has reached the globally recognized level, the Company has created its own brand TG targeting new groups in pursuit of a high-grade lifestyle, and invited the international design master, Naoto Fukasawa, to incorporate the Taiwanese culture he experienced into design, produce beautiful heat-resistant glassware, and market such products around the world starting from Taiwan.

(III) Overview of Technologies and R&D:

- 1. TGI's flat glass products have a long lifecycle and significant investment in equipment. The main production technologies are imported from advanced countries. R&D efforts focus on technology improvement, quality enhancement, efficiency optimization, development of energy-saving and carbon-reducing products, as well as low-carbon and low-pollution production.
- 2. In addition to the high-performance off-line coating, Low-E energy-saving glass, TGI focuses on the R&D of super clear, TCO, and ultra-thin glass in response to the development of the domestic and overseas photovoltaic and display panel industries.

1. Flat Glass:

Short-term:

As the industry is facing the challenges of shifting global economic blocks and rapid advancement in technologies, through automation and specialized production, TGI aims to lower costs and maximize efficiency. To counter global competition and ensure stable growth in the uncertain outlook of the global economy, TGI will focus on brand positioning, reinforcing customer services, and the development of a wider scope of international customers.

Long-term:

Bulk sales of Low-E glass are the primary focus, reinforcing users' awareness of energy conservation and environmental protection, thereby promoting widespread adoption of Low-E glass.

In response to market demand, TGI will actively develop professional human resources, research/develop new products and procure production facilities for optoelectronic and energy-saving products, aiming to reinforce the industrial cluster advantage in the domestic market as well as to consolidate the TGI plants in Taiwan and China, expand the global marketing channels, and instill a firm foothold for TGI's brands.

2. Fiberglass Fabric and Reinforced:

Short-term:

TGI will constantly make adjustments to the product structure in response to market demand, increase the added values and processing level, reinforce customer service, expand the market, and reduce direct exposure to the fluctuations in the market.

Long-term:

For the long-term, TGI targets lower costs by upgrading furnace efficiency, reinforcing product performance, developing new products for higher cost efficiency, and periodically reviewing the need to replace old manufacturing facilities to ensure optimal supply versatility, so as to respond quickly to the changes in market demand.

3. Container:

Short-term:

1. Continuously promote lightweight bottle designs, increase the usage of recycled glass, and actively expand the production of high-value large white wine bottles. Quality standards are aligned with customers' food safety requirements, enhancing overall product quality.

2. Effectively plan order fulfillment and production, reduce loss due to form and color distortion, and increase output.

Long-term:

- 1. Talent cultivation and organizational upgrade.
- 2. Constantly introduce new technologies to increase the yield rate and expand the limit of production specifications.
- 4. Tableware and Kitchenware:

Short-term:

1. Increase on-line sales channels and multi-channels to raise shipments and to reduce inventory.

Long-term:

- 1. Improving ODM and B2C capacity to activate inventory.
- 5. Brand:

Short-term: Increase brand exposure, develop physical and online channels and to undertake interdisciplinary collaborations with established brands.

Long-term: Strengthen brand image, increase added value and to market the brand to the whole world.

I. Overview of Market, Production, and Marketing

(I) Market Analysis

- 1. The major markets by product category
 - Flat Glass: The domestic market and coop export accounts for 90% and export 10%. The main markets are Asia, Latin America, Australia, Europe, Africa, and North America.
 - (2) Fiberglass Fabric and Reinforced: The domestic market accounts for 41% and export 59%. The main markets are Europe, the US, China, Japan, South Korea, Middle East, Southeast Asia, New Zealand, and Australia.
 - (3) Container: The domestic market accounts for 65% and export 35%. The main markets are the US, New Zealand, Australia, China, and Germany.
 - (4) Tableware and Kitchenware: For tableware, the domestic market accounts for 95% and export 5%. The main markets are Taiwan, Japan, and Korea. For kitchenware, 90% of the export goes to China.
 - (5) New Materials: The domestic market accounts for 5% and export 95%.

- 2. Market Share:
 - (1) Flat glass takes up approximately 75% of the domestic market.
 - Fiberglass Fabric and Reinforced: Fiberglass fabric takes up approximately
 35% and fiberglass reinforced 55% of the domestic market.
 - (3) Container takes up approximately 60% of the domestic market.
 - (4) Tableware and kitchenware take up approximately 10% of the domestic market.
- 3. Future Supply and Market Growth

Flat Glass:

- A TGI adjusts production lines timely to respond to the changes in the global economy and the demand in the domestic and export market.
- B
 The film coating technology and quality of ChangPin Processing Plant have reached international standards, thus setting a brand status in premium green construction materials and reinforcing faith in future competitions.
- C With the spirit of teamwork, TGI has consolidated the processing facilities and R&D capacities in the entire supply chain and continues to strive for orders with higher prices and vie for international brand exposure.
- D
 TGI's flat glass production lines are well distributed in the regions of China.

 These production plants are currently sufficient to supply the Chinese market; in addition, we are working towards quality upgrade for the export market, as well as expanding the global marketing network, creating higher product values and competiveness.

Fiberglass Fabric and Reinforced:

- A TGI is working to upgrade production capacity, lower costs, and increase market share.
- B The global fiberglass reinforced market is competitive at different levels and it is differentiated by quality. TGI focuses on lowering costs, enhancing product performance and values.
- Container: The demand of TGI's domestic customers is stable, and the company is actively developing new customers in the export market.
- Tableware and Kitchenware: TGI is actively developing a range of differentiated marketing channels, as well as pursuing higher quality with diverse packaging choices to stabilize the quality of the products, develop competitive products that meet the demand of the consumer market.
- 4. Advantages and Disadvantages in Competitive Niche, Future Development and Contingency Measures

Competitive Niche:

TGI possesses sound financial health, economy of scale and high-efficiency manufacturing process. With comprehensive quality management, mutual supply and marketing chain, TGI's competitive edge lies in our versatility.

Advantages:

Flat Glass

TGI and its plants in China employ a simple, flexible management system to ensure utmost quality. Furthermore, our price and production can be adjusted to quickly adapt to market changes with efficiency and clarity, develop Low-E glass. This expansion will meet future demand in the construction and energy markets. A subsidiary plant of TGI specialized in glass material processing has been established, which is expected to decrease the cost of materials and increase competitiveness.

Fiberglass Fabric and Reinforced

TGI supplies 100% of the fiberglass yarn for its own production of fiberglass fabric and fiberglass; therefore the company is somewhat immune to the price, demand and supply fluctuations in the market. The production lines are extremely versatile and the quality of the products has garnered a good reputation for the firm. TGI has a good grasp of market information and the distribution channels also demonstrate a high level of loyalty.

Container

- 1. TGI's comprehensive talent cultivation, quality management and efficient services facilitate upgrades in product quality and quantity, in turn endowing TGI with competitive advantage.
- 2. Continue to optimize online inspection facility and an automated packaging facility. This not only improves TGI's competitiveness but also differentiates it from the competitors in the market.

Tableware and Kitchenware

- Processing and assembly lines for tableware and kitchenware products were set up to manufacture heat-resistant double-layer cups with non-slip handles. This new facility is completed with an assembly line for color boxes and accessories, to provide customers with retail packaging in order to fulfill market needs more closely.
- 2. Quality recognition from cooperation with leading brands such as Starbucks, 7-ELEVEN, and McDonald's.

Disadvantages:

Flat Glass

Since Taiwan became a member of the WTO, global competition has gradually emerged. Under the influence of emerging countries and expanded regional trade treaties between the Asian nations, especially ECFA, if Taiwan continues to increase the import of glass products from China, the cheap products with inconsistent quality will no doubt impact upon the domestic market. Uncertainties in the global market have not been clarified as expected; therefore, demand in the domestic construction, photovoltaic and car industries is not expected to increase significantly. Affected by cheap Chinese imports, the price of domestically produced products will remain low.

Fiberglass Fabric and Reinforced

The electronics market is highly volatile, therefore the actual trends often differ from the forecasts. Since Taiwan is adjacent to China, the market is facing fierce competition from vigorous production expansion and price wars.

Container

Competitions from glass bottle manufacturers in China and U.S., and cost increase impacted the unit price at home and abroad.

Tableware and Kitchenware

- 1. With increased production costs and a lack of product variety, the distribution channels are concentrated on a small number of clients.
- 2. The demand in the domestic market is shrinking due to the price competition from China and ASEAN nations.
- 3. The competitiveness in the export market is weak due to the slow economic recovery and inequality in tariffs.

Contingency Measures:

Flat Glass

TGI will reinforce specialized human resources and technologies, develop new products, update facilities with automated systems, upgrade product added-value and develop an international brand. TGI intends to cultivate professional marketing channels in order to develop diversified and innovative products to ensure our global competitiveness.

Fiberglass Fabric and Reinforced

TGI will cut down on costs, reinforce R&D and technology upgrades, devise flexible pricing strategies, secure domestic market share and fulfill our customers' demands regarding specifications, packaging, and delivery. The company aims to provide flexible services, avoid engaging in price wars and ensure good product quality.

Container

TGI intends to cut down on costs by maximizing production efficiency, implementing energy-saving measures and striving to maintain a high standard of quality and services. We expect to stay ahead in global competition through differentiation.

Tableware and Kitchenware

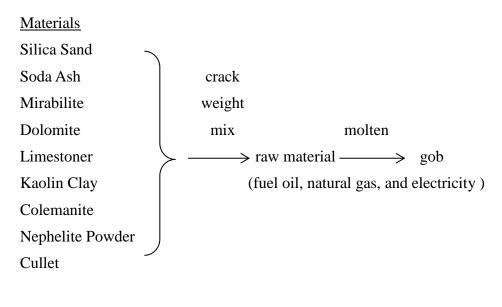

- 1. TGI aims to create higher added value and offer the customer more diverse choices through diversified production capacity and color box packaging.
- 2. TGI plans to upgrade product quality and production efficiency.

(II) Applications of the Major Products and the Production Process

| 1. ripplieditolis of | J |
|----------------------|---|
| Product | Application |
| Flat Glass | Building construction, furniture, home decoration, mirrors, automotives and |
| | boats, photovoltaic covers, touch screen and gifts |
| Fiberglass Fabric | Electronic and information products |
| Fiberglass | Reinforcement for yachts, building material, industries, engineering, sports |
| Reinforced | goods |
| Glass Container | Food, beverages, spirits, medical packaging, storage, and airtight containers |
| Tableware | Beverage, food, gift, home decoration, and signboards |
| Kitchenware | Kitchen utensils, tea makers, glass coffee pot |

(3) Tableware and Kitchenware
 Gob→ (forming) → (slow cooling) → (inspection)
 → product of tableware and kitchenware → (printing) → printed product
 └─→ (Recycle) cullet

(III) Supply of the Major Materials

The glass industry uses several major materials, including silica sand, soda ash, kaolin clay, colemanite, fluorite, nepheline, dolomite, and limestone. Dolomite and limestone are produced in abundance domestically. Silica sand is imported from Australia through the Japanese Mitsubishi Trading Co., and soda ash is imported from the US Company ANSAC. Kaolin clay is imported from the US Wakinson Co., through US trading company AMI. Colemanite is imported from the Turkish company ETI. Overall, TGI has a stable source of materials.

- (IV) Customers accounting for 10% or more of the Company's total purchase (sales) amount in either of the most recent two years, the most recent two years, the amounts brought from (slod to) each, and the percentage of total procurement (sales) accounted for by each, and the cause for increase/decrease thereof.
 - 1. Sales: There was no customer accounting for 10% or more the Company's total sales in either of the most recent two years.
 - 2. Purchase: There was no customer accounting for 10% or more the Company's total purchase in either of the most recent two years.

IV. Environment protection measures:

- (I) Loss and penalty suffered from environmental pollution from the most recent year until the date the Annual Report was printed: N/A
- (II) Countermeasures and potential expenses: The expenditure on environmental protection in 2023: NT\$756,795 thousand. The estimated expenditure on environmental protection in 2024: NT\$648,66 thousand.
- (III) Information about RoHS: The Company has complied with RoHS, without prejudicing the Company's finance and business.

V. Labor Relations:

- (I) The Company's employee fringe benefits, continuing education, training, retirement system and implementation thereof, and various labor-management agreements and measures on protection of employees' interest and right:
 - 1. Employee welfare:

With the aim to take care of and ensure the employees' living conditions, TGI offers basic welfare measures according to the applicable laws and also provides or sponsors the development of various benefit plans, including establishing the employee welfare committee to manage any and all matters related to the welfare of its employees, and to plan and execute the benefit plans. The current welfare measures are as follows:

| | \star Employee health examination package that is better than the requirements |
|-------------|--|
| Health care | stipulated in the laws and regulations. |
| | ★ Family members of employees can enjoy health checkup at discounted |
| | prices. |
| | \star Factory-based doctors and nurses or on-site health services. |
| | ★ Implement the four major plans of occupational safety and employee |
| | health management. |
| | \star Actively promote exercise clubs and health seminars. |
| | ★ Establishment of basketball court, fitness room, and table tennis room. |
| | ★Planning for after-work exercise courses (survey for employees' interests). |

| | \star Provide employees' restaurant, dormitory, and nursing room. | | | | | |
|-----------------|--|--|--|--|--|--|
| | \star Half-price discount for employees' meals/travel subsidy/subsidy for | | | | | |
| | activities of social clubs. | | | | | |
| Life care | ★ Perks (birthday/funeral), childbirth bonus/gifts. | | | | | |
| | ★ Leave without pay for employees' family accident / parental leave | | | | | |
| | ★ Comprehensive benefit system for employee death payment. | | | | | |
| | ★ Quarantine leave /Unpaid Family Care Leave | | | | | |
| | ★ Birthday leaves for employees. | | | | | |
| Bonus for major | ★ Bonus for three major holidays. | | | | | |
| holidays | ★ Year-end dinner/bonus. | | | | | |
| | ★ May 1 Labor Day bonus. | | | | | |
| | \star Conduct refresher development plan and free foreign language learning | | | | | |
| Loorning coro | courses for employees | | | | | |
| Learning care | \star Rewards for employee training. | | | | | |
| | ★ Scholarship for employees' children. | | | | | |
| | \star Employee group accident insurance that is better than the requirements | | | | | |

| moutance care | can also insure with the discount price. | | | | | |
| | ★ Employees' business trip/dispatch travel insurance. | | | | | |
| | | | | | | |

2. Continued education and training:

The core objective of Taiwan Glass is to cultivate professional talents. The Company values career planning and individual development of its employees, and strives to convey TGI's mission, vision, and value through talent development. Dedicated personnel plan courses for new and current Taiwan Glass employees in each year based on organizational strategies and results of training need surveys and analysis. Such courses range from common courses, professional courses, to management knowledge and self-development training courses.

| professionar | oressional courses, to management knowledge and sen-development training courses. | | | | | |
|--|---|--|--|--|--|--|
| | Education | and Training System for Taiwan Glass Employees | | | | |
| | Common courses | Group Introduction staff instructions regulations occupational safety and health training, human resource Management system, professional document reading, etc. | | | | |
| New | Professional courses | Unit Course, factory internship, etc. | | | | |
| New employee orientation and education | Counselor system | Through the mutual assistance mechanism of employees, we promote employees' inheritance of experience and knowledge. By providing one-on-one caring, guidance and coaching from skilled senior mentors, new employees can be empowered to blend in faster and adapt to the work environment and retention rate can be increased accordingly. Discover issues encountered by new employees as early as possible during the counseling period and offer assistance. If they are unable to do the job, communicate with them and improve the issue as soon as possible. | | | | |
| On-the-job education and training | Annual education and training | Each department is asked to plan course needs at the end of each year, and the needs are integrated with course plans for the second half of the year to formulate a set of annual course schedule and syllabus. | | | | |
| On-the-job education and training | Application for external training | Depending on the needs of each department, employees will be selected to participate in the external training to strengthen professional knowledge. | | | | |

| | Education and Training System for Taiwan Glass Employees |
|---|---|
| Diversified developme nt training | Diversified developing training courses are organized to enhance the knowledge and skills of employees in line with regulatory requirements and based on requests from each plant. Regulatory requirements: information security course, fire drill course, personal data security and protection, occupational safety and health advocacy, and anti-workplace harassment courses and more. professional skill: language courses, training/operation of cranes and stackers, and emergency rescue and more. |

Taiwan Glass has formulated a comprehensive training system and provides diverse learning channels, and enhances employees' awareness for human rights, occupational safety, and legal compliance through systematic training on subjects such as: entry-level employee standardized operations, optimized management functionalities for executives, and advocacy for occupational safety and health education.

A dedicated personnel and training center has been set up at Taiwan Glass that uniformly plans various types of training, formulates annual training plan, and develops needed technical and management personnel related to the glass industry through professional courses, training, and hands-on practice. In case other qualifications are needed at work (such as level of education, technical competency, license or experience, etc.), appropriate personnel will be selected and evaluated accordingly (e.g. professional license should be required for operators of cranes and stackers).

3. Retirement System:

The Company has defined the employee retirement plan, and established the Pension Fund Management Committee in 1980, and contributed 8% of the total salaries as the pension fund on a monthly basis. As of January 1, 1987, the contribution of pension fund was made at the specific percentage of the total salaries on a monthly basis pursuant to the "Labor Standard Act". As of January 1, 1995, the contribution rate was 15%. As of September 1, 2004, the contribution rate was 9.27%. As of May 1, 2005, the contribution rate was 6%.

According to the Labor Standard Act, a worker may apply for voluntary retirement at the age of fifty-five and has worked for fifteen years, or has worked for more than twenty-five years, or attains the age of sixty and has worked for ten years. Meanwhile, the Company's work rules provided the retirement conditions superior than those provided in the Labor Standard Act, namely, a worker who attains the age of forty-nine and has worked for more than fifteen years, or who has worked for more than nineteen years may retire earlier upon approval. The pension is awarded subject to the worker's service seniority. Namely, the worker whose seniority attains one year would be awarded with two months' unit, and one month's unit per year for seniority as of 16^{th} year.

As of July 1, 2005, in order to cope with the enforcement of "Labor Pension Act" by the Government, the Company contributed 6% of the monthly salary of a worker who may apply the Act to the Labor Insurance Bureau accordingly.

TGI, based on Labor Standards Act and Labor Pension Act, has formulated a retirement policy. Employees that joined the company before June 30, 2005, will enjoy pensions calculated based on the old labor pension system. If an employee chooses the new pension system, he/she can enjoy the new system's seniority. The old pension fund is with an

amount equivalent to 6% of the monthly salary appropriated for each employee subject to the old retirement plan and deposited in the pension reserve account at the Central Trust of China. The new pension fund, in addition to an amount equivalent to 6% of the monthly salary appropriated by the employer to the employee's personal pension account, the employees can also choose to appropriate an amount equivalent to 0%~6% of the monthly salary discretionally. All employees have participated in the retirement plan. In addition to appropriating pension to the respective accounts regularly, TGI has a professional accounting consultant that precisely calculates the pension to ensure that the company appropriates enough pensions every month so that our employees can receive pension after retirement.

TGI's retirement policy not only guarantees the employees their pensions in the future, but the clear rules regarding employee retirement can be implemented precisely and help our employees plan their retirement. In 2023, 75 employees retired, with an average of 27.78 years of service. Senior supervisors were presented with medals from the chairman/president as a token of appreciation for their service over the years.

- 4. Work environment and personal safety protection measures
 - (1) Health Monitoring-ups (pre-employment physical examinations and regular employee physical examination):

New employees must complete a physical examination before starting working at TG. The company uses the examination report to assign new employees to a suitable position, place them in the correct category for management, provide health education and keep track of the employee's health. Our formal employees receive a health checkup every two years. For those in hazardous positions, they receive a special physical examination a year and sanitation and health education four times. The results are submitted to the company's nurse practitioners stationed at each factory who analyze and preserve the reports to understand the employees' health. Nurse practitioners will provide health education to those at high health risk and arrange them for repeat doctor visits to keep track of their health condition and help them receive treatment if necessary. The nurse practitioners will follow up with employees' health conditions and evaluate whether or not they are fit for their current positions. When needed, they will help employees get reassigned to other positions. Health-promoting activities are planned based on the staff's health conditions.

Taiwan Glass regularly and timely provides health education information via e-bulletin based on seasonal and pandemic conditions. Electronic sphygmomanometers and body mass and weight monitor (measures weight, body fat, physical age, basal metabolism rate, visceral fat, and body mass index for the fully body, arms, body, and feet and skeletal muscle rate) are placed at the nurse's office, allowing employees to monitor their health and to encourage weight loss management.

For employees on shifts or extended working hours with comprehensive hazardous factors including overweight, smoking, abnormal blood pressure or diabetes, and screen groups with potential risks via the Work Hour Review Chart. Relevant operating evaluation will be undertaken on said groups after extensive data collection, and doctors

will diagnose, transfer the patients to relevant department for treatment, and provide health education. Operating adjustment and restraint will be recommended when necessary, and the situation will be continuously monitored to maintain the physical and mental well-being of employees.

(2) Ergonomic Injury Prevention

A safe and healthy workplace environment has been formulated to prevent ergonomic hazards and repeated muscular or skeletal injuries sustained by employees during work. Taiwan Glass conducts data collection, analysis, and tiered management based on different types of employees' work, and drafts improvement method and health promotional activities based on the condition of muscular/skeletal injuries or diseases and work environment.

(3) Plan to Prevent Disease Caused by Unusual Workload :

All the measures aim to prevent brain and cardiovascular diseases among our employees and reduce their mental load.Taiwan Glass keeps track and evaluate risks of our employees' health conditions, nature of work (shifts, night shifts, long work hours,unusual workload and unusual workload) and work hours. For employees with potential health risks, Taiwan Glass arranges doctors to provide them with health education or refers them to seek medical assistance. The company also helps such workers adjust their workload and provides them with information on health education.

(4) A preventive plan for duty implementation subject to illicit violation

Taiwan Glass clearly declares the principle of "Zero Tolerance" in workplace violence. It specifies relevant disciplinary regulations in the work rules of employees, and announces relevant safety and health measures policies, establishes complaints, notification channels and follow-up processing mechanisms, and implements and advocates them in public places, such as, new recruits reporting to duty and with education and training provided, so that all employees and interested parties understand clearly, and then to achieve a workplace culture of safety, dignity, non-discrimination, mutual respect, tolerance, and equal opportunities, and ensure the physical and mental health of employees.

(5) Workplace maternal health protection

Taiwan Glass cares for the employees' work environment, and actively cares for and evaluates the risks in work environment for female workers from pregnancies to one year after childbirth. Sessions with occupational health doctors are arranged, and adequacy evaluation and recommendation is proposed based on individual health condition of the female employees. Besides providing healthcare education and knowledge, work content and hours are also flexibly arranged to ensure the work and physical safety of TGI's employees.

(6) Occupational Safety Management

TGI's occupational hazard management operates on a principle of zero-hazard. This principle is also the benchmark for various safety tasks throughout Taiwan Glass's plants. The operating mechanism of occupational hazard management targets the

reporting and investigation of accidents and near miss incidents, and completion of improvements to the preventive hazard procedures. Additionally, occupational hazard statistical data and clarifying the reasons behind such incidents are also executed and included as key preventive measures. The key preventive measures and methods are disseminated to each department in the hopes of effectively preventing the recurrence and reducing the severity of similar accidents.

5. Benefits for occupational accidents:

The Company has also defined the benefit plan for employees who are injured or deceased in the performance of job duty. For example, if any employee strives to rescue any co-worker or job at risk of his own life, or still performs his job fearless of any danger, or still performs his job at a dangerous location or during a dangerous period, he would be paid the wages in full, in addition to the special benefits equivalent to the salary of 6-24 months, pursuant to the reimbursement clauses for occupation accident, subject to the circumstances. The employee who dies in the performance of job duty would be granted the benefit in full subject to his seniority. Additionally, the funeral subsidy equivalent to the salary of five months or two months would be also granted for the injury or death on duty. The employee who leaves without pay upon expiration of the sick leave and dies of the sickness within one year after the leave without pay shall be deemed deceased on duty and granted the benefit as required.

- 6. Labor-Management Consensus and Measures of Protecting Employees' Rights:
 - (1) TGI maintains a constant policy of pension allocation and payment and retain professional accounting consultant each year to provide actuary services and ensure that the amount allocated is sufficient to uphold the retirement rights.
 - (2) While pursing the growth of the company, TGI has established the accounting system and internal control system to ensure the implementation of the ethical management to possibly assured the company's each unit is performing business in accordance of relevant laws and regulations like the Company Act, Securities and Exchange Act, the regulations related to the public listed, OTC companies and other relevant laws and regulations of other business behaviors. The entire employees of the company had signed the Ethical Corporate Management Best Practice Principles for Employees for the Ethical Corporate Management Best Practice Principles, there are 180 people signed for newly recruited employees in 2023 with the rate of signed as 100%. In addition, the training related to the ethical management (including Rules and Procedures required for the Employees, Corporate Social Responsibility and other issues) with 1,138 attendees, 1,048 hours of training. The board of directors approved the "Measures for the Report on Illegal, Immoral and Dishonest Acts" on August 08, 2018 for putting the Article 20 of the Ethical Corporate Management Best Practice Principles in practice, clearly disclose the handling unit, channels, handling procedures and others when reporting and published the reporting email account and phone line for employees to report on the internal website and established the email communication channel on the external website for reporting and suggesting anytime, whether is suggestions to the company's management policy or the employees treated unequally (for example sexual harassment, workplace violence and etc.), employees may response and suggest to the company under the basis of confidentiality.

- (3) TGI complies with international labor conventions and relevant domestic trade union laws and regulations. Labor unions have been established in some factory areas, with a total of 1,035 employees participating in the union as of the end of 2023. In addition, collective agreements were signed in October 2021 with a validity period of 3 years, laying a more solid foundation for labor-management harmony. The Company holds labor management meetings. The company held the labor-management meeting regularly and established an employees' email, bulletin and contact number as the channel for employees to express themselves, instantly receiving opinions and appointed relevant personnel to attend the meeting and response to the meeting proposal to use as the reference for further improvement and coordination, maintaining smooth labor participation channel and the good labor-management atmosphere.
- (4) In order to fulfill corporate social responsibility, and safeguard the basic human rights of all colleagues, customers and stakeholders, Taiwan Glass adheres to the principles disclosed in, the UN International Labor Organization, the UN Global Compact, the UN Guiding Principles on Business and Human Rights, and the UN Universal Declaration of Human Rights, respects internationally recognized fundamental human rights, including ban on child labor, care for vulnerable groups, freedom of association, and elimination of all forms of forced labor and employment discrimination, and abides by the labor-related regulations of the place where the Company is located. The Company's human rights policy applies to units at all levels affiliated with the Company, with particular emphasis on the following human rights issues, and continuous promotion of the quality of human rights: diversity and inclusion, equal opportunities/reasonable working hours/health and safe workplace/freedom of association/labor negotiation/privacy protection. The relevant human rights policy has been disclosed in the Company's internal announcements and external websites, and education thereon has been provided to new hires
- (5) The Company's business performance or results are appropriately reflected in the employee remuneration. Therefore, if there is any profit in the year specified in Article 26 of the Articles of Association, 1.5% of the profits will be set aside to pay employee remuneration.
- (II) The losses suffered from any labor-management dispute from the most recent year until the date the Annual Report was printed, and the estimate of losses and countermeasures present available and potentially available in the future: The Company's various management systems and regulations are defined based on the related laws and regulations including Labor Standard Law. Each officer is dedicated to helping colleagues with due diligence by taking care of their work and also life. The labor-management relations are fair.

VI. Information communication security management

I. Cyber security management strategy and framework

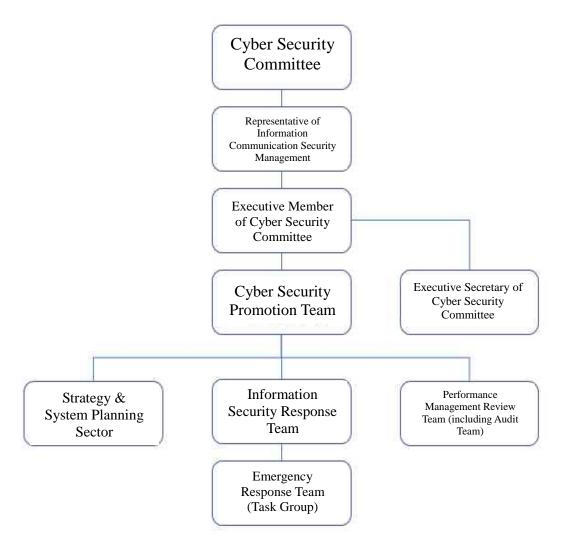

In 2023, the Company established the "Information Security Management Committee" responsible for the planning and execution of information security operations management. It establishes an appropriate management structure, reviews information security policies and four-tier documents, allocates security responsibilities, and coordinates the implementation of various information security measures in the Company to ensure the continuous and stable operation of the information security management system.

"Information Security Management Committee"

- "Convener": Served by the Chairman and the President, responsible for deciding on important information security matters of the company and allocating resources. "Information Security Management Representative": Served by the Chief Information Security Officer, responsible for convening regular meetings annually or as needed to review information security management-related matters, convening cross-departmental resource coordination meetings as needed, and being responsible for coordinating the allocation of relevant resources required for the implementation of the information security management system.
- "Information Security Promotion Team": The executive member of the Information Communication Security Committee is responsible for planning and implementing various information security operations. According to their duties, they are divided into "Strategy and System Planning Team," "Information Security Protection Response Team" and "Performance Management Review Team."
- "Emergency Response Team": Responsible for convening, contacting, coordinating and supervising the key business process owners to carry out contingency operations when major information security incidents occur, as well as deploying various resources and external communication.

The Company's "Information Security Committee" convenes at least one information security management review meeting annually to review the execution status and effectiveness evaluation results of the information security management objectives, and proposes various improvement measures for the implementation of information security policies and objectives. Ad-hoc meetings may be convened when necessary.

Organizational structure of the "Information Security Committee":

II. Cyber security policy

To strengthen information security management, the Company has established an information security policy in accordance with the international standards "ISO/IEC 27001:2013," "Regulations Governing Establishment of Internal Control Systems by Public Companies," and other relevant laws and regulations. The policy ensures the confidentiality, integrity, and availability of the Company's information assets, and protects against internal and external intentional or accidental threats. The policy takes into account the Company's business needs and complies with relevant regulatory requirements. Its scope applies to the security management of all colleagues (including employees, contractors, and part-time students), outsourced personnel (units), and all related information assets.

The objectives of the cyber security policy are:

- To ensure the continuity of the Company's important business operations.
- To ensure that the information security risks faced by the Company have been accurately identified, assessed and handled.
- To ensure that employees are aware of cyber security and have the ability to execute daily business safely.

- To ensure that information communication security incidents can be handled quickly and properly to protect the rights and interests of the Company, shareholders and stakeholders.
- Ensure that information and communication security management measures comply with policy and legal requirements.

The company followed the PDCA management cycle mechanism ((Plan \rightarrow Do \rightarrow Check \rightarrow Act) to review the applicability, protection measures and implementation results of the information security policies, and introduce suitable information technologies and equipment in timely manner to hoping to response to the related laws, regulation and information security protection requirements.

Plan: with the initiation on the risk protection on the information security, planning on the information security management system suitable for the business development requirement of the company to reduce the company's threats of information security and sustainable management.

- Do: the company constructed multiple layers of information security protection, continuously enhancing the integration of information security protection and control mechanism to ensure the normal operation in the important operation procedures of business, production, purchase, finance, stock affairs, human resources, filing and others to maintain the confidentiality, completeness, availability of the company's essential assets.
- Check: Implementing the evaluation, internal and external audit supervision, review and improve the shortcomings of information security and enhance the protection of information security.

Act: Actively monitoring the effectiveness of information security management to ensure the continuous effect of information security specification and with the regular educational training and demonstration on the information security attach events to increase the awareness on the information security protection of our employees.

III. Specific management plans

In order to achieve the information security policy and goal and establish comprehensive information security protection, the management matters and specific management plans are as follows:

Introduction of ISO 27001 Information Security Management System:

The Company has undergone ISO 27001 consulting and established an ISMS management framework to enhance customer and stakeholder trust in information security, strengthen information security risk management, comply with regulatory requirements, and optimize information security business processes, in order to control and mitigate the threats and impacts caused by information security incidents. In the future, we plan to obtain ISO 27001 certification and an impartial third-party's recognition of the Company's information security system.

Safety Management on the equipment of information security environment:

1. Choosing of appropriate and safe place to construct server room, place the important protection information security equipment to reduce the risks occurred from the environment (fire accident, flood, earthquake and etc.), regulating and recording

personnel of entering the server room.

2. The energy supply installed with the requirement of equipment specification and the stable electricity sources, and regularly inspection. Important information security equipment equipped with standby power supply or using of uninterruptable power system.

Core system security management:

- 1. Conduct vulnerability scanning every year and strengthen vulnerability patching operations.
- 2. Install MDR to actively collect endpoint system activity information, compare the attack methods of MITRE ATT&CK®, identify threats in time, and effectively defend against unknown attacks.
- 3. Anti-virus software testing and in-depth learning are used to prevent malicious software attacks and provide comprehensive security protection.

Management on the security of network communication:

- 1. Authorized dedicated personnel to managing the network equipment and to invigilating the network conditions anytime.
- 2. The Company has implemented the SecuTex Network Protection advanced security threat defense system to record all network traffic, enhance network visibility, and provide real-time network traffic analysis and suspicious activity alerts through the SOC security monitoring service in the event of an intrusion. It can also serve as an incident investigation tool for post-incident analysis.
- 3. For external networks, the company has implemented NGFW firewalls and anti-virus protection mechanisms to enhance protection against application-level threats, prevent potential network communication vulnerabilities, and strengthen the detection of malicious software behavior.
- 4. The network host shut down unnecessary service software and immediate update to the latest version.

Development of security management on the information systems:

- 1. Enhance the safety requirement of the self-developed information system or existing system, purchasing and implementing of authorized software.
- 2. Settings of user password and limited access to the applied system.
- 3. Carefully evaluating the possible potential safety risk from the commissioned information business in advanced, signing of information safety agreement with the vendors, and including the safety management responsibilities in the terms and conditions in the agreement.

Information Communication System Operation Continuity Management

- Identify and evaluate the Recovery Time Objective (RTO), Recovery Point Objective (RPO), and Maximum Tolerable Period of Disruption (MTPD) of all IT systems/services. In this way, the disaster recovery strategy of the information communication system/service is planned.
- 2. Formulate the operation continuation plan for the information communication system, network communication, computer room maintenance and operation.

3. Regular ongoing drills for key information communication systems/services to strengthen corporate resilience.

Management of Information Security :

- 1. Implementing the backup regularly and enhance the recovery, restore mechanism for back in to normal operation efficiently when accident occurs.
- 2. The company disposes the equipment with the disposal procedures, before the disposal of storage equipment shall checked carefully to ensure the information of confidential and sensitive as well as the authorized software were removed.
- 3. Preventing internet users stealing network communication information by any instrumental equipment or software tools.

Educational Training and Disseminating of the information security

- 1. Holding of information security related educational training courses to employees regularly.
- 2. Announcements for disseminating information security related messages and response measures to response to the risk circumstances and events of information security.
- 3.Conduct social engineering phishing email test from time to time to improve information security awareness.

IV. Risk and response measures of information security

The Company has established network and computer-related information security protection measures, and has joined the Taiwan Computer Emergency Response Team (TWCERT/CC) as a member to receive and disseminate information security intelligence from the Information Sharing and Analysis Center (TW-ISAC) in real-time. The Company has also joined information security organizations such as the "CISO Taiwan Information Security Officer Alliance" and the "CISA Information Security Officer Association of the Taiwan Computer Association" to achieve vertical and horizontal information security joint defense, enhancing overall information security protection capabilities. However, to ensure the ability to prevent any external third-party malicious hackers from illegally infiltrating the company's internal network systems and disrupting the Company's operations, financial status, stealing confidential information and personal data, implanting malicious software for extortion and ransomware, and engaging in other activities that damage the Company's reputation and interests, the Company will continue to review and evaluate information security regulations and procedures to ensure their appropriateness and effectiveness, and continuously implement the following information security protection measures to minimize potential damages caused by various information security risks and maintain normal company operations, safeguarding the interests of important stakeholders such as customers, shareholders, suppliers, and employees.

- 1. Enhanced the Network firewall and the control mechanism.
- 2. Strengthen the endpoint detection, protection and anti-virus mechanism.
- 3. Strengthen information security education and training and social engineering drills to enhance employees' information security awareness.
- 4. Introduce an automated defense system to strengthen the information security maintenance and operation platform.
- 5. Appointing an external third party as the information security consultant to advise on the information security protection system.

$\mathbf{V} \mathrel{\scriptstyle{\searrow}}$ The resources involved in the management of information security

In 2023, the Company complied with the requirements of regulations such as the "Information Security Management Guidelines for Listed and Over-the-Counter Companies" and the "Information and Communication Security Management Act and Enforcement Rules." A total of NT\$9,940,893 was invested to procure information security protection tools, software, equipment, and project consulting and testing services, including "endpoint protection, vulnerability scanning, network and firewall monitoring, two-factor authentication, and social engineering (phishing email penetration testing)" to strengthen the Company's information security protection capabilities. Additionally, information security education, training, and promotion were conducted for 349 seed employees across various departments of the Company

VI The company had no losses due to any significant information security incidents in 2023 and as of the date of publication of the annual report in 2024.

The causes resulting in changes in financial rates in the most recent two years (not necessary if the changes are less than 20%):

Note 1:The decrease in operating losses was due to increased market demand in the fiscal year 2023.

However, the rise in interest rates led to higher financing costs.

Note 2: The reduction in income tax expense was due to the withholding tax on subsidiary earnings repatriated in the fiscal year 2022, which was not applicable in the fiscal year 2023.

Note 3: The absence of cash dividend payments on financial assets in the fiscal year 2023 was due to the disposal of financial assets in the fiscal year 2022.

Note 4: The decrease in ending inventory was due to increased market demand and higher product prices in the fiscal year 2023.

- Note: Calculated as follows:
- Financial structure
 - (1) Ratio of liabilities to total assets =total liabilities/total assets
 - (2) Ratio of long-term fund to property, plant and equipment=(total shareholders' equity +non-current liabilities)/net property, plant and equipment
 - 2. Solvency
 - (1) Current ratio=current assets/current liabilities
 - (2) Quick ratio=(current assets-inventory-prepayment)/current liabilities
 - (3) Times Interest Earned=earnings before income tax and interest/interest expenses in the current period
 - 3. Operating Performance Analysis
 - (1)Receivables (including accounts receivable and notes receivable resulting from operation) turnover = net sales / balance (gross)
 - of average accounts receivable (including accounts receivable and notes receivable resulting from operation)
 - (2) Average number of days receivable outstanding = 365 /accounts receivable turnover
 - (3) Inventory turnover=sale cost/average inventory (gross)
 - (4) Payables (including accounts payable and notes payable resulting from operation) turnover = sale cost / balance (gross) of average accounts payable (including accounts payable and notes payable resulting from operation)
 - (5) Average number of days of sales=365/inventory turnover
 - (6) Property, plant and equipment turnover=net sales/average net property, plant and equipment
 - (7) Total assets turnover rate = net sales/average total assets.
 - 4. Profitability
 - (1) ROA = [(income after income tax+ interest expenses)*(1-tax rate)]/average total assets.
 - (2) ROE = income after income tax/average net shareholders' equity.
 - (3) Profit margin = income after income tax/net sales
 - (4) Earnings per share= (income attributable to the owners of the parent company- dividends from preferred shares)/weighed average quantity of outstanding shares.
 - 5. Cash flow
 - (1) Cash flow ratio=net cash from operating activities/current liabilities
 - (2) Net cash flow adequacy ratio= net cash flow from operating activities in the most recent five years/ (capital spending + increase in inventory + cash dividends) in the most recent five years
 - (3) Cash reinvestment ratio=(net cash flow from operating activities-cash dividends)(gross of property, plant and equipment + long-term investment + other non-current assets + operating funds)
 - 6. Leverage
 - (1) Operating leverage=(net operating revenue-changed operating costs and expenses)/operating income
 - (2) Financial leverage=operating income/(operating income-interest expenses)

The causes resulting in changes in financial rates in the most recent two years (not necessary if the changes are less than 20%):

Note 1: Investment income accounted for using equity method increase this year, resulting in increase in income after tax.

Note 2: The increase in operating cash flows was due to the increase in pre-tax net profit in the current period.

Note: Calculated as follows:

- 1. Financial structure
- (1) Ratio of liabilities to total assets =total liabilities/total assets
- (2) Ratio of long-term fund to property, plant and equipment=(total shareholders' equity +non-current liabilities)/net property, plant and equipment.
- 2. Solvency
- (1) Current ratio=current assets/current liabilities
- (2) Quick ratio=(current assets-inventory-prepayment)/current liabilities
- (3) Times Interest Earned=earnings before income tax and interest/interest expenses in the current period

3. Operating Performance Analysis

(1)Receivables (including accounts receivable and notes receivable resulting from operation) turnover = net sales / balance (gross) of average accounts receivable (including accounts receivable and notes receivable resulting from operation)

(2) Average number of days receivable outstanding = 365 /accounts receivable turnover

- (3) Inventory turnover=sale cost/average inventory (gross)
- (4) Payables (including accounts payable and notes payable resulting from operation) turnover = sale cost / balance (gross) of average accounts payable (including accounts payable and notes payable resulting from operation)
- (5) Average number of days of sales=365/inventory turnover
- (6) Property, plant and equipment turnover=net sales/average net property, plant and equipment
- (7) Total assets turnover rate = net sales/average total assets.

4. Profitability

- (1) ROA = [(income after income tax+ interest expenses)*(1-tax rate)]/average total assets.
- (2) ROE = income after income tax/average net shareholders' equity.
- (3) Profit margin = income after income tax/net sales
- (4) Earnings per share= (income attributable to the owners of the parent company- dividends from preferred shares)/weighed average quantity of outstanding shares.

5. Cash flow

- (1) Cash flow ratio=net cash from operating activities/current liabilities
- (2) Net cash flow adequacy ratio= net cash flow from operating activities in the most recent five years/ (capital spending + increase in inventory + cash dividends) in the most recent five years
- (3) Cash reinvestment ratio=(net cash flow from operating activities-cash dividends)(gross of property, plant and equipment + long-term investment + other non-current assets + operating funds)

6. Leverage

- (1) Operating leverage=(net operating revenue-changed operating costs and expenses)/operating income
- (2) Financial leverage=operating income/(operating income-interest expenses)

III. Audit Committee's Review Report

The Audit Committee hereby approves the 2023 Financial Report, which is proposed by the Board of Directors by resolution and is verified by Ernest & Young, an accounting firm appointed by the Board and by whom the Audit Report is issued.

Furthermore, the Committee receives and considers the 2023 Operating Report and Earning Distribution Plans prepared by the Board in conformity with relevant rules stipulated in the Company Act and hereby presents results as stated above in accordance with Article 219 of Company Act for your kind review.

Independent Auditors' Report Translated from Chinese

To Taiwan Glass Industrial Corporation

Opinion

We have audited the accompanying balance sheets of Taiwan Glass Industrial Corporation (the "Company") as of December 31, 2023 and 2022, and the related statements of comprehensive income, changes in equity and cash flows for the years ended December 31, 2023 and 2022, and notes to the financial statements, including the summary of material accounting policies (collectively "the financial statements").

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2023 and 2022, and their financial performance and eash flows for the years ended December 31, 2023 and 2022, in conformity with the requirements of the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and the Standards on Auditing of the Republic of China, Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China (the "Norm"), and we have fulfilled our other ethical responsibilities in accordance with the Norm. Based on our audits, we believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of 2023 financial statements. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Impairment Valuation of Non-financial assets

As of December 31, 2023, the Company's property, plant and equipment amounted to NT\$13,876,546 thousand, which accounted for 20% of its total assets, which is relatively material for the financial statements. Due to the market and economic outlook fluctuations in recent years, some operating units operated in losses which indicated that assets may be impaired. Therefore, the management performed impairment test on related cash-generating units and value in use was adopted for the recoverable amounts of different cash generating units. As the estimation of the recoverable amount of the related cash-generating units requires significant management judgment, we determined this a key audit matter.

Our audit procedures included, but not limited to, analyzing the rationality of recoverable amounts used by management, obtaining underlying data of the recoverable amount provided by management (including each flow forecast, growth rate, real estate and equipment valuation report) and related assumptions and discussing with management; assessing the appraiser's professional competency, experience and reputation in the related field; using the work of internal expert to assist us in considering the discount rate used by management and to account for the recoverable amounts for impairment assessment used by management.

We also assessed the adequacy of disclosures of property, plant and equipment. Please refer to Notes 4, 5 and 6 to the Company's financial statements.

Valuation of Inventories

As of December 31, 2023, the Company's net inventories amounted to NT\$3,925,202 thousand, which is relatively material for the financial statements. The Company is engaged in the manufacturing, processing and sale of various glasses which have a wide range of applications in various sectors such as construction, electronics and consumer products industries. Considering the fact that identification of slow-moving inventories and the assessment of the amount of inventory write-downs require significant management judgement based on market demands, we determined this a key audit matter.

Our audit procedures included, but not limited to, assessing the appropriateness of the accounting policies of evaluating slow-moving and obsolete inventories, including analyzing slow-moving inventory allowance ratio and the net realizable value adopted; understanding and testing the internal controls established by management with respect to the valuation of inventories, including the calculation of net realizable value; examining to relevant documentation and recalculating the loss from price decline to ensure inventories appropriately valuated at lower of cost and net realizable value. Vouching samples against related certificates to verify accuracy of inventory aging.

We also assessed the adequacy of disclosures of inventories. Please refer to Notes 4, 5 and 6 to the Company's financial statements.

Revenue Recognition

Operating revenues recognized by the Company amounted to NT\$12,278,353 thousand for the year ended December 31, 2023. Reflecting different market demands, trade terms of different contracts varied, along with the fact that some of the sales orders included delivery services, management needed to review the sales orders or contracts to determine the performance obligations and the time of their satisfaction, there is a significant risk in revenue recognition. Therefore, we considered this a key audit matter.

Our audit procedures included, but not limited to, assessing the appropriateness of the accounting policy of revenue recognition; evaluating and testing the operating effectiveness of internal controls with respect to revenue recognition; selecting samples to perform tests of details and reviewing related transaction certificates and the significant terms and conditions of contracts to verify the accuracy of the timing of performance obligation satisfaction; confirming significant account receivable balance by sending confirmation letters; selecting samples of transactions from either side of balance sheet date, vouching samples against related certificates and reviewing significant subsequent sales return or discounts transactions to ensure revenue was recognized at appropriate timing.

We also assessed the adequacy of disclosures of operating revenues. Please refer to Notes 4 and 6 to the Company's financial statements.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the requirements of the Regulations Governing the Preparation of Financial Reports by Securities Issuers and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the ability to continue as a going concern of the Company, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit committee, are responsible for overseeing the financial reporting process of the Company.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of the Company.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability to continue as a going concern of the Company. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the financial statements, including the accompanying notes, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

A name being () and a reason of a reason

6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of 2023 financial statements and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

English Translation of Financial Statements Originally Issued in Chinese TAIWAN GLASS INDUSTRIAL CORPORATION NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS For the Years Ended December 31, 2023 and 2022 (Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

1. History and organization

Taiwan Glass Industrial Corporation ("the Company") was incorporated on 5 September 1964 and commenced operations in 1967. The main activities of the Company are manufacturing, processing and selling of various glass products. The Company's common shares were publicly listed on the Taiwan Stock Exchange (TWSE) in July 1973. The Company's registered office and the main business location is at 11F, No. 261, Section 3, Nanjing E. Rd., Taipei, Republic of China (R.O.C.).

2. Date and procedures of authorization of financial statements for issue

The parent company only financial statements of the Company for the years ended December 31, 2023 and 2022 were authorized for issue by the Board of Directors on March 11, 2024.

3. Newly issued or revised standards and interpretations

 Changes in accounting policies resulting from applying for the first time certain standards and amendments

The Company applied for the first time International Financial Reporting Standards, International Accounting Standards, and Interpretations issued, revised or amended which are recognized by Financial Supervisory Commission ("FSC") and become effective for annual periods beginning on or after January 1, 2023. The adoption of these new standards and amendments had no material impact on the Company.

(2) Standards or interpretations issued, revised or amended, by International Accounting Standards Board ("IASB") which are endorsed by FSC, and not yet adopted by the Group as at the end of the reporting period are listed below.

| | New, Revised or Amended Standards and Interpretations | Effective Date issued by IASB |
|---|--|----------------------------------|
| 8 | Classification of Liabilities as Current or Non-current - Amendments to IAS 1 | 1 January 2024 |
| ь | Lease Liability in a Sale and Leaseback - Amendments to IFRS 16 | I January 2024 |
| c | Non-current Liabilities with Covenants - Amendments to IAS 1 | 1 January 2024 |
| d | Supplier Finance Arrangements - Amendments to IAS 7 and IFRS 7 | 1 January 2024 |

(a) Classification of Liabilities as Current or Non-current - Amendments to IAS 1

These are the amendments to paragraphs 69-76 of IAS 1 Presentation of Financial statements and the amended paragraphs related to the classification of liabilities as current or non-current.

(b) Lease Liability in a Sale and Leaseback - Amendments to IFRS 16

The amendments add seller-lessees additional requirements for the sale and leaseback transactions in IFRS 16, thereby supporting the consistent application of the standard.

(c) Non-current Liabilities with Covenants - Amendments to IAS 1

The amendments improved the information companies provide about long-term debt with covenants. The amendments specify that covenants to be complied within twelve months after the reporting period do not affect the classification of debt as current or non-current at the end of the reporting period.

(d) Supplier Finance Arrangements - Amendments to IAS 7 and IFRS 7

The amendments introduced additional information of supplier finance arrangements and added disclosure requirements for such arrangements.

The abovementioned standards and interpretations were issued by IASB and endorsed by FSC so that they are applicable for annual periods beginning on or after January 1, 2024. The remaining standards and interpretations have no material impact on the Company.

(3) Standards or interpretations issued, revised or amended, by IASB which are not endorsed by FSC, and not yet adopted by the Group as at the end of the reporting period are listed below.

| ltems | New, Revised or Amended Standards and Interpretations | Effective Date issued by IASB |
|-------|---|----------------------------------|
| a | IFRS 10 "Consolidated Financial Statements" and IAS 28 "Investments in Associates and Joint Ventures" — Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures | by IASB |
| b | IFRS 17 "Insurance Contracts" | 1 January 2023 |
| c | Lack of Exchangeability - Amendments to IAS 21 | 1 January 2025 |

(a) IFRS 10"Consolidated Financial Statements" and IAS 28"Investments in Associates and Joint Ventures" — Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures

The amendments address the inconsistency between the requirements in IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures, in dealing with the loss of control of a subsidiary that is contributed to an associate or a joint venture. IAS 28 restricts gains and losses arising from contributions of non-monetary assets to an associate or a joint venture to the extent of the interest attributable to the other equity holders in the associate or joint ventures. IFRS 10 requires full profit or loss recognition on the loss of control of the subsidiary. IAS 28 was amended so that the gain or loss resulting from the sale or contribution of assets that constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized in full.

IFRS 10 was also amended so that the gains or loss resulting from the sale or contribution of a subsidiary that does not constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized only to the extent of the unrelated investors' interests in the associate or joint venture.

(b) IFRS 17 "Insurance Contracts"

IFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects (including recognition, measurement, presentation and disclosure requirements). The core of IFRS 17 is the General (building block) Model, under this model, on initial recognition, an entity shall measure a group of insurance contracts at the total of the fulfilment cash flows and the contractual service margin. The carrying amount of a group of insurance contracts at the end of each reporting period shall be the sum of the liability for remaining coverage and the liability for incurred claims.

Other than the General Model, the standard also provides a specific adaptation for contracts with direct participation features (the Variable Fee Approach) and a simplified approach (Premium Allocation Approach) mainly for short-duration contracts.

IFRS 17 was issued in May 2017 and it was amended in 2020 and 2021. The amendments include deferral of the date of initial application of IFRS 17 by two years to annual beginning on or after 1 January 2023 (from the original effective date of 1 January 2021); provide additional transition reliefs; simplify some requirements to reduce the costs of applying IFRS 17 and revise some requirements to make the results easier to explain. IFRS 17 replaces an interim Standard – IFRS 4 Insurance Contracts – from annual reporting periods beginning on or after 1 January 2023.

(c) Lack of Exchangeability - Amendments to IAS 21

These amendments specify whether a currency is exchangeable into another currency and, when it is not, to determining the exchange rate to use and the disclosures to provide. The amendments apply for annual reporting periods beginning on or after 1 January 2025.

The abovementioned standards and interpretations issued by IASB have not yet endorsed by FSC at the date when the Company's financial statements were authorized for issue, the local effective dates are to be determined by FSC. As the Company is still currently determining the potential impact of the standards and interpretations listed under (a), it is not practicable to estimate their impact on the Company at this point in time. The remaining new or amended standards and interpretations have no material impact on the Company.

4. Summary of material accounting policies

(1) Statement of compliance

The parent company only financial statements of the Company for the years ended December 31, 2023 and 2022 have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers ("the Regulations").

(2) Basis of preparation

The Company prepared parent company only financial statements in accordance with Article 21 of the Regulations, which provided that the profit or loss and other comprehensive income for the period presented in the parent company only financial statements shall be the same as the profit or loss and other comprehensive income attributable to stockholders of the parent presented in the consolidated financial statements for the period, and the total equity presented in the parent company only financial statements shall be the same as the parent company only financial statements shall be the same as the equity attributable to the parent company presented in the consolidated financial statements shall be the same as the equity attributable to the parent company presented in the consolidated financial statements. Therefore, the Company accounted for its investments in subsidiaries using equity method and, accordingly, made necessary adjustments.

The parent company only financial statements have been prepared on a historical cost basis, except for financial instruments measured at fair value.

The only financial statements are expressed in thousands of New Taiwan Dollars ("NT\$") unless otherwise stated.

(3) Foreign currency transactions

The Company's parent company only financial statements are presented in NT dollars, which is also the Company's functional currency.

Transactions in foreign currencies are initially recorded by the Company at its respective functional currency rates prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency closing rate of exchange ruling at the reporting date. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. Non-monetary items that are measured at historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions.

All exchange differences arising on the settlement of monetary items or on translating monetary items are taken to profit or loss in the period in which they arise except for the following:

- A. Exchange differences arising from foreign currency borrowings for an acquisition of a qualifying asset to the extent that they are regarded as an adjustment to interest costs are included in the borrowing costs that are eligible for capitalization.
- B. Foreign currency items within the scope of IFRS 9 Financial Instruments are accounted for based on the accounting policy for financial instruments.
- C. Exchange differences arising on a monetary item that forms part of a reporting entity's net investment in a foreign operation is recognized initially in other comprehensive income and reclassified from equity to profit or loss on disposal of the net investment.

When a gain or loss on a non-monetary item is recognized in other comprehensive income, any exchange component of that gain or loss is recognized in other comprehensive income. When a gain or loss on a non-monetary item is recognized in profit or loss, any exchange component of that gain or loss is recognized in profit or loss.

(4) Translation of financial statements in foreign currency

Each foreign operations of the Company determines its own functional currency and items included in the financial statements of each foreign operations are measured using that functional currency. The assets and liabilities of foreign operations are translated into NTS at the closing rate of exchange prevailing at the reporting date and their income and expenses are translated at an average rate for the period. The exchange differences arising on the translation are recognized in other comprehensive income. On the disposal of a foreign operation, the cumulative amount of the exchange differences relating to that foreign operation, recognized in other comprehensive income and accumulated in the separate component of equity, is reclassified from equity to profit or loss when the gain or loss on disposal is recognized. The following are accounted for as disposals even if an interest in the foreign operation is retained by the Company: the loss of control over a foreign operation, the loss of significant influence over a foreign operation, or the loss of joint control over a foreign operation.

On the partial disposal of a subsidiary that includes a foreign operation that does not result in a loss of control, the proportionate share of the cumulative amount of the exchange differences recognized in other comprehensive income is re-attributed to the non-controlling interests in that foreign operation. In partial disposal of an associate or jointly controlled entity that includes a foreign operation that does not result in a loss of significant influence or joint control, only the proportionate share of the cumulative amount of the exchange differences recognized in other comprehensive income is reclassified to profit or loss.

(5) Current and non-current distinction

An asset is classified as current when:

- A. The Company expects to realize the asset, or intends to sell or consume it, in its normal operating cycle;
- B. The Company holds the asset primarily for the purpose of trading;
- C. The Company expects to realize the asset within twelve months after the reporting period, or
- D. The asset is cash or cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:

- A. The Company expects to settle the liability in its normal operating cycle; or
- B. The Company holds the liability primarily for the purpose of trading; or
- C. The liability is due to be settled within twelve months after the reporting period; or
- D. The Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non-current.

(6) Cash and cash equivalents

Cash and cash equivalents comprises cash on hand, demand deposits and short-term, highly liquid investments that are readily convertible to known amounts of cash and subject to an insignificant risk of changes in value (include fixed-term deposits that have maturities of 3 months from the date of acquisition).

(7) Financial instruments

Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities within the scope of IFRS 9 Financial Instruments are recognized initially at fair value plus or minus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs.

A. Financial instruments: Recognition and Measurement

The Company accounts for regular way purchase or sales of financial assets on the trade date.

The Company classified financial assets as subsequently measured at amortized cost, fair value through other comprehensive income or fair value through profit or loss considering both factors below:

a. the Company's business model for managing the financial assets and

b. the contractual cash flow characteristics of the financial asset.

Financial asset measured at amortized cost

A financial asset is measured at amortized cost if both of the following conditions are met and presented as note receivables, accounts receivables, financial assets measured at amortized cost and other receivables etc., on balance sheet as at the reporting date:

- a. the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- b. the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Such financial assets are subsequently measured at amortized cost (the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount and the maturity amount and adjusted for any loss allowance) and is not part of a hedging relationship. A gain or loss is recognized in profit or loss when the financial asset is derecognized, through the amortization process or in order to recognize the impairment gains or losses. Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:

- a. purchased or originated credit-impaired financial assets. For those financial assets, the Company applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.
- b. financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Company applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

Financial asset measured at fair value through other comprehensive income

A financial asset is measured at fair value through other comprehensive income if both of the following conditions are met:

- a. the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and
- b. the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Recognition of gain or loss on a financial asset measured at fair value through other comprehensive income are described as below:

- a. A gain or loss on a financial asset measured at fair value through other comprehensive income recognized in other comprehensive income, except for impairment gains or losses and foreign exchange gains and losses, until the financial asset is derecognized or reclassified.
- b. When the financial asset is derecognized the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment.
- c. Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:
 - (a) Purchased or originated credit-impaired financial assets. For those financial assets, the Company applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.
 - (b) Financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Company applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

Besides, for certain equity investments within the scope of IFRS 9 that is neither held for trading nor contingent consideration recognized by an acquirer in a business combination to which IFRS 3 applies, the Company made an irrevocable election to present the changes of the fair value in other comprehensive income at initial recognition. Amounts presented in other comprehensive income shall not be subsequently transferred to profit or loss (when disposal of such equity instrument, its cumulated amount included in other components of equity is transferred directly to the retained earnings) and these investments should be presented as financial assets measured at fair value through other comprehensive income on the balance sheet. Dividends on such investment are recognized in profit or loss unless the dividends clearly represents a recovery of part of the cost of investment.

Financial asset measured at fair value through profit or loss

Financial assets were classified as measured at amortized cost or measured at fair value through other comprehensive income based on aforementioned criteria. All other financial assets were measured at fair value through profit or loss and presented on the balance sheet as financial assets measured at fair value through profit or loss.

Such financial assets are measured at fair value, the gains or losses resulting from remeasurement is recognized in profit or loss which includes any dividend or interest received on such financial assets.

B. Impairment of financial assets

The Company recognizes a loss allowance for expected credit losses on debt instrument investments measured at fair value through other comprehensive income and financial asset measured at amortized cost. The loss allowance on debt instrument investments measured at fair value through other comprehensive income is recognized in other comprehensive income and not reduce the carrying amount in the balance sheet.

The Company measures expected credit losses of a financial instrument in a way that reflects:

- an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- b. the time value of money; and
- c. reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The loss allowance is measured as follows:

- a. At an amount equal to 12-month expected credit losses: the credit risk on a financial asset has not increased significantly since initial recognition or the financial asset is determined to have low credit risk at the reporting date. In addition, the Company measures the loss allowance at an amount equal to lifetime expected credit losses in the previous reporting period, but determines at the current reporting date that the credit risk on a financial asset has increased significantly since initial recognition is no longer met.
- b. At an amount equal to the lifetime expected credit losses: the credit risk on a financial asset has increased significantly since initial recognition or financial asset that is purchased or originated credit-impaired financial asset.
- c. For accounts receivables or contract assets arising from transactions within the scope of IFRS 15, the Company measures the loss allowance at an amount equal to lifetime expected credit losses.
- d. For lease receivables arising from transactions within the scope of IFRS 16, the Company measures the loss allowance at an amount equal to lifetime expected credit losses.

At each reporting date, the Company needs to assess whether the credit risk on a financial asset has increased significantly since initial recognition by comparing the risk of a default occurring at the reporting date and the risk of default occurring at initial recognition. Please refer to Note 12 for further details on credit risk.

C. Derecognition of financial assets

A financial asset is derecognized when:

- a. The rights to receive cash flows from the asset have expired
- b. The Company has transferred the asset and substantially all the risks and rewards of the asset have been transferred
- c. The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On derecognition of a financial asset in its entirety, the difference between the carrying amount and the consideration received or receivable including any cumulative gain or loss that had been recognized in other comprehensive income, is recognized in profit or loss.

D. Financial liabilities and equity

Classification between liabilities or equity

The Company classifies the instrument issued as a financial liability or an equity instrument in accordance with the substance of the contractual arrangement and the definitions of a financial liability, and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. The transaction costs of an equity transaction are accounted for as a deduction from equity (net of any related income tax benefit) to the extent they are incremental costs directly attributable to the equity transaction that otherwise would have been avoided.

Financial liabilities

Financial liabilities within the scope of IFRS 9 Financial Instruments are classified as financial liabilities at fair value through profit or loss or financial liabilities measured at amortized cost upon initial recognition.

Financial liabilities at amortized cost

Financial liabilities measured at amortized cost include interest bearing loans and borrowings that are subsequently measured using the effective interest rate method after initial recognition. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the effective interest rate method amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or transaction costs.

Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified (whether or not attributable to the financial difficulty of the debtor), such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss. E. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the balance sheet if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

(8) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- A. In the principal market for the asset or liability, or
- B. In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

(9) Inventories

Inventories are valued at lower of cost and net realizable value item by item.

Costs incurred in bringing each inventory to its present location and conditions are accounted for as follows:

Raw materials - Purchase cost on a weighted average cost basis.

Finished goods and work in progress - Cost of direct materials and labor and a proportion of manufacturing overheads based on normal operating capacity but excluding borrowing costs.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

(10) Non-current assets held for sale and discontinued operations

Non-current assets and disposal groups are classified as held for sale if their carrying amounts will be recovered through a sale transaction that is highly probable within one year from the date of classification and the asset or disposal group is available for immediate sale in its present condition. Non-current assets and disposal groups classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell.

In the consolidated statement of comprehensive income of the reporting period, and of the comparable period of the previous year, income and expenses from discontinued operations are reported separately from income and expenses from continuing operations, down to the level of profit after taxes, even when the Group retains a non-controlling interest in the subsidiary after the sale. The resulting profit or loss (after taxes) is reported separately in the statement of comprehensive income.

Property, plant and equipment and intangible assets once classified as held for sale are not depreciated or amortized.

(11) Investments accounted for using the equity method

The Company accounted for its investments in subsidiaries using equity method and made necessary adjustments in accordance with Article 21 of the Regulations. Such adjustments were made after the Company considered the different accounting treatments to account for its investments in subsidiaries in the consolidated financial statements under IFRS 10 "Consolidated and Separate Financial Statements" and the different IFRSs adopted from different reporting entity's perspectives, and the Company recorded such adjustments by crediting or debiting to investments accounted for under the equity method, share of profit or loss of subsidiaries, associates and joint ventures and share of other comprehensive income of subsidiaries, associates and joint ventures.

The Company's investment in its associate is accounted for using the equity method other than those that meet the criteria to be classified as held for sale. An associate is an entity over which the Company has significant influence. A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Under the equity method, the investment in the associate or a joint venture is carried in the balance sheet at cost and adjusted thereafter for the post-acquisition change in the Company's share of net assets of the associate or a joint venture. After the interest in the associate or a joint venture is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the Company has incurred legal or constructive obligations or made payments on behalf of the associate or a joint venture. Unrealized gains and losses resulting from transactions between the Company and the associate or joint venture are eliminated to the extent of the Company's related interest in the associate or joint venture.

When changes in the net assets of an associate or a joint venture occur and not those that are recognized in profit or loss or other comprehensive income and do not affects the Company's percentage of ownership interests in the associate or joint venture, the Company recognizes such changes in equity based on its percentage of ownership interests. The resulting capital surplus recognized will be reclassified to profit or loss at the time of disposing the associate or joint venture on a prorate basis.

When the associate or joint venture issues new stock, and the Company's interest in an associate or a joint venture is reduced or increased as the Company fails to acquire shares newly issued in the associate or joint venture proportionately to its original ownership interest, the increase or decrease in the interest in the associate or joint venture is recognized in Additional Paid in Capital and Investment accounted for using the equity method. When the interest in the associate or joint venture is reduced, the cumulative amounts previously recognized in other comprehensive income are reclassified to profit or loss or other appropriate items. The aforementioned capital surplus recognized is reclassified to profit or loss on a pro rata basis when the Company disposes the associate or joint venture.

The financial statements of the associate or a joint venture are prepared for the same reporting period as the Company. Where necessary, adjustments are made to bring the accounting policies in line with those of the Company.

The Company determines at each reporting date whether there is any objective evidence that the investment in the associate or an investment in a joint venture is impaired in accordance with IAS 28 *Investments in Associates and Joint Ventures*. If there is any objective evidence, the Company calculates the amount of impairment as the difference between the recoverable amount of the associate or a joint venture and its carrying value and recognizes the amount in the 'share of profit or loss of an associate' in the statement of comprehensive income in the scope of IAS 36 *Impairment of Assets*. In determining the value in use of the investment, the Group estimates:

- A. The Company's right on the estimated future cash flow from its associate or a joint venture includes associate or a joint venture's cash flow from operation and the capital gain on the final settlement, or
- B. The Company's expected present value of the dividend from the investment and the capital gain on the final settlement.

Upon loss of significant influence over the associate or joint venture, the Company measures and recognizes any retaining investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence and the fair value of the retaining investment and proceeds from disposal is recognized in profit or loss. Furthermore, if an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate, the entity continues to apply the equity method and does not remeasure the retained interest.

(12)Property, plant and equipment

Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of dismantling and removing the item and restoring the site on which it is located and borrowing costs for construction in progress if the recognition criteria are met. Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. When significant parts of property, plant and equipment are required to be replaced in intervals, the Company recognized such parts as individual assets with specific useful lives and depreciation, respectively. The carrying amount of those parts that are replaced is derecognized in accordance with the derecognition provisions of IAS 16 *Property, plant and equipment.* When a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Depreciation is calculated on a straight-line method basis over the estimated economic lives of the following assets:

| Buildings | 5~55 years |
|--------------------------|------------|
| Machinery and equipment | 1-20 years |
| Transportation equipment | 5~10 years |
| Leasehold improvements | 5 years |
| Office equipment | 3~20 years |

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is recognized in profit or loss.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

(13)Leases

The Company assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset for a period of time, the Company assesses whether, throughout the period of use, has both of the following:

- A. the right to obtain substantially all of the economic benefits from use of the identified asset; and
- B. the right to direct the use of the identified asset.

For a contract that is, or contains, a lease, the Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract. For a contract that contains a lease component and one or more additional lease or non-lease components, the Company allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate standalone price of the non-lease components. The relative stand-alone price of lease and non-lease components shall be determined on the basis of the price the lessor, or a similar supplier, would charge the Company for that component, or a similar component, separately. If an observable stand-alone price is not readily available, the Company estimates the stand-alone price, maximising the use of observable information.

Company as a lessee

Except for leases that meet and elect short-term leases or leases of low-value assets, the Company recognizes right-of-use asset and lease liability for all leases which the Company is the lessee of those lease contracts.

At the commencement date, the Company measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses its incremental borrowing rate. At the commencement date, the lease payments included in the measurement of the lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date:

- A. fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- B. variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;

- C. amounts expected to be payable by the lessee under residual value guarantees;
- D. the exercise price of a purchase option if the Company is reasonably certain to exercise that option; and
- E. payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

After the commencement date, the Company measures the lease liability on an amortised cost basis, which increases the carrying amount to reflect interest on the lease liability by using an effective interest method; and reduces the carrying amount to reflect the lease payments made.

At the commencement date, the Company measures the right-of-use asset at cost. The cost of the right-of-use asset comprises:

- A. the amount of the initial measurement of the lease liability;
- B. any lease payments made at or before the commencement date, less any lease incentives received;
- C. any initial direct costs incurred by the lessee; and
- D. an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

For subsequent measurement of the right-of-use asset, the Company measures the right-of-use asset at cost less any accumulated depreciation and any accumulated impairment losses. That is, the Company measures the right-of-use applying a cost model.

If the lease transfers ownership of the underlying asset to the Company by the end of the lease term or if the cost of the right-of-use asset reflects that the Company will exercise a purchase option, the Company depreciates the right-of-use asset from the commencement date to the end of the useful life of the underlying asset. Otherwise, the Company depreciates the rightof-use asset from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

The Company applies IAS 36 "Impairment of Assets" to determine whether the right-of-use asset is impaired and to account for any impairment loss identified.

Except for those leases that the Company accounted for as short-term leases or leases of lowvalue assets, the Company presents right-of-use assets and lease liabilities in the balance sheet and separately presents lease-related interest expense and depreciation charge in the statements comprehensive income.

For short-term leases or leases of low-value assets, the Company elects to recognize the lease payments associated with those leases as an expense on either a straight-line basis over the lease term or another systematic basis.

Company as a lessor

At inception of a contract, the Company classifies each of its leases as either an operating lease or a finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset. A lease is classified to ownership of an underlying asset. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset. At the commencement date, the Company recognizes assets held under a finance lease in its balance sheet and present them as a receivable at an amount equal to the net investment in the lease.

For a contract that contains lease components and non-lease components, the Group allocates the consideration in the contract applying IFRS 15.

The Company recognizes lease payments from operating leases as rental income on either a straight-line basis or another systematic basis. Variable lease payments for operating leases that do not depend on an index or a rate are recognized as rental income when incurred.

(14) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is its fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in profit or loss for the year in which the expenditure is incurred.

Intangible assets are all finite.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each financial year. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and are treated as changes in accounting estimates.

Gains or losses arising from derecognition of an intangible asset are recognized in profit or loss.

Accounting policies information applied to the Company's intangible assets is as follows:

| | Computer software |
|----------------------------------|---|
| Liseful lives | Finite |
| Amortization method used | Amortized on a straight- line basis over the estimated useful life |
| Internally generated or acquired | Acquired |

(15) Impairment of non-financial assets

The Company assesses at the end of each reporting period whether there is any indication that an asset in the scope of IAS 36 *Impairment of Assets* may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cashgenerating unit's ("CGU") fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Company estimates the asset's or cashgenerating unit's recoverable amount. A previously recognized impairment loss is reversed only if there has been an increase in the estimated service potential of an asset which in turn increases the recoverable amount. However, the reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years.

An impairment loss of continuing operations or a reversal of such impairment loss is recognized in profit or loss.

(16) Revenue recognition

The Company's revenue arising from contracts with customers are primarily related to sale of goods and rendering of services. The accounting policies are explained as follows:

Sale of goods

The Company manufactures and sells machinery. Sales are recognized when control of the goods is transferred to the customer and the goods are delivered to the customers. The main product of the Company is glass (flat glass, glass fiber, and glass container) and revenue is recognized based on the consideration stated in the contract. For certain sales of goods transactions, they are usually accompanied by volume discounts (based on the accumulated total sales amount for a specified period). Therefore, revenue from these sales is recognized based on the price specified in the contract, net of the estimated volume discounts to the Company estimates the discounts using the expected value method based on historical experiences. Revenue is only recognized to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur and when the uncertainty associated with the variable consideration is subsequently resolved. During the period specified in the contract, refund liability is recognized for the expected volume discounts.

The credit period of the Company's sale of goods is generally from 30 to 180 days. For most of the contracts, when the Company transfers the goods to customers and has a right to an amount of consideration that is unconditional, these contracts are recognized as accounts receivables. The Company usually collects the payments shortly after transfer of goods to customers; therefore, there is no significant financing component to the contract. For other services contracts, part of the consideration was received from customers upon signing the contract, and the Company has the obligation to provide the services subsequently; accordingly, these amounts are recognized as advance receipts or temporary receipts.

The period between the transfers of contract liabilities to revenue is usually within one year, thus, no significant financing component arose.

(17)Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective assets. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

(18)Post-employment benefits

All regular employees of the Company are entitled to a pension plan that is managed by an independently administered pension fund committee. Fund assets are deposited under the committee's name in the specific bank account and hence, not associated with the Company. Therefore, fund assets are not included in the Company's parent company only financial statements.

For the defined contribution plan, the Company will make a monthly contribution of no less than 6% of the monthly wages of the employees subject to the plan. The Company recognizes expenses for the defined contribution plan in the period in which the contribution becomes due.

Post-employment benefit plan that is classified as a defined benefit plan uses the Projected Unit Credit Method to measure its obligations and costs based on actuarial assumptions. Remeasurements, comprising of the effect of the actuarial gains and losses, the effect of the asset ceiling (excluding net interest) and the return on plan assets, excluding net interest, are recognized as other comprehensive income with a corresponding debit or credit to retained earnings in the period in which they occur. Past service costs are recognized in profit or loss on the earlier of:

A the date of the plan amendment or curtailment, and

B. the date that the Company recognizes restructuring-related costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset, both as determined at the start of the annual reporting period, taking account of any changes in the net defined benefit liability (asset) during the period as a result of contribution and benefit payment.

(19) Income taxes

Income tax expense (benefit) is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. Current income tax relating to items recognized in other comprehensive income or directly in equity is recognized in other comprehensive income or equity and not in profit or loss.

The income tax on undistributed retained earnings is recognized as income tax expense in the subsequent year when the distribution proposal is approved by the Stockholders' meeting.

Deferred income tax

Deferred tax is provided on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- A. where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss ; and at the time of the transaction, dose not give rise to equal taxable and deductible temporary difference.
- B. in respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- A. where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination; at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and at the time of the transaction, does not give rise to equal taxable and deductible temporary differences.
- B. in respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date. The measurement of deferred tax assets and deferred tax liabilities reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities. Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in other comprehensive income or directly in equity. Deferred tax assets are reassessed at each reporting date and are recognized accordingly.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current income tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

5. Significant accounting judgments, estimates and assumptions

The preparation of the Company's parent company only financial statements require management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumption and estimate could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

A. Fair value of financial instruments

Where the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be derived from active markets, they are determined using valuation techniques including the income approach (for example the discounted cash flow model) or market approach. Changes in assumptions about these factors could affect the reported fair value of the financial instruments. Please refer to Note 12 for more details.

B. Inventories

The Company estimates the net realizable value of inventory for damage, obsolescence and price decline. The net realizable value of the inventory is mainly determined based on reliable evidence of expected cash flow. Please refer to Note 6.

C. Impairment of non-financial assets

An impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs to sell and its value in use. The fair value less costs to sell calculation is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date less incremental costs that would be directly attributable to the disposal of the asset or cash generating unit. The value in use calculation is based on a discounted cash flow model. The cash flows projections are derived from the budget for the next five years and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance of the cash generating unit being tested. The recoverable amount is most sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash-inflows and the growth rate used for the discount of the different cash generating units, including a sensitivity analysis, are further explained in Note 6.

D. Pension benefits

The cost of post-employment benefit and the present value of the pension obligation under defined benefit pension plans are determined using actuarial valuations. An actuarial valuation involves making various assumptions. These include the determination of the discount rate and expected rate of salary increases.

E. Revenue recognition - sales returns and allowance

The Company estimates sales returns and allowance based on historical experience and other known factors at the time of sale, which reduces the operating revenue. In assessing the aforementioned sales returns and allowance, revenue is recognized to the extent it is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur. Please refer to Note 6 for more details.

F. Income tax

Uncertainties exist with respect to the interpretation of complex tax regulations and the amount and timing of future taxable income. Given the wide range of international business relationships and the long-term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Company establishes provisions, based on reasonable estimates, for possible consequences of audits by the tax authorities of the respective counties in which it operates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective Company's domicile.

Deferred tax assets are recognized for all carryforward of unused tax losses and unused tax credits and deductible temporary differences to the extent that it is probable that taxable profit will be available or there are sufficient taxable temporary differences against which the unused tax losses, unused tax credits or deductible temporary differences can be utilized. The amount of deferred tax assets determined to be recognized is based upon the likely timing and the level of future taxable profits and taxable temporary differences together with future tax planning strategies. Please refer to Note 6 for more details on unrecognized deferred tax assets.

G. Trade receivables-estimation of impairment loss

The Company estimates the impairment loss of trade receivables at an amount equal to lifetime expected credit losses. The credit loss is the present value of the difference between the contractual cash flows that are due under the contract (carrying amount) and the cash flows that expects to receive (evaluate forward looking information). However, as the impact from the discounting of short-term receivables is not material, the credit loss is measured by the undiscounted cash flows. Where the actual future cash flows are lower than expected, a material impairment loss may arise. Please refer to Note 6 for more details.

6. Contents of significant accounts

(1) Cash and cash equivalents

| | As of Decer | nber 31. |
|-------------------------------|-------------|-------------|
| | 2023 | 2022 |
| Cash on hand | \$343 | \$353 |
| Checking and savings accounts | 1,285,449 | 1,162,966 |
| Total | \$1,285,792 | \$1,163,319 |

(2) Notes receivables, net

| | As of Decen | nber 31, |
|---|-------------|-----------|
| | 2023 | 2022 |
| Notes receivables arising from operating activities | \$195,083 | \$180,704 |
| Less: loss allowance | • | |
| Total | \$195,083 | \$180,704 |

Notes receivables were not pledged.

The Company assesses impairments according to IFRS 9 to assess the impairment. Please refer to Note 6. (18) for more details on loss allowance and Note 12 for details on credit risk.

(3) Accounts receivables and accounts receivable - related parties

| | As of Decen | nber 31. |
|--|-------------|-------------|
| | 2023 | 2022 |
| Accounts receivables | \$1,259,431 | \$1,177,578 |
| Less: loss allowance | (1,299) | (992) |
| Subtotal | 1,258,132 | 1,176,586 |
| Accounts receivable from related parties | 204,974 | 239,262 |
| Less: loss allowance | | |
| Subtotal | 204,974 | 239,262 |
| Total | \$1,463,106 | \$1,415,848 |

Accounts receivables were not pledged.

Please refer to Note 12. (11) for disclosure on information of accounts receivables transfer.

Trade receivables are generally on 30-180 days terms. The total carrying amount as of December 31, 2023 and 2022 were NT\$1,464,405 thousand and NT\$1,416,840 thousand, respectively. Please refer to Note 6. (18) for more details on loss allowance of trade receivables for the years ended December 31, 2023 and 2022. Please refer to Note 12 for more details on credit risk management.

(4) Other receivables and other receivable - related parties

| | As of December 31, | |
|---------------------------------------|--------------------|-------------|
| | 2023 | 2022 |
| Other receivables | \$12,790 | \$41,728 |
| Less: loss allowance | | |
| Subtotal | 12,790 | 41,728 |
| Other receivable from related parties | 348,023 | 2,185,857 |
| Less: loss allowance | 2 | 2 |
| Subtotal | 348,023 | 2,185,857 |
| Total | \$360,813 | \$2,227,585 |
| | | |

Please refer to Note 6. (18) for more details on loss allowance of other receivables for the years ended December 31, 2023 and 2022. Please refer to Note 12 for more details on credit risk management.

(5) Inventories, net

| | As of December 31, | |
|------------------|--------------------|-------------|
| | 2023 | 2022 |
| Raw materials | \$710,702 | \$1,250,560 |
| Supplies | 66,587 | 54,203 |
| Work in progress | 268,598 | 399,189 |
| Finished goods | 2,879,315 | 3,033,778 |
| Total | \$3,925,202 | \$4,737,730 |

The cost of inventories recognized in expenses amounts to NT\$11,028,041 thousand and NT\$10,611,170 thousand for the years ended December 31, 2023 and 2022, respectively, including:

| For the years ended December 31, | |
|----------------------------------|---|
| 2023 | 2022 |
| \$13,324 | \$398,069 |
| 172,800 | 51,115 |
| (85,615) | (86,473) |
| 12,447 | (12,625) |
| \$112,956 | \$350,086 |
| | 2023 \$13,324 172,800 (85,615) 12,447 |

No inventories were pledged.

(6) Non-current assets or disposal groups classified as held for sale net

On September 28, 2023, the Company entered into a contract with Tangban Mineral Corp. and Ching-Lun Chiu to sell the land located in Touwu Township, Gongguan Township and Tongluo Township, Miaoli County, with a total transaction amount of NT\$160,000 thousand. As of December 31, 2023, the related assets transferred was reclassified from investment property to net non-current assets held for sale (or disposal groups) in the amount of NT\$5,978 thousand, which were measured at the lower of their carrying amount and fair value less costs to sell without impairment loss.

(7) Financial assets at fair value through other comprehensive income

| | As of December 31, | | |
|--|--------------------|-----------|--|
| | 2023 | 2022 | |
| Debt instrument investments measured at fair value | | | |
| through other comprehensive income - non-current: | | | |
| Listed companies stocks | \$272,111 | \$273,194 | |
| Unlisted companies stocks | 67,442 | 52,839 | |
| Total | \$339,553 | \$326,033 | |

Financial assets at fair value through other comprehensive income were not pledged.

(8) Investments accounted for using the equity method

| | As of December 31, | | | | | | |
|---------------------------------|--------------------|------------------|--------------|------------------|--|--|--|
| | 20 | 23 | 20 | 22 | | | |
| | Carrying | Percentage of | Carrying | Percentage of | | | |

No investment property was pledged.

The Company signed a contract to sell its investment property on September 28, 2023. Please refer to Note 6.(6) for more details.

Investment properties held by the Company are not measured at fair value but for which the fair value is disclosed. The fair value measurements of the investment properties are categorized within Level 3. The fair value of investment properties is NT\$116,682 thousand, as of December 31, 2022. The fair value has been determined based on valuations performed by an independent appraiser. The valuation method used is direct capitalized method and market approach, and the inputs used are as follows:

Direct capitalization method:

| | As of December 31. |
|----------------------------|--------------------|
| | 2022 |
| Income capitalization rate | 1.71%-2.38% |

Please refer to Note 6.18 for the Company's loss allowance for impairment related information as of December 31,2023 and 2022. For information related to credit risk, please refer to Note 12.

Amortization expense of intangible assets under the statement of comprehensive income:

| | For the years ended December 31, | | | |
|------------------------------------|----------------------------------|---------|--|--|
| | 2023 | 2022 | | |
| Operating costs | \$184 | \$31 | | |
| General and administrative expense | 1,203 | 1,505 | | |
| Total | \$1,387 | \$1,536 | | |

(12) Short-term loans

Details of short-term loans as of December 31, 2023 and 2022 are as follows:

| | As of December 31, | | |
|---------------------------|--------------------|---------------|--|
| | 2023 | 2022 | |
| Unsecured bank loans | \$1,950,000 | \$2,250,000 | |
| Linsecured interest rates | 1.896%~2,530% | 1.587%~2.235% | |

The Company's unused short-term lines of credits amounted to NT\$0 thousand and NT\$100,000 thousand as of December 31, 2023 and 2022, respectively.

Part of the above loans were secured by real estate provided by other related parties. Please refer to Note 7.(13) for more details.

As of December 31, 2023 and 2022, part of long-term loans contained covenants that required the Company to maintain certain financial ratios such as (1) the current ratio, (2) the ratio of the total liabilities to the net tangible assets, (3) the ratio of EBITDA to interest expense and (4) the tangible assets net worth amount.

(15)Post-employment benefits

Defined contribution plan

The Company adopts a defined contribution plan in accordance with the Labor Pension Act of the R.O.C. Under the Labor Pension Act, the Company will make monthly contributions of no less than 6% of the employees' monthly wages to the employees' individual pension accounts. The Company has made monthly contributions of 6% of each individual employee's salaries or wages to employees' pension accounts.

Pension expenses under the defined contribution plan for the years ended December 31, 2023 and 2022 were NT\$96,854 thousand and NT\$97,907 thousand, respectively.

Defined benefits plan

The Company adopts a defined benefit plan in accordance with the Labor Standards Act of the R.O.C. The pension benefits are disbursed based on the units of service years and the average salaries in the last month of the service year. Two units per year are awarded for the first 15 years of services while one unit per year is awarded after the completion of the 15th year. The total units shall not exceed 45 units. Under the Labor Standards Act, the Company contributes an amount equivalent to 2% of the employees' total salaries and wages on a monthly basis to the pension fund deposited at the Bank of Taiwan in the name of the administered pension fund committee. Before the end of each year, the Company assesses the balance in the designated labor pension fund. If the amount is inadequate to pay pensions calculated for workers retiring in the same year, the Company will make up the difference in one appropriation before the end of March the following year.

The Ministry of Labor is in charge of establishing and implementing the fund utilization plan in accordance with the Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund. The pension fund is managed in-house or under a mandate, based on a passive-aggressive investment strategy for long-term profitability. The Ministry of Labor establishes checks and risk management mechanism based on the assessment of risk factors including market risk, credit risk and liquidity risk, in order to maintain adequate manager flexibility to achieve targeted return without over-exposure of risk. With regard to utilization of the pension fund, the minimum earnings in the annual distributions on the final financial statement shall not be less than the earnings attainable from the amounts accrued from twoyear time deposits with the interest rates offered by local banks. Treasury Funds can be used to cover the deficits after the approval of the competent authority. As the Company does not participate in the operation and management of the pension fund, no disclosure on the fair value of the plan assets categorized in different classes could be made in accordance with paragraph 142 of IAS 19. The Company expects to contribute NT\$144,000 thousand to its defined benefit plan during the 12 months beginning after December 31, 2023.

Apart from the above-mentioned pension funds, the Company has another fund managed by the pension fund management committee, and the plan is categorized as follows:

| - | As of December 31, | |
|--|--------------------|------|
| · | 2023 | 2022 |
| Investments with quoted prices in an active market | | |
| Equity instruments - domestic | 85% | 87% |
| Debt instruments - domestic | 15% | 13% |
| Other | 0% | 0% |

The durations of the defined benefits plan obligation as of December 31, 2023 and 2022 are 1 and 2 years, respectively.

Pension costs recognized in profit or loss for the years ended December 31, 2023 and 2022:

| | For the years ended December 31, | | |
|------------------------------|---------------------------------------|----------|--|
| | 2023 | 2022 | |
| Current period service costs | \$19,368 | \$21,616 | |
| Interest income or expense | (4,944) | (2,198) | |
| Past service cost | | | |
| Payments from the plan | · · · · · · · · · · · · · · · · · · · | | |
| Total | \$14,424 | \$19,418 | |

Changes in the defined benefit obligation and fair value of plan assets are as follows:

| | As of | | | |
|--|----------------------------|-------------------------|-------------------------|--|
| | December 31, 2023 | December 31, 2022 | January 1, 2022 | |
| Defined benefit obligation at January I, Plan assets at fair value | \$1,411,002 (1,904,287) | \$1,537,506 (1,986,942) | \$1,589,968 (1,908,496) | |
| Other non-current liabilities - Accrued pension liabilities recognized on the balance sheets | \$(493,285) | \$(449,436) | \$(318,528) | |

| Subtotal | (2,104) | (89,330) | 87,226 |
| Payments from the plan | (160,680) | (160,680) | |
| Contributions by employer | | 145,499 | (145,499) |
| Effect of changes in foreign exchange rates | | 5000 1985 | NSEP (1951-1951) (6 |
| As of December 31, 2023 | \$1,411,002 | \$1,904,287 | \$(493,285) |

Reconciliation of liability (asset) of the defined benefit plan is as follows:

The following significant actuarial assumptions are used to determine the present value of the defined benefit obligation:

| | As of December 31, | | |
|-----------------------------------|--------------------|-------|--|
| | 2023 | 2022 | |
| Discount rate | 1.09% | 1.10% | |
| Expected rate of salary increases | 1.00% | 1.00% | |

A sensitivity analysis for aignificant assumption:

| | Effect on the defined benefit obligation | | | | |
|--------------------------------|---|---|---|---|--|
| | 20 |)23 | 2022 | | |
| | Increase in defined benefit obligation | Decrease in defined benefit obligation | Increase in defined benefit obligation | Decrease in defined benefit obligation | |
| Discount rate increase by 0.5% | \$- | \$1,483 | \$- | \$3,659 | |
| Discount rate decrease by 0.5% | 15,742 | | 20,550 | 2 | |
| Future salary increase by 0.5% | 15,413 | | 20,180 | 8 | |
| Future salary decrease by 0.5% | 5 | 1,491 | | 3,680 | |

The sensitivity analyses above are based on a change in a significant assumption (for example: change in discount rate or future salary), keeping all other assumptions constant. The sensitivity analyses may not be representative of an actual change in the defined benefit obligation as it is unlikely that changes in assumptions would occur in isolation of one another.

There was no change in the methods and assumptions used in preparing the sensitivity analyses compared to the previous period.

(16) Equities

A. Common stock

The Company's authorized capital were both NT\$30,000,000 thousand as of December 31, 2023 and 2022. The Company's issued capital were both NT\$29,080,608 thousand as of December 31, 2023 and 2022, each at a par value of NT\$10. The Company has issued both 2,908,061 thousand common shares as of December 31, 2023 and 2022. Each share has one voting right and a right to receive dividends.

B. Capital surplus

| _ | As of December 31, | | |
|--|--------------------|-------------|--|
| | 2023 | 2022 | |
| Additional paid-in capital | \$1,540,300 | \$1,540,300 | |
| Increase through changes in ownership interests in subsidiaries | 258,091 | 258,091 | |
| Expired employee stock warrants | 23,661 | 23,661 | |
| Gains on disposal of assets | 103,166 | 103,166 | |
| Total | \$1,925,218 | \$1,925,218 | |

According to the Company Act, the capital reserve shall not be used except for making good the deficit of the company. When a company incurs no loss, it may distribute the capital reserves related to the income derived from the issuance of new shares at a premium or income from endowments received by the company. The distribution could be made in cash or in the form of dividend shares to its stockholders in proportion to the number of shares being held by each of them.

C. Earnings distribution and dividend policies

According to the Company's Articles of Incorporation, the Company's annual earnings, if any, shall first set aside 1.5% as employee bonuses and no higher than 1.5% as directors and supervisor's remunerations. Nevertheless, the Company shall first make up for losses if there are accumulated losses. The Company shall make distributions from its net income (less any deficit) in the following order:

- u. Offset an accumulated deficit.
- b. Set aside 10% as legal reserve.
- c. Set aside or reverse special reserve.
- d. Following distributions of items "a" to "c" indicated above, the remaining amount, if any, shall be proposed by the board of directors at a board meeting to be distributed as shareholders dividends and bonuses.

Based on the Company's plan to achieve healthy financial standing, whether to distribute the beginning undistributed earnings abould consider the actual operation of the year and the budget planning for the following year, to evaluate the necessity of providing funding via earnings distribution so as to determine the most appropriate dividend policy for sustainable business development. The said shareholders dividend and bonus distribution shall not be less than 50% of the distributable earnings after deducting the above items "a" to "c" from current net income. However, if the shareholders dividends and bonuses account for are less than 1% of the paid-in capital, the Company may resolve to transfer it to retained earnings without making distribution. At least 20% of the dividends must be paid in the form of cash. According to the Company Act, the Company needs to set aside amount to legal reserve unless where such legal reserve amounts to the total authorized capital. The legal reserve can be used to make good the deficit of the Company. When the Company incurs no loss, it may distribute the portion of legal serve which exceeds 25% of the paid-in capital by issuing new shares or by cash in proportion to the number of shares being held by each of the stockholders.

When the Company distributes distributable earnings, it shall set aside to special reserve, an amount equal to "other net deductions from shareholders" equity for the current fiscal year, provided that if the company has already set aside special reserve according to the requirements for the adoption of IFRS, it shall set aside supplemental special reserve based on the difference between the amount already set aside and other net deductions from shareholders' equity. For any subsequent reversal of other net deductions from shareholders' equity, the amount reversed may be distributed from the special reserve.

Following the adoption of TIFRS, the FSC on March 31, 2021 issued Order No. Jin-Guan-Cheng-Fa-Zi-1090150022, which sets out the following provisions for compliance:

On a public company's first-time adoption of the TIFRS, for any unrealized revaluation gains and cumulative translation adjustments (gains) recorded to shareholders' equity that the company elects to transfer to retained earnings by application of the exemption under IFRS 1, the company shall set aside an equal amount of special reserve. Following a company's adoption of the TIFRS for the preparation of its financial reports, when distributing distributable earnings, it shall set aside to special reserve, from the profit/loss of the current period and the undistributed earnings from the previous period, an amount equal to "other net deductions from shareholders' equity for the current fiscal year, provided that if the company has already set aside special reserve according to the requirements in the preceding point, it shall set aside supplemental special reserve based on the difference between the amount already set aside and other net deductions from shareholders' equity. For any subsequent reversal of other net deductions from shareholders' equity, the amount reversed may be distributed. The special reserves booked from first-time adoption of International Financial Reporting Standards were both NT\$3,232,749 thousand as of December 31, 2023 and 2022. The Company did not reverse special reserve to retained earnings for using, disposing of or reclassifying relevant assets in 2023 and 2022.

The Company has reversed special reserve to retained earnings for the years ended December 31, 2023 and 2022 as results of the use, disposal or reclassification of related assets in the amounts set out below:

| | For the years ended | December 31, |
|---|---------------------|--------------|
| | 2023 | 2022 |
| Beginning balance | \$3,232,749 | \$3,232,749 |
| Disposal of subsidiaries/associates | 8 | |
| Reclassification of investment properties/property. | 2 | 2 |
| plant and equipment | | |
| Ending balance | \$3,232,749 | \$3,232,749 |

Details of the 2023 and 2022 earnings distribution and dividends per share as approved by Board of Directors' meeting on March 11, 2024 and by the stockholders' meeting on June 14, 2023, respectively, are as follows:

| | Appropriation of earnings | | Dividend per share (NTS | |
|-----------------------------|---------------------------|------|-------------------------|------|
| | 2023 | 2022 | 2023 | 2022 |
| Legal reserve | \$- | S- | S- | \$- |
| Common stock -cash dividend | 34 | 645 | ι.e. | 4 |

Please refer to Note 6. (21) for further details on employees' compensation and remuneration to directors.

(17) Operating revenue

19

| | For the years ended December 31, | | | |
|---------------|----------------------------------|--------------|--|--|
| | 2023 | 2022 | | |
| Sale of goods | \$12,278,353 | \$12,595,543 | | |

Analysis of revenue from contracts with customers during the periods ended December 31, 2023 and 2022 are as follows:

A. Disaggregation of revenue

| | | Flat glass | Container | Fiber glass | Other | Total |
|------|---------------|-------------|-------------|-------------|-----------|--------------|
| 2023 | Sale of goods | \$4,698,928 | \$3,828,165 | \$3,633,093 | \$118,167 | \$12,278,353 |
| 2022 | Sale of goods | \$4,681,391 | \$3,279,956 | \$4,455,499 | \$178,697 | \$12,595,543 |

The timing of revenue recognition was at a point in time,

B. Contract balances

Contract liabilities - current

| | | As of | |
|----------------|-------------------|----------------------|--------------------|
| | December 31, 2023 | December 31, 2022 | January 1, 2022 |
| Sales of goods | \$426,359 | \$427,122 | \$401,338 |

The significant changes in the Company's balances of contract liabilities for the years ended December 31, 2023 and 2022 are as follows:

| | For the years ended December 31, | |
|---|----------------------------------|-----------|
| | 2023 | 2022 |
| The opening balance transferred to revenue | \$427,122 | \$401,338 |
| Increase in receipts in advance during the period | 426,359 | 427,122 |
| (excluding the amount incurred and transferred | | 16 |
| to revenue during the period) | | |

C. Assets recognized from costs to obtain or fulfil a contract: None.

(18) Expected credit losses/ (gains)

| For the years ended December 31, | | |
|----------------------------------|----------------------------|--|
| 2023 | 2022 | |
| | | |
| \$(307) | \$(549) | |
| (3,619) | 10200 | |
| \$(3,926) | \$(549) | |
| | 2023 \$(307) (3,619) | |

Please refer to Note 12 for more details on credit risk.

The Company measures the loss allowance of its contract assets and accounts receivables (including note receivables, accounts receivables, other receivables and overdue receivables) at an amount equal to lifetime expected credit losses. The assessment of the Company's loss allowance as of December 31, 2023 and 2022 is as follows:

The Company considered the grouping of accounts receivables by counterparties' credit rating, by geographical region and by industry sector and its loss allowance is measured by using a provision matrix, details are as follows: As of December 31, 2023

| Group 1 | | | Overdue | | |
|------------------------------------|-------------|------------|-------------|----------------|-----------------------|
| | Not yet due | 31-90 days | 91-365 days | >=366 days | Total |

| As of December 31, 2022 | \$- | \$992 | \$- | \$772,210 |

(19) Net amount of other revenues and gains and expenses and losses

| | For the years ended December 31, | |
|---|----------------------------------|----------|
| | 2023 | 2022 |
| Gains on disposal of property, plant, and equipment | \$7,747 | \$77,707 |
| Gains on disposal of other assets | 6 | ľ. |
| Total | \$7,753 | \$77,707 |

(20) Leases

A. Company as a lessee

The Company has entered into commercial leases on certain offices and plants. These leases have an average life of three to five years with no renewal option included in the contracts. There are no restrictions placed upon the Company by entering into these leases.

The Company's leases effect on the financial position, financial performance and cash flows are as follows:

1. Amounts recognized in the balance sheet

i. Right-of-use assets

The carrying amount of right-of-use assets

| | As of December 31. | | |
|-----------------|--------------------|----------|--|
| | 2023 | 2022 | |
| Land | \$104,577 | \$551 | |
| Buildings | 27,566 | 43,281 | |
| Other equipment | 13,237 | 21,941 | |
| Total | \$145,380 | \$65,773 | |

During the years period ended December 31, 2023 and 2022, the Company's additions to right-of-use assets amounting to NT\$123,573 thousand and NT\$5,378 thousand, respectively.

ii. Lease liabilities

| | As of December 31, | | |
|-------------------|--------------------|----------|--|
| | 2023 | 2022 | |
| Current | \$43,219 | \$24,993 | |
| Non-current | 92,637 | 37,046 | |
| Lease liabilities | \$135,856 | \$62,039 | |

Please refer to Note 6. (22)(d) for the interest on lease liabilities recognized during the years ended December 31, 2023 and refer to Note 12. (5) Liquidity Risk Management for the maturity analysis for lease liabilities as of December 31, 2023.

2. Amounts recognized in the statement of profit or loss

Depreciation charge for right-of-use assets

| | For the years ended December 31, | | |
|-----------------|----------------------------------|----------|--|
| | 2023 | 2022 | |
| Land | \$19,005 | \$24,538 | |
| Buildings | 14,537 | 15.689 | |
| Other equipment | 9,246 | 8,982 | |
| Total | \$42,788 | \$49,209 | |

3. Income and costs relating to leasing activities

| | For the years ended December 31, | |
|---|----------------------------------|---------|
| | 2023 | 2022 |
| The expenses relating to short-term leases | \$8,082 | \$1,313 |
| The expenses relating to leases of low-value assets | 3,742 | 4,333 |
| (Not including the expenses relating to short- | | 975555 |
| term leases of low-value assets) | | |

4. Cash outflow relating to leasing activities

During the year ended December 31, 2023 and 2022, the Company's total cash outflows for leases amounting to NT\$62,791 thousand and NT\$56,585 thousand, respectively.

(21) Summary statement of employee benefits, depreciation and amortization expenses by function:

| | For the years ended December 31, | | | | | | |
|----------------------------|----------------------------------|-----------------------|-------------|--------------------|-----------------------|-------------|--|
| | | 2023 | 111 | | 2022 | | |
| | Operating costs | Operating expenses | Total | Operating costs | Operating expenses | Total | |
| Employee benefits expense | £ | | | | | | |
| Salaries | \$2,032,341 | \$262,481 | \$2,294,822 | \$2,231,889 | \$341,164 | \$2,573,053 | |
| Labor and health insurance | 251,960 | 20,559 | 272,519 | 256,974 | 23,385 | 280,359 | |
| Pension | 91,543 | 19,735 | 111,278 | 97,273 | 20,052 | 117.325 | |
| Directors' remuneration | 5e | 9,608 | 9,608 | | 8,533 | 8,533 | |
| Other employee benefits | | | LINES- | | 1040-million | 81557 | |
| expense | 77,653 | 12,626 | 90,279 | 81,673 | 12,319 | 93,992 | |
| Depreciation | 1,209,181 | 46,823 | 1,256,004 | 1,216,462 | 45,964 | 1,262,426 | |
| Amortization | 184 | 1,203 | 1,387 | 31 | 1,505 | 1,536 | |

The number of employees as of December 31, 2023 and 2022 was 3,889 and 3,956, both including 8 non-employee directors.

For the years ended December 31, 2023 and 2022, the Company's average employee benefits expense amounted to NT\$713 thousand and NT\$776 thousand, respectively; the average salaries amounted to NT\$591 thousand and NT\$652 thousand, respectively. The adjustment of the average salaries was (9)%; the Company did not estimate supervisor compensation because it did not set up a supervisor position.

The remuneration of directors and managers of the Company shall be proposed by the Remuneration Committee in accordance with the law, taking into account the Company's operating conditions, profitability, and the prevailing inter-industry remuneration levels, and shall be decided by the Board of Directors. The remuneration of employees shall be fairly and reasonably determined with reference to educational background, professional skills, and the salary levels within the industry. In addition, performance-based bonuses will be awarded to employees based on the overall operational situation, individual performance, and their actual contribution, in line with the established compensation framework.

According to the Company's Articles of Incorporation, when there is profit of the current year, the Company shall distribute 1.5% of profit of the current year as employees' compensation and no higher than 1.5% of profit of the current year as remuneration to directors. However, the Company's accumulated losses shall have been covered. Information on the Board of Directors' resolution regarding the employees' compensation and remuneration to directors can be obtained from the "Market Observation Post System" on the website of the TWSE.

Based on the profit for the current year, the Company shall separately estimate 1.5% of profit for employees' compensation and directors' remuneration. The employees' compensation and remuneration to directors for the year ended December 31, 2023 amounted to NT\$651 thousand, recognized as salaries expense. Accordingly the Company did not estimate the amounts of the employees' compensation and remuneration to directors for the year ended December 31, 2022.

A resolution was approved at the board meeting held on March 11, 2024 to distribute employees' compensation and remuneration to directors for the year ended December 31, 2023 amounted to NT\$651 which did not differ from the amount recorded as expenses in the financial statements for the year ended December 31, 2023.

The actual amount of employees' compensation and remuneration to directors for the year ended December 31, 2023 was \$0 thousand, which did not differ from the amount recorded as expenses in the financial statements for the year ended December 31, 2022.

(22) Non-operating income and expenses

A. Interest income

| | For the years ended December 31, | | |
|---|----------------------------------|---------|--|
| | 2023 | 2022 | |

Linrecognized deferred tax assets

As of December 31, 2023 and 2022, deferred tax assets that have not been recognized as they may not be used to offset taxable profits amount to NT\$938,298 thousand and NT\$735,627 thousand, respectively.

Unrecognized deferred tax liabilities relating to the investment in subsidiaries

The Company did not recognize any deferred tax liability for taxes that would be payable on the unremitted earnings of the Company's overseas subsidiaries, as The Company has determined that undistributed profits of its subsidiaries will not be distributed in the foreseeable future. As of December 31, 2023 and 2022, the taxable temporary differences associated with investment in subsidiaries, for which deferred tax liability has not been recognized, aggregated to NT\$17,682,741 thousand and NT\$16,711,803 thousand, respectively.

The assessment of income tax returns

As of December 31, 2023, the assessment of the income tax returns of the Company is to 2021.

(25) Earnings per share

Basic earnings per share amounts are calculated by dividing net (loss) profit for the year attributable to ordinary equity holders of the parent entity by the weighted average number of ordinary shares outstanding during the year.

Diluted earnings per share amounts are calculated by dividing the net (loss) profit attributable to ordinary equity holders of the parent entity (after adjusting for interest on the convertible preference shares) by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

| | For the years ended December 31, | |
|---|----------------------------------|-------------|
| | 2023 | 2022 |
| Basic carnings per share | | |
| Profit attributable to ordinary equity holders of the | | |
| Company (in thousands) | \$34,594 | \$(720,576) |
| Weighted average number of ordinary shares | | |
| outstanding for basic earnings per share (in | | |
| thousands) | 2,908,061 | 2,908,061 |
| Basic earnings per share (NT\$) | \$0.01 | \$(0.25) |

| | For the years end | ed December 31, |
|---|-----------------------|-----------------|
| | 2023 | 2022(Note) |
| Diluted earnings per share | | |
| Profit attributable to ordinary equity holders of the | | |
| Company (in thousands) | \$34,594 | |
| Weighted average number of ordinary shares | | |
| outstanding for basic earnings per share (in | | |
| thousands) | 2,908,061 | |
| Effect of dilution: | 996 - 1 <u>8</u> 96-5 | |

As of December 31, 2023, the contingency and off balance sheet commitments are as follows:

 As of December 31, 2023, the outstanding promissory notes signed for business needs, including importing equipment, purchase of equipment, performance bond, and loan guarantee, totaled NT\$21,755,989 thousand.

- (2) Commodity tax and export tariff were NT\$12,699 thousand.
- (3) Unsecured balance of letters of credit is as follows:

| Currency | Unused Balance (in thousands) |
|----------|-------------------------------|
| USD | 20,970 |
| JPY | 5,432 |
| EUR | 1,997 |

(4) Significant contracts of construction in progress and equipment are as follows:

| Items | Contract amount | Amount paid | Amount unpaid |
|--|-----------------|-------------|---------------|
| Significant contracts of construction in | | | |
| progress and equipment | \$618,653 | \$241,588 | \$377,065 |

The above amount paid was recognized as construction in progress under property, plant and equipment and prepayment for equipment under noncurrent assets.

- (5) The Company signed the promissory notes in amount of NT\$750,000 thousand, USD74,000 thousand and RMB172,560 thousand for its subsidiaries' secured loans.
- (6) As of December 31, 2023 the Company issued a letter of support to Shihlin China Holding Co., Ltd, to negotiate a loan of USD569,150 thousand from the bank according to the credit contract. The commitments are as follows:
 - A. It shall hold and maintain at least (including) 30% of the issued shares of the borrower with the related parties of the company at any time. The scope and target of the "related party" shall be determined in accordance with the international Financial Reporting Standards (IFRS) that apply to the Company.
 - B. The Company shall ensure that the borrower maintains a good financial standing at all times and has the ability to perform the credit granting and related document obligations in this case; if the borrower is unable to perform the related obligations, the Company will try its best to provide assistance and urge the borrower to perform the obligations in accordance with the agreement.
- 10. Losses due to major disasters

None.

11. Significant subsequent events

None.

Financial Instruments

(1) Categories of financial instruments

| Financial assets | As of December 31, | | |
|--|--------------------|-----------------|--|
| | 2023 | 2022 | |
| Financial assets at fair value through other comprehensive income | \$339,553 | \$326,033 | |
| Financial assets measured at amortized cost | | | |
| Cash and cash equivalents (excluding cash on hand) | 1,285,449 | 1,162,965 | |
| Receivables | 2,019,002 | 3,824,137 | |
| Refundable deposits | 8,381 | 10,709 | |
| Subtotal | 3,312,832 | 4,997,812 | |
| Total | \$3,652,385 | \$5,323,845 | |
| Financial liabilities | As of December 31, | | |
| | 2023 | 2022 | |
| Financial liabilities at amortized cost: | | | |
| Short-term loans | \$1,950,000 | \$2,250,000 | |
| Short-term bills payable | 4,064,560 | 4,087,800 | |
| Payables | 1,303,775 | 2,035,092 | |
| | 14,281,970 | 15,148,788 | |
| Long-term loans (including current portion) | | | |
| Long-term loans (including current portion) Lease liabilities (including current and non-current) | 135,856 | | |
| | 135,856 3,094 | 62,039 2,839 | |

(2) Financial risk management objectives and policies

The Company's principal financial risk management objective is to manage the market risk, credit risk and liquidity risk related to its operating activates. The Company identifies, measures and manages the aforementioned risks based on the Company's policy and risk appetite.

The Company has established appropriate policies, procedures and internal controls for financial risk management. Before entering into significant transactions, due approval process by the Board of Directors must be carried out based on related protocols and internal control procedures. The Company complies with its financial risk management policies at all times.

(3) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of the changes in market prices. Market prices comprise currency risk, interest rate risk and equity risk.

In practice, it is rarely the case that a single risk variable changes independently from other risk variables, there are usually interdependencies between risk variables. The sensitivity analysis disclosed below does not take into account the interdependencies between risk variables.

Foreign currency risk

The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense are denominated in a different currency from the Company's functional currency).

The Company has certain foreign currency receivables to be denominated in the same foreign currency with certain foreign currency payables, therefore natural hedge is received.

The foreign currency sensitivity analysis of the possible change in foreign exchange rates on the Company's profit is performed on significant monetary items denominated in foreign currencies as at the end of the reporting period. The Company's foreign currency risk is mainly related to the volatility in the exchange rates for US dollars. The information of the sensitivity analysis is as follows:

When NTD weakens/strengthens against US dollars by 1%, the profit for the years ended of December 31, 2023 and 2022 is decreased/increased by NT\$12,698 thousand and NT\$29,116 thousand, respectively.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt instrument investments and receivables at variable interest rates, bank borrowings with fixed interest rates and variable interest rates.

The interest rate sensitivity analysis is performed on items exposed to interest rate risk as at the end of the reporting period, including investments and borrowings with variable interest rates and interest rate swaps. At the reporting date, a change of 10 basis points of interest rate in a reporting period could cause the profit for the years ended December 31, 2023 and 2022 to be decreased/increased by NT\$9,419 thousand and NT\$13,634 thousand, respectively.

Equity price risk

The fair value of the Company's listed and unlisted equity securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Company's listed and unlisted equity securities are classified under financial assets measured at fair value through other comprehensive income. The Company manages the equity price risk through diversification and placing limits on individual and total equity instruments. Reports on the equity portfolio are submitted to the Company's senior management on a regular basis. The Company's Board of Directors reviews and approves all equity investment decisions.

As of December 31,2023 and 2022, a change of 10% in the price of the listed equity securities measured at fair value through profit or loss could increase/decrease the Company's profit by NT\$27,211 thousand and NT\$27,319 thousand, respectively.

(4) Credit risk management

Credit risk is the risk that a counter party will not meet its obligations under a contract, leading to a financial loss. The Company is exposed to credit risk from operating activities (primarily for accounts receivables and notes receivables) and from its financing activities, including bank deposits and other financial instruments.

Customer credit risk is managed by each business unit subject to The Company's established policy, procedures and control relating to customer credit risk management. Credit limits are established for all customers based on their financial position, rating from credit rating agencies, historical experience, prevailing economic condition and the Company's internal rating criteria etc. Certain customer's credit risk will also be managed by taking credit enhancing procedures, such as requesting for prepayment or insurance.

As of December 31, 2023, only 21% of the company's total receivable were from customers whose receivable accounted for 10% or more of the total receivable of the company. As of December 31, 2022, none of the customer's receivables reached 10% of the company's total receivable, indicating the credit concentration risk of accounts receivables is insignificant.

Credit risk from balances with banks, fixed income securities and other financial instruments is managed by the Company's treasury in accordance with the Company's policy. The Company only transacts with counterparties approved by the internal control procedures, which are banks and financial institutions, companies and government entities with good credit rating and with no significant default risk. Consequently, there is no significant credit risk for these counter parties. The Company adopted IFRS 9 to assess the expected credit losses. Except for trade receivables, the remaining debt instrument investments which are not measured at fair value through profit or loss, low credit risk for these investments is a prerequisite upon acquisition and makes an assessment at each reporting date as to whether the expected credit losses increase significantly, and then further determines the method of measuring the loss allowance and the loss rates. The details of the assessment for the credit risk of the Company are described as follows:

| | | | Total carrying amount as at | | |
|----------------------------|----------------------------|----------------------------------|-----------------------------|-----------|--|
| | Measurement method for | | As of December 31, | | |
| Level of credit risk | Indicator | Indicator expected credit losses | | 2022 | |
| Credit-impaired | Other impaired cvidence | Lifetime expected credit losses | \$775,771 | \$772,210 | |
| Simplified approach (Note) | (Note) | Lifetime expected credit losses | 2,020,301 | 3,825,129 | |

Note: By using simplified approach (loss allowance is measured at lifetime expected credit losses), including accounts and notes receivables and other receivables.

Financial assets are written off when there is no realistic prospect of future recovery (the issuer or the debtor is in financial difficulties or bankruptcy).

(5) Liquidity risk management

The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of cash and cash equivalents, highly liquid equity investments and bank borrowings. The table below summarizes the maturity profile of the Company's financial liabilities based on the contractual undiscounted payments and contractual maturity. The payment amount includes the contractual interest. The undiscounted payment relating to borrowings with variable interest rates is extrapolated based on the estimated interest rate yield curve as of the end of the reporting period.

Non-derivative financial liabilities

| | Less than 1 year | 2 to 3 years | 4 to 5 years | > 5 years | Total |
|--------------------------|---------------------|--------------|--------------|-----------|-------------|
| As of December 31, 2023 | | | | | |
| Short-term loans | \$1,977,852 | S- | 5- | S- | \$1,977,852 |
| Short-term bills payable | 4,080,000 | 05 | | | 4,080,000 |
| Payables | 1,303,775 | - 12 | 2 | <u> </u> | 1,303,775 |
| Long-term loans | 4,368,266 | 10,126,203 | 265,407 | | 14,759,876 |
| Lease liabilities | 44,222 | 70,300 | 25,827 | 2 | 140,349 |
| | | | | | |

| | Less than 1 year | 2 to 3 years | 4 to 5 years | > 5 years | Total |
|--------------------------|---------------------|--------------|--------------|-----------|-------------|
| As of December 31, 2022 | | | | | |
| Short-term loans | \$2,278,402 | S- | 5- | 5- | \$2,278,402 |
| Short-term bills payable | 4,100,000 | - | 9 | 5 | 4,100,000 |
| Payables | 2,035,092 | 2 | 54 | | 2,035,092 |
| Long-term loans | 8,006,627 | 7,050,972 | 537,253 | | 15,594,852 |
| Lease liabilities | 22,680 | 39,315 | 1,385 | 52 | 63,380 |

As of December 31, 2023, there was liquidity risk that the Company's current liability exceeded current asset. However, the Company expects to maintain certain financial financing plans to respond to this risk. The Company's management considers that the measures mentioned above could reduce the liquidity risk significantly as of December 31, 2023.

(6) Reconciliation of liabilities arising from financing activities

Reconciliation of liabilities for the year ended December 31, 2023:

| | Short-term | Short-term bills payable | Long-term Joans | Lease llabilities | Total liabilities from financing activities |
|------------------------|-------------|-----------------------------|--------------------|-------------------|---|
| As of January 1, 2023 | \$2,250,000 | \$4,087,800 | 515,148,788 | \$62,039 | \$21,548,627 |
| Cash flows | (300,000) | (20,000) | (866,818) | (50,967) | (1,237,785) |
| Non-cash changes: | | (3,240) | | 124,784 | 121,344 |
| As at 31 December 2023 | \$1,950,000 | \$4,064,560 | \$14,281,970 | \$135,856 | \$20,432,386 |

Reconciliation of liabilities for the year ended December 31, 2022:

| | Short-term Ioans | Short-term bills | Long-term | Lease liabilities | Total liabilities from financing activities |
|------------------------|---------------------|------------------|--------------|-------------------|---|
| As of January 1, 2022 | \$900,000 | \$3,090,314 | \$14,873,940 | \$106,519 | \$18,970,773 |
| Cash flows | 1,350,000 | 1,000,000 | 274,848 | (50,939) | 2,573,909 |
| Non-cash changes: | | (2,514) | | 6,459 | 3,945 |
| As at 31 December 2022 | \$2,250,000 | \$4,087,800 | \$15,148,788 | \$62,039 | \$21,548,627 |

(7) Fair values of financial instruments

A. The methods and assumptions applied in determining the fair value of financial instruments:

The fair value of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

- a. The carrying amount of cash and cash equivalents, trade receivables, accounts payable and other current liabilities approximate their fair value due to their short maturities.
- b. For financial assets and liabilities traded in an active market with standard terms and conditions, their fair value is determined based on market quotation price (including listed equity securities s beneficiary certification s bonds and futures).
- c. Fair value of equity instruments without market quotations (including private placement of listed equity securities, unquoted public company and private company equity securities) are estimated using the market method valuation techniques based on parameters such as prices based on market transactions of equity instruments of identical or comparable entities and other relevant information (for example, inputs such as discount for tack of marketability, P/E ratio of similar entities and Price-Book ratio of similar entities).
- d. Fair value of debt instruments without market quotations, bank loans, bonds payable and other non-current liabilities are determined based on the counterparty prices or valuation method. The valuation method uses DCF method as a basis, and the assumptions such as the interest rate and discount rate are primarily based on relevant information of similar instrument (such as yield curves published by the GreTai Securities Market, average prices for Fixed Rate Commercial Paper published by Reuters and credit risk, etc.)
- B. Fair value of financial instruments measured at amortized cost

The carrying amount of the Company's financial instruments measured at amortized cost approximate their fair value.

C. Fair value measurement hierarchy for financial instruments

Please refer to Note 12. (8) for fair value measurement hierarchy for financial instruments of the Company.

- (8) Assets measured at fair value
 - A. Fair value measurement hierarchy

All asset and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole. Level 1, 2 and 3 inputs are described as follows:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities that the entity can access at the measurement date.
- Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 Unobservable inputs for the asset or liability

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization at the end of each reporting period.

B. Fair value measurement hierarchy of the Company's assets and liabilities

The Company does not have assets that are measured at fair value on a non-recurring basis. Fair value measurement hierarchy of the Company's assets and liabilities measured at fair value on a recurring basis is as follows:

As of December 31, 2023

| | Level 1 | Level 2 | Level 3 | Total |
|--|-----------|-----------|----------|-----------|
| Financial assets: | | | | |
| Financial assets at fair value through other | | | | |
| comprehensive income | \$272,111 | \$- | \$67,442 | \$339,553 |
| As of December 31, 2022 | | | | |
| 15.0° | Level 1 | Level 2 | Level 3 | Total |
| Financial assets: | | | | |
| Financial assets at fair value through other | | | | |
| comprehensive income | \$273,194 | S- | \$52,839 | \$326,033 |

During the years ended December 31, 2023 and 2022, there were no transfers between Level 1 and Level 2 fair value measurements.

Reconciliation for fair value measurements in Level 3 of the fair value hierarchy is as follows:

| | Assets |
|--|---|
| | At fair value through other comprehensive income |
| | Stocks |
| Beginning balances As of January 1, 2022 | \$52,397 |
| Total gains and losses recognized for the year ended December 31, 2022: | - 17 |
| Amount recognized in profit or loss | - |
| Amount recognized in OCI | 442 |
| Ending balances as of December 31, 2022 | 52,839 |
| Total gains and losses recognized for the year ended December 31, 2023: | 1.000000000 |
| Amount recognized in profit or loss | - |
| Amount recognized in OCI | 14,603 |
| Ending balances as of December 31, 2023 | \$67,442 |

Total gains and losses recognized for the years ended December 31, 2023 and 2022 contained gains and losses related to such assets on hand as of December 31, 2023 and 2022 in the amount of NT\$0 thousand.

Information on significant unobservable inputs to valuation

Description of significant unobservable inputs to valuation of recurring fair value measurements categorized within Level 3 of the fair value hierarchy is as follows:

As of December 31, 2023

| | Valuation: techniques | Significani unobservable inputs | Quantitative information | Relationship between inputs and fair value | Sensitivity of the input to failt value |
|---|--------------------------|------------------------------------|-----------------------------|---|---|
| Financial mantum fair value through other comprehensive income | | | | | |
| Stucks | Market approach | Discount for tack of marketability | 5¶1 | The higher the discount for lick of marketability, the lower the fair value of the stocks | 1% increase (decrease) in the discourt for tack of marketability woold result in (decrease) increase in the Company's equity by NTI674 thereased |

As of December 31, 2022

| | Vaturation techniques | Significant anobservable inputs | Quantitative utformation | Relationship between inputs and flar value | Sensitivity of the input to |
|---|--------------------------|------------------------------------|-----------------------------|---|---|
| Fourieral assets at fair value through other comprehenative income | | | | | |
| Stocks | Market approach | Discount for lack of marketability | 121 | The higher the discount for lark of marketability, the lower the fair value of the stocks | 1% increase (decrease) in the discount for tack of marketentility would result in (decrease) increase in the Company's equity by NT\$5518 thousand |

Valuation process used for fair value measurements categorized within Level 3 of the fair value hierarchy

The Company is responsible for validating the fair value measurements and ensuring that the results of the valuation are in line with market conditions, based on independent and reliable inputs which are consistent with other information, and represent exercisable prices. The Department analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Company's accounting policies at each reporting date.

C. Fair value measurement hierarchy of the Company's assets and liabilities not measured at fair value but for which the fair value is disclosed

As of December 31, 2022

| | Level 1 | Lovel 2 | Level J | Total |
|---|---------|---------|-----------|-----------|
| Financial assets not measured at fulr value but for | | | | |
| which the fair value is disclosed: | | | | |
| Investment properties (please refer to Note 6.(11)) | 5. | S- | \$116,682 | \$116,682 |

(9) Significant assets and liabilities denominated in foreign currencies

Information regarding the significant assets and liabilities denominated in foreign currencies is listed below:

(in thousands)

| | As of December 31, | | | | | | | |
|----------------------------|-----------------------|-----------------------------|-------------|-----------------------|-----------------------------|-------------|--|--|
| | | 2023 | | | 2022 | | | |
| | Foreign currencies | Foreign exchange rate | NTD | Foreign currencies | Foreign exchange rate | NTD | | |
| Financial assets | | | | | | | | |
| Monetary items: USD | \$41,402 | 30.705 | \$1,271,258 | \$94,809 | 30.71 | \$2,911,597 | | |
| Non-Monetary items; USD | 15,357 | 30,705 | 471,530 | 12,673 | 30.71 | 389,199 | | |

The above information is disclosed based on the carrying amount of foreign currency (after conversion to functional currency).

Since there were various functional currencies used, the Company was unable to disclose foreign exchange gains (losses) towards each foreign currency with significant impact. The realized and unrealized foreign exchange gains was NT\$29,583 thousand and NT\$248,668 thousand for the years ended December 31, 2023 and 2022, respectively.

(10) Capital management

The primary objective of the Company's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize stockholder value. The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, The Company may adjust dividend payment to stockholders, return capital to stockholders or issue new shares.

(11) Information of finance assets transfer

Transferred financial assets that are partially-derecognized in their entirety

The Company entered into a factoring agreement with a financial institution, which is partly with recourse and partly non-recourse. The Company has transferred the right on those nonrecourse factoring, and in accordance with the contract, the Company shall not be liable for the credit risks associated with uncollectable receivables (except for commercial disputes), which met the requirements for derecognizing financial assets. The related information is as follows:

As of December 31, 2023:

| | Amount | | Advanced | Interest rate | |
|------------|-------------|----------|----------|---------------|-----------|
| Transferee | transferred | Amount | amount | range | Credit |
| O-Bank | \$51,859 | \$46,673 | \$47,559 | 1.97% | \$525,000 |

As of December 31, 2022:

| | | Amount | | Advanced | Interest rate | |
|---|------------|-------------|-----------|-----------|---------------|-----------|
| _ | Transferee | transferred | Amount | amount | range | Credit |
| | O-Bank | \$206,638 | \$185,974 | \$187,204 | 1%-2% | \$525,000 |

13. Other disclosure

(1) Information at significant transactions

- A. Lending fund to others: Please refer to Attachment 1.
- B. Endorsement/guarantee provided to others: Please refer to Attachment 2.
- C. Securities held at the end of the period: Please refer to Attachment 3.
- D. Individual securities acquired or disposed of with accumulated amount exceeding NT\$300 million or 20 percent of the capital stock or more: Please refer to Attachment 4.
- E. Acquisition of real estate with amount exceeding NT\$300 million or 20 percent of the capital stock or more: None.
- F. Disposal of real estate with amount exceeding NT\$300 million or 20 percent of the capital stock or more: None.
- G. Related party transactions for purchases and sales amounts exceeding NT\$100 million or 20 percent of the capital stock or more: Please refer to Attachment 5.
- H. Receivables from related parties with amounts exceeding NT\$100 million or 20 percent of capital stock or more: Please refer to Attachment 6.
- L. Financial instruments and derivative transactions: None.
- J. Business relationship between the parent and the subsidiaries and between each subsidiary, and the circumstances and accounts of any significant transactions between them: Please refer to Attachment 7.

(2) Information on investees

Information of the investees in which the Company directly or indirectly has significant influence or control: Please refer to Attachment 8.

(3) Information on investments in Mainland China

- A. Investee's name, main businesses and products, total amount of capital, method of investment, accumulated inflow and outflow of investments from Taiwan, percentage of ownership, investment income or loss, carrying value of the investments, inward remittance of earnings and limits on investments in Mainland China: Please refer to Attachment 9.
- B. Directly or indirectly significant transactions through other regions with the investees in Mainland China, including price, payment terms, unrealized gain or loss, and other events with significant effects on the operating results and financial condition are disclosed as follows:
 - Accumulated amount and percentage of purchase and related payables at the end of the period: Please refer to Note 7 and Attachment 5.
 - b. Accumulated amount and percentage of sales and related receivables at the end of the period: Please refer to Note 7 and Attachment 5.
 - c. Amount of property transaction and related gain or loss: Note 7.
 - d. Endorsement/guarantee provided to others at the end of the period: Please refer to Attachment 2.
 - e. Financing provided to others at the end of the period: Note 7.
 - f. Other significant transactions, such as service provided or received: Please refer to Note 7.

Independent Auditors' Report Translated from Chinese

To Taiwan Glass Industrial Corporation

Opinion

We have audited the accompanying consolidated balance sheets of Taiwan Glass Industrial Corporation (the "Company") and its subsidiaries as of December 31, 2023 and 2022, and the related consolidated statements of comprehensive income, changes in equity and cash flows for the years ended December 31, 2023 and 2022, and notes to the consolidated financial statements, including the summary of material accounting policies (collectively "the consolidated financial statements").

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Company and its subsidiaries as of December 31, 2023 and 2022, and their consolidated financial performance and cash flows for the years ended December 31, 2023 and 2022, in conformity with the requirements of the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Financial Reporting Standards. International Accounting Standards, interpretations developed by the International Financial Reporting Interpretations Committee or the former Standing Interpretations Committee as endorsed by Financial Supervisory Commission of the Republic of China.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and the Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company and its subsidiaries in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China (the "Norm"), and we have fulfilled our other ethical responsibilities in accordance with the Norm. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of 2023 consolidated financial statements. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Impainment Valuation of Non-financial assets

As of December 31, 2023, the Company and its subsidiaries' property, plant and equipment amounted to NTS41,731,313 thousand, which accounted for 46% of its total assets, which is relatively material for the consolidated financial statements. Due to the market and economic outlook fluctuations in recent years, some operating units operated in losses which indicated that assets may be impaired. Therefore, the management performed impairment test on related cash-generating units and value in use or net fair value were adopted for the recoverable amounts of different cash generating units. As the estimation of the recoverable amount of the related cash-generating unit requires significant management judgment, we determined this a key audit matter.

Our audit procedures included, but not limited to, analyzing the rationality of recoverable amounts used by management, obtaining underlying data of the recoverable amount provided by management (including cash flow forecast, growth rate, real estate and equipment valuation report) and related assumptions and discussing with management; assessing the appraiser's professional competency, experience and reputation in the related field; using the work of internal expert to assist us in considering the discount rate used by management and reviewing the appraiser's valuation and its estimation process to assess whether the reasonable value in the current real estate market were evaluated based on reasonable and supported assumptions; verifying that the source of the assessment used by management.

We also assessed the adequacy of disclosures of property, plant and equipment. Please refer to Notes 4, 5 and 6 to the Company's consolidated financial statements.

Valuation of Inventories

As of December 31, 2023, the Company and its subsidiaries net inventories amounted to NT\$11,244,930 thousand, which is relatively material for the consolidated financial statements. The Company and its subsidiaries are engaged in the manufacturing, processing and sale of various glasses which have a wide range of applications in various sectors such as construction, electronics and consumer products industries. Considering the fact that identification of slow-moving inventories and the assessment of the amount of inventory write-downs require significant management judgement based on market demands, we determined this a key audit matter.

Our audit procedures included, but not limited to, assessing the appropriateness of the accounting policies of evaluating slow-moving and obsolete inventories, including analyzing slow-moving inventory allowance ratio and the net realizable value adopted; understanding and testing the internal controls established by management with respect to the valuation of inventories, including the calculation of net realizable value; examining to relevant documentation and recalculating the loss from price decline to ensure inventories appropriately valuated at lower of cost and net realizable value. Vouching samples against related certificates to verify accuracy of inventory aging.

We also assessed the adequacy of disclosures of inventories. Please refer to Notes 4, 5 and 6 to the Company's consolidated financial statements.

Revenue Recognition

Operating revenues recognized by the Company and its subsidiaries amounted to NT\$45,619,038 thousand for the year ended December 31, 2023. Reflecting different market demands, trade terms of different contracts varied, along with the fact that some of the sales orders included delivery services, management needed to review the sales orders or contracts to determine the performance obligations and the time of their satisfaction, there is a significant risk in revenue recognition. Therefore, we considered this a key audit matter.

Our audit procedures included, but not limited to, assessing the appropriateness of the accounting policy of revenue recognition; evaluating and testing the operating effectiveness of internal controls with respect to revenue recognition; selecting samples to perform tests of details and reviewing related transaction certificates and the significant terms and conditions of contracts to verify the accuracy of the timing of performance obligation satisfaction; confirming significant account receivable balance by sending confirmation letters; selecting samples of transactions from either side of balance sheet date, vouching samples against related certificates and reviewing significant subsequent sales return or discounts transactions to ensure revenue was recognized at appropriates timing.

We also assessed the adequacy of disclosures of operating revenues. Please refer to Notes 4 and 6 to the Company's consolidated financial statements.

Other Matter

We have audited and expressed an unqualified opinion on the parent company only financial statements of the Company as of and for the years ended December 31, 2023 and 2022.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the requirements of the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Financial Reporting Standards, International Accounting Standards, interpretations developed by the International Financial Reporting Interpretations Committee or the former Standing Interpretations Committee as endorsed by Financial Supervisory Commission of the Republic of China and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the ability to continue as a going concern of the Company and its subsidiaries, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company and its subsidiaries or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit committee, are responsible for overseeing the financial reporting process of the Company and its subsidiaries.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

- 1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of the Company and its subsidiaries.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability to continue as a going concern of the Company and its subsidiaries. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company and its subsidiaries to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the accompanying notes, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company and its subsidiaries to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of 2023 consolidated financial statements and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Lee, Yu-Ju

Huang, Chien-Che

Ernst & Young, Taiwan March 11, 2024

Notice to Renders

The accompanying consolidated financial statements are intended only to present the financial position, results of operations and each flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The sumfords, procedures and practices to audit such consolidated financial statements are those generally accepted and upplied in the Republic of China.

Accordingly, the accompanying consolidated financial statements and report of independent accommants are not intended for use by those who are not informed about the accounting principles or Standards on Auditing of the Republic of China, and their applications in practice. As the financial statements are the responsibility of the management. English Translation of Consolidated Financial Statements Originally Issued in Chinese TAIWAN GLASS INDUSTRIAL CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS For the Years Ended December 31, 2023 and 2022 (Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

1. History and organization

Taiwan Glass Industrial Corporation ("the Company") was incorporated on September 5, 1964 and commenced operations in 1967. The main activities of the Company are manufacturing, processing and selling of various glass products. The Company's common shares were publicly listed on the Taiwan Stock Exchange (TWSE) in July 1973. The Company's registered office and the main business location is at 11F, No. 261, Section 3, Nanjing E. Rd., Taipei, Republic of China (R.O.C.).

2. Date and procedures of authorization of financial statements for issue

The consolidated financial statements of the Company and its subsidiaries ("the Group") for the years ended December 31, 2023 and 2022 were authorized for issue by the Board of Directors on March 11, 2024.

3. Newly issued or revised standards and interpretations

 Changes in accounting policies resulting from applying for the first time certain standards and amendments

The Group applied for the first time International Financial Reporting Standards, International Accounting Standards, and Interpretations issued, revised or amended which are recognized by Financial Supervisory Commission ("FSC") and become effective for annual periods beginning on or after January 1, 2023. The adoption of these new standards and amendments had no material impact on the Group.

(2) Standards or interpretations issued, revised or amended, by International Accounting Standards Board ("IASB") which are endorsed by FSC, and not yet adopted by the Group as at the end of the reporting period are listed below.

| Items | New, Revised or Amended Standards and Interpretations | Effective Date issued by IASB |
|-------|--|----------------------------------|
| a | Classification of Liabilities as Current or Non-current - Amendments to IAS I | l January 2024 |
| Ь | Lease Liability in a Sale and Leaseback - Amendments to IFRS 16 | 1 January 2024 |
| e. | Non-current Liabilities with Covenants - Amendments to IAS 1 | 1 January 2024 |
| d | Supplier Finance Arrangements - Amendments to IAS 7 and IFRS 7 | 1 January 2024 |

(a) Classification of Liabilities as Current or Non-current - Amendments to IAS 1

These are the amendments to paragraphs 69-76 of IAS 1 Presentation of Financial statements and the amended paragraphs related to the classification of liabilities as current or non-current.

(b) Lease Liability in a Sale and Leaseback - Amendments to IFRS 16

The amendments add seller-lessees additional requirements for the sale and leaseback transactions in IFRS 16, thereby supporting the consistent application of the standard.

(c) Non-current Liabilities with Covenants - Amendments to IAS 1

The amendments improved the information companies provide about long-term debt with covenants. The amendments specify that covenants to be complied within twelve months after the reporting period do not affect the classification of debt as current or non-current at the end of the reporting period.

(d) Supplier Finance Arrangements - Amendments to IAS 7 and IFRS 7

The amendments introduced additional information of supplier finance arrangements and added disclosure requirements for such arrangements.

The abovementioned standards and interpretations were issued by IASB and endorsed by FSC so that they are applicable for annual periods beginning on or after January 1, 2024. The remaining standards and interpretations have no material impact on the Group.

(3) Standards or interpretations issued, revised or amended, by IASB which are not endorsed by FSC, and not yet adopted by the Group as at the end of the reporting period are listed below.

| ltems | New, Revised or Amended Standards and Interpretations | Effective Date issued by IASB |
|-------|---|----------------------------------|
| a | IFRS 10 "Consolidated Financial Statements" and IAS 28 "Investments in Associates and Joint Ventures" — Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures | by IASB |
| b | IFRS 17 "Insurance Contracts" | 1 January 2023 |
| (c) | Lack of Exchangeability - Amendments to IAS 21 | 1 January 2025 |

(a) IFRS 10"Consolidated Financial Statements" and IAS 28"Investments in Associates and Joint Ventures" — Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures

The amendments address the inconsistency between the requirements in IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Fentures, in dealing with the loss of control of a subsidiary that is contributed to an associate or a joint venture. IAS 28 restricts gains and losses arising from contributions of non-monetary assets to an associate or a joint venture to the extent of the interest attributable to the other equity holders in the associate or joint ventures. IFRS 10 requires full profit or loss recognition on the loss of control of the subsidiary. IAS 28 was amended so that the gain or loss resulting from the sale or contribution of assets that constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized in full.

IFRS 10 was also amended so that the gains or loss resulting from the sale or contribution of a subsidiary that does not constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized only to the extent of the unrelated investors' interests in the associate or joint venture.

(b) IFRS 17 "Insurance Contracts"

IFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects (including recognition, measurement, presentation and disclosure requirements). The core of IFRS 17 is the General (building block) Model, under this model, on initial recognition, an entity shall measure a group of insurance contracts at the total of the fulfilment cash flows and the contractual service margin. The carrying amount of a group of insurance contracts at the end of each reporting period shall be the sum of the liability for remaining coverage and the liability for incurred claims.

Other than the General Model, the standard also provides a specific adaptation for contracts with direct participation features (the Variable Fee Approach) and a simplified approach (Premium Allocation Approach) mainly for short-duration contracts.

IFRS 17 was issued in May 2017 and it was amended in 2020 and 2021. The amendments include deferral of the date of initial application of IFRS 17 by two years to annual beginning on or after 1 January 2023 (from the original effective date of 1 January 2021); provide additional transition reliefs; simplify some requirements to reduce the costs of applying IFRS 17 and revise some requirements to make the results easier to explain. IFRS 17 replaces an interim Standard – IFRS 4 Insurance Contracts – from annual reporting periods beginning on or after 1 January 2023.

(c) Lack of Exchangeability - Amendments to IAS 21

These amendments specify whether a currency is exchangeable into another currency and, when it is not, to determining the exchange rate to use and the disclosures to provide. The amendments apply for annual reporting periods beginning on or after 1 January 2025.

The abovementioned standards and interpretations issued by IASB have not yet endorsed by FSC at the date when the Group's financial statements were authorized for issue, the local effective dates are to be determined by FSC. As the Group is still currently determining the potential impact of the standards and interpretations listed under (a), it is not practicable to estimate their impact on the Group at this point in time. The remaining new or amended standards and interpretations have no material impact on the Group.

4. Summary of material accounting policies

(1) Statement of compliance

The consolidated financial statements of the Group for the years ended December 31, 2023 and 2022 have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers ("the Regulations"), IFRSs, IASs, IFRIC and SIC, which are endorsed by the FSC.

(2) Basis of preparation

The consolidated financial statements have been prepared on a historical cost basis, except for financial instruments that have been measured at fair value. The consolidated financial statements are expressed in thousands of New Taiwan Dollars ("NT\$") unless otherwise stated.

(3) Basis of consolidation

Preparation principle of consolidated financial statements

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- A power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- B. exposure, or rights, to variable returns from its involvement with the investee, and
- C. the ability to use its power over the investee to affect its returns

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- A, the contractual arrangement with the other vote holders of the investee
- B. rights arising from other contractual arrangements
- C. the Group's voting rights and potential voting rights

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

Subsidiaries are fully consolidated from the acquisition date, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases. The financial statements of the subsidiaries are prepared for the same reporting period as the parent company, using uniform accounting policies. All intra-group balances, income and expenses, unrealized gains and losses and dividends resulting from intra-group transactions are eliminated in full.

A change in the ownership interest of a subsidiary, without a change of control, is accounted for as an equity transaction.

Total comprehensive income of the subsidiaries is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

If the Group loses control of a subsidiary, it:

- A. derecognizes the assets (including goodwill) and liabilities of the subsidiary;
- B. derecognizes the carrying amount of any non-controlling interest;
- C. recognizes the fair value of the consideration received;
- D. recognizes the fair value of any investment retained;
- E. recognizes any surplus or deficit in profit or loss; and
- F. reclassifies the parent's share of components previously recognized in other comprehensive income to profit or loss.

The consolidated entities are listed as follows:

| Investor | | | Percentage of ownership (%) | | |

(4) Foreign currency transactions

The Group's consolidated financial statements are presented in NT dollars, which is also the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

Transactions in foreign currencies are initially recorded by the Group entities at their respective functional currency rates prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency closing rate of exchange ruling at the reporting date. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. Non-monetary items that are measured at historical cost in a foreign currency are translated using the exchange rates of the initial transactions.

All exchange differences arising on the settlement of monetary items or on translating monetary items are taken to profit or loss in the period in which they arise except for the following:

- A. Exchange differences arising from foreign currency borrowings for an acquisition of a qualifying asset to the extent that they are regarded as an adjustment to interest costs are included in the borrowing costs that are eligible for capitalization.
- B. Foreign currency items within the scope of IFRS 9 Financial Instruments are accounted for based on the accounting policy for financial instruments.
- C. Exchange differences arising on a monetary item that forms part of a reporting entity's net investment in a foreign operation is recognized initially in other comprehensive income and reclassified from equity to profit or loss on disposal of the net investment.

When a gain or loss on a non-monetary item is recognized in other comprehensive income, any exchange component of that gain or loss is recognized in other comprehensive income. When a gain or loss on a non-monetary item is recognized in profit or loss, any exchange component of that gain or loss is recognized in profit or loss.

(5) Translation of financial statements in foreign currency

The assets and liabilities of foreign operations are translated into NT\$ at the closing rate of exchange prevailing at the reporting date and their income and expenses are translated at an average rate for the period. The exchange differences arising on the translation are recognized in other comprehensive income. On the disposal of a foreign operation, the cumulative amount of the exchange differences relating to that foreign operation, recognized in other comprehensive income and accumulated in the separate component of equity, is reclassified from equity to profit or loss when the gain or loss on disposal is recognized. The following are accounted for as disposals even if an interest in the foreign operation is retained by the Group: the loss of control over a foreign operation, the loss of significant influence over a foreign operation, or the loss of joint control over a foreign operation.

On the partial disposal of a subsidiary that includes a foreign operation that does not result in a loss of control, the proportionate share of the cumulative amount of the exchange differences recognized in other comprehensive income is re-attributed to the non-controlling interests in that foreign operation. In partial disposal of an associate or jointly controlled entity that includes a foreign operation that does not result in a loss of significant influence or joint control, only the proportionate share of the cumulative amount of the exchange differences recognized in other comprehensive income is reclassified to profit or loss.

Any goodwill and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and expressed in its functional currency.

(6) Current and non-current distinction

An asset is classified as current when:

- A. The Group expects to realize the asset, or intends to sell or consume it, in its normal operating cycle;
- B. The Group holds the asset primarily for the purpose of trading:
- C. The Group expects to realize the asset within twelve months after the reporting period, or
- D. The asset is cash or cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

- A liability is classified as current when:
- A. The Group expects to settle the liability in its normal operating cycle;
- B. The Group holds the liability primarily for the purpose of trading;
- C. The liability is due to be settled within twelve months after the reporting period, or
- D. The Group does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non-current.

(7) Cash and cash equivalents

Cash and cash equivalents comprises cash on hand, demand deposits and short-term, highly liquid investments that are readily convertible to known amounts of cash and subject to an insignificant risk of changes in value (include fixed-term deposits that have maturities of 3 months from the date of acquisition).

(8) Financial instruments

Financial assets and financial liabilities are recognized when the Group becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities within the scope of IFRS 9 *Financial Instruments* are recognized initially at fair value plus or minus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs.

A. Financial instruments: Recognition and Measurement

The Group accounts for regular way purchase or sales of financial assets on the trade date.

The Group classified financial assets as subsequently measured at amortized cost, fair value through other comprehensive income or fair value through profit or loss considering both factors below:

- a. the Group's business model for managing the financial assets and
- b. the contractual cash flow characteristics of the financial asset.

Financial asset measured at amortized cost

A financial asset is measured at amortized cost if both of the following conditions are met and presented as note receivables, accounts receivables, financial assets measured at amortized cost and other receivables etc., on balance sheet as at the reporting date:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Such financial assets are subsequently measured at amortized cost (the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount and the maturity amount and adjusted for any loss allowance) and is not part of a hedging relationship. A gain or loss is recognized in profit or loss when the financial asset is derecognized, through the amortization process or in order to recognize the impairment gains or losses.

Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:

- a. purchased or originated credit-impaired financial assets. For those financial assets, the Group applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.
- b. financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Group applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

Financial asset measured at fair value through other comprehensive income

A financial asset is measured at fair value through other comprehensive income if both of the following conditions are met:

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and
- b. the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Recognition of gain or loss on a financial asset measured at fair value through other comprehensive income are described as below:

- a. A gain or loss on a financial asset measured at fair value through other comprehensive income recognized in other comprehensive income, except for impairment gains or losses and foreign exchange gains and losses, until the financial asset is derecognized or reclassified.
- b. When the financial asset is derecognized the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment.
- c. Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:

- (a) Purchased or originated credit-impaired financial assets. For those financial assets, the Group applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.
- (b) Financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Group applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

Besides, for certain equity investments within the scope of IFRS 9 that is neither held for trading nor contingent consideration recognized by an acquirer in a business combination to which IFRS 3 applies, the Group made an irrevocable election to present the changes of the fair value in other comprehensive income at initial recognition. Amounts presented in other comprehensive income shall not be subsequently transferred to profit or loss (when disposal of such equity instrument, its cumulated amount included in other components of equity is transferred directly to the retained earnings) and these investments should be presented as financial assets measured at fair value through other comprehensive income on the balance sheet. Dividends on such investment are recognized in profit or loss unless the dividends clearly represents a recovery of part of the cost of investment.

Financial asset measured at fair value through profit or loss

Financial assets were classified as measured at amortized cost or measured at fair value through other comprehensive income based on aforementioned criteria. All other financial assets were measured at fair value through profit or loss and presented on the balance sheet as financial assets measured at fair value through profit or loss.

Such financial assets are measured at fair value, the gains or losses resulting from remeasurement is recognized in profit or loss which includes any dividend or interest received on such financial assets.

B. Impairment of financial assets

The Group recognizes a loss allowance for expected credit losses on debt instrument investments measured at fair value through other comprehensive income and financial asset measured at amortized cost. The loss allowance on debt instrument investments measured at fair value through other comprehensive income is recognized in other comprehensive income and not reduce the carrying amount in the balance sheet.

The Group measures expected credit losses of a financial instrument in a way that reflects:

- a. an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- b. the time value of money; and
- c. reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The loss allowance is measured as follows:

- a. At an amount equal to 12-month expected credit losses: the credit risk on a financial asset has not increased significantly since initial recognition or the financial asset is determined to have low credit risk at the reporting date. In addition, the Group measures the loss allowance at an amount equal to lifetime expected credit losses in the previous reporting period, but determines at the current reporting date that the credit risk on a financial asset has increased significantly since initial recognition is no longer met.
- b. At an amount equal to the lifetime expected credit losses: the credit risk on a financial asset has increased significantly since initial recognition or financial asset that is purchased or originated credit-impaired financial asset.
- c. For accounts receivables or contract assets arising from transactions within the scope of IFRS 15, the Group measures the loss allowance at an amount equal to lifetime expected credit losses.
- d. For lease receivables arising from transactions within the scope of IFRS 16, the Group measures the loss allowance at an amount equal to lifetime expected credit losses.

At each reporting date, the Group needs to assess whether the credit risk on a financial asset has increased significantly since initial recognition by comparing the risk of a default occurring at the reporting date and the risk of default occurring at initial recognition. Please refer to Note 12 for further details on credit risk.

C. Derecognition of financial assets

A financial asset is derecognized when:

- a. The rights to receive cash flows from the asset have expired
- b. The Group has transferred the asset and substantially all the risks and rewards of the asset have been transferred
- c. The Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On derecognition of a financial asset in its entirety, the difference between the carrying amount and the consideration received or receivable including any cumulative gain or loss that had been recognized in other comprehensive income, is recognized in profit or loss. D. Financial liabilities and equity

Classification between liabilities or equity

The Group classifies the instrument issued as a financial liability or an equity instrument in accordance with the substance of the contractual arrangement and the definitions of a financial liability, and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. The transaction costs of an equity transaction are accounted for as a deduction from equity (net of any related income tax benefit) to the extent they are incremental costs directly attributable to the equity transaction that otherwise would have been avoided.

Financial liabilities

Financial liabilities within the scope of IFRS 9 *Financial Instruments* are classified as financial liabilities at fair value through profit or loss or financial liabilities measured at amortized cost upon initial recognition.

Financial liabilities at amortized cost

Financial liabilities measured at amortized cost include interest bearing loans and borrowings that are subsequently measured using the effective interest rate method after initial recognition. Gains and loases are recognized in profit or loss when the liabilities are derecognized as well as through the effective interest rate method amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or transaction costs.

Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified (whether or not attributable to the financial difficulty of the debtor), such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

E. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the balance sheet if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

(9) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- A. In the principal market for the asset or liability, or
- B. in the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

(10) Inventories

Inventories are valued at lower of cost and net realizable value item by item,

Costs incurred in bringing each inventory to its present location and conditions are accounted for as follows:

Raw materials - Purchase cost on a weighted average cost basis.

Finished goods and work in progress - Cost of direct materials and labor and a proportion of manufacturing overheads based on normal operating capacity but excluding borrowing costs.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

(11)Non-current assets held for sale and discontinued operations.

Non-current assets and disposal groups are classified as held for sale if their carrying amounts will be recovered through a sale transaction that is highly probable within one year from the date of classification and the asset or disposal group is available for immediate sale in its present condition. Non-current assets and disposal groups classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell.

In the consolidated statement of comprehensive income of the reporting period, and of the comparable period of the previous year, income and expenses from discontinued operations are reported separately from income and expenses from continuing operations, down to the level of profit after taxes, even when the Group retains a non-controlling interest in the subsidiary after the sale. The resulting profit or loss (after taxes) is reported separately in the statement of comprehensive income.

Property, plant and equipment and intangible assets once classified as held for sale are not depreciated or amortized.

(12)Investments accounted for using the equity method

The Group's investment in its associate is accounted for using the equity method other than those that meet the criteria to be classified as held for sale. An associate is an entity over which the Group has significant influence. A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture.

Under the equity method, the investment in the associate or an investment in a joint venture is carried in the balance sheet at cost and adjusted thereafter for the post-acquisition change in the Group's share of net assets of the associate or joint venture. After the interest in the associate or joint venture is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture. Unrealized gains and losses resulting from transactions between the Group and the associate or joint venture are eliminated to the extent of the Group's related interest in the associate or joint venture. When changes in the net assets of an associate or a joint venture occur and not those that are recognized in profit or loss or other comprehensive income and do not affects the Group's percentage of ownership interests in the associate or joint venture, the Group recognizes such changes in equity based on its percentage of ownership interests. The resulting capital surplus recognized will be reclassified to profit or loss at the time of disposing the associate or joint venture on a pro rata basis.

When the associate or joint venture issues new stock, and the Group's interest in an associate or a joint venture is reduced or increased as the Group fails to acquire shares newly issued in the associate or joint venture proportionately to its original ownership interest, the increase or decrease in the interest in the associate or joint venture is recognized in Additional Paid in Capital and Investment accounted for using the equity method. When the interest in the associate or joint venture is reduced, the cumulative amounts previously recognized in other comprehensive income are reclassified to profit or loss or other appropriate items. The aforementioned capital surplus recognized is reclassified to profit or loss on a pro rata basis when the Group disposes the associate or joint venture.

The financial statements of the associate or joint venture are prepared for the same reporting period as the Group. Where necessary, adjustments are made to bring the accounting policies in line with those of the Group.

The Group determines at each reporting date whether there is any objective evidence that the investment in the associate or an investment in a joint venture is impaired in accordance with IAS 28 *Investments in Associates and Joint Ventures*. If this is the case the Group calculates the amount of impairment as the difference between the recoverable amount of the associate or joint venture and its carrying value and recognizes the amount in the 'share of profit or loss of an associate' in the statement of comprehensive income in accordance with IAS 36 *Impairment of Assets*. In determining the value in use of the investment, the Group estimates:

- A. Its share of the present value of the estimated future cash flows expected to be generated by the associate or joint venture, including the cash flows from the operations of the associate and the proceeds on the ultimate disposal of the investment; or
- B. The present value of the estimated future cash flows expected to arise from dividends to be received from the investment and from its ultimate disposal.

Upon loss of significant influence over the associate or joint venture, the Group measures and recognizes any retaining investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence and the fair value of the retaining investment and proceeds from disposal is recognized in profit or loss. Furthermore, if an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate, the entity continues to apply the equity method and does not remeasure the retained interest.

(13)Property, plant and equipment

Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of dismantling and removing the item and restoring the site on which it is located and borrowing costs for construction in progress if the recognition criteria are met. Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. When significant parts of property, plant and equipment are required to be replaced in intervals, the Group recognized such parts as individual assets with specific useful lives and depreciation, respectively. The carrying amount of those parts that are replaced is derecognized in accordance with the derecognition provisions of IAS 16 *Property*, *plant and equipment*. When a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment are required are replaced. All other repair and maintenance costs are recognized in profit or loss as incurred.

Depreciation is calculated on a straight-line basis over the estimated economic lives of the following assets:

| Buildings | 5-55 years |
|--------------------------|------------------------|
| Machinery and equipment | 1-20 years |
| Transportation equipment | 4-46 years and 1 month |
| Leasehold improvements | 5 years |
| Office equipment | 2-20 years |

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is recognized in profit or loss.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate,

(14)Leases

The Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset for a period of time, the Group assesses whether, throughout the period of use, has both of the following:

- A. the right to obtain substantially all of the economic benefits from use of the identified asset; and
- B. the right to direct the use of the identified asset.

For a contract that is, or contains, a lease, the Group accounts for each lease component within the contract as a lease separately from non-lease components of the contract. For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components. The relative stand-alone price of lease and non-lease components shall be determined on the basis of the price the lessor, or a similar supplier, would charge the Group for that component, or a similar component, separately. If an observable stand-alone price is not readily available, the Group estimates the stand-alone price, maximising the use of observable information.

Group as a lessee

Except for leases that meet and elect short-term leases or leases of low-value assets, the Group recognizes right-of-use asset and lease tiability for all leases which the Group is the lessee of those lease contracts.

At the commencement date, the Group measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group uses its incremental borrowing rate. At the commencement date, the lease payments included in the measurement of the lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date:

- A. fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- B. variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- C. amounts expected to be payable by the lessee under residual value guarantees;
- D, the exercise price of a purchase option if the Group is reasonably certain to exercise that option; and
- E. payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

After the commencement date, the Group measures the lease liability on an amortised cost basis, which increases the carrying amount to reflect interest on the lease liability by using an effective interest method; and reduces the carrying amount to reflect the lease payments made.

At the commencement date, the Group measures the right-of-use asset at cost. The cost of the right-of-use asset comprises:

- A, the amount of the initial measurement of the lease liability;
- B. any lease payments made at or before the commencement date, less any lease incentives received;
- C. any initial direct costs incurred by the lessee; and
- D. an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

For subsequent measurement of the right-of-use asset, the Group measures the right-of-use asset at cost less any accumulated depreciation and any accumulated impairment losses. That is, the Group measures the right-of-use applying a cost model.

If the lease transfers ownership of the underlying asset to the Group by the end of the lease term or if the cost of the right-of-use asset reflects that the Group will exercise a purchase option, the Group depreciates the right-of-use asset from the commencement date to the end of the useful life of the underlying asset. Otherwise, the Group depreciates the right-of-use asset from the commencement date to the earlier of the end of the useful life of the right-of-use asset from the commencement date to the earlier of the end of the useful life of the right-ofuse asset or the end of the lease term.

The Group applies IAS 36 "Impairment of Assets" to determine whether the right-of-use asset is impaired and to account for any impairment loss identified.

Except for those leases that the Group accounted for as short-term leases or leases of lowvalue assets, the Group presents right-of-use assets and lease liabilities in the balance sheet and separately presents lease-related interest expense and depreciation charge in the statements comprehensive income.

For short-term leases or leases of low-value assets, the Group elects to recognize the lease payments associated with those leases as an expense on either a straight-line basis over the lease term or another systematic basis.

Group as a lessor

At inception of a contract, the Group classifies each of its leases as either an operating lease or a finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset. At the commencement date, the Group recognizes assets held under a finance lease in its balance sheet and present them as a receivable at an amount equal to the net investment in the lease.

For a contract that contains lease components and non-lease components, the Group allocates the consideration in the contract applying IFRS 15.

The Group recognizes lease payments from operating leases as rental income on either a straight-line basis or another systematic basis. Variable lease payments for operating leases that do not depend on an index or a rate are recognized as rental income when incurred.

(15)Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is its fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in profit or loss for the year in which the expenditure is incurred.

Intangible assets are all finite.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each financial year. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and are treated as changes in accounting estimates.

Gains or losses arising from derecognition of an intangible asset are recognized in profit or loss.

Accounting policies information applied to the Group's intangible assets is as follows:

| | Mining Right | Computer software |
|----------------------------------|---|---|
| Useful lives | Finite | Finite |
| Amortization method used | Amortized over the period of estimated life on a | Amortized over the period of estimated life on a straight- |
| | straight-line basis | line basis |
| Internally generated or acquired | Acquired | Acquired |

(16)Impairment of non-financial assets

The Group assesses at the end of each reporting period whether there is any indication that an asset in the scope of IAS 36 *Impairment of Assets* may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's ("CGU") fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Group estimates the asset's or cashgenerating unit's recoverable amount. A previously recognized impairment loss is reversed only if there has been an increase in the estimated service potential of an asset which in turn increases the recoverable amount. However, the reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years.

An impairment loss of continuing operations or a reversal of such impairment loss is recognized in profit or loss.

(17) Revenue recognition

The Group's revenue arising from contracts with customers are primarily related to sale of goods and rendering of services. The accounting policies are explained as follows:

Sale of goods

The Group manufactures and sells machinery. Sales are recognized when control of the goods is transferred to the customer and the goods are delivered to the customers. The main product of the Group is glass(flat glass, glass fiber, and glass container) and revenue is recognized based on the consideration stated in the contract. For certain sales of goods transactions, they are usually accompanied by volume discounts (based on the accumulated total sales amount for a specified period). Therefore, revenue from these sales is recognized based on the price specified in the contract, net of the estimated volume discounts. to the Group estimates the discounts using the expected value method based on historical experiences. Revenue is only recognized to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur and when the uncertainty associated with the variable consideration is subsequently resolved. During the period specified in the contract, refund liability is recognized for the expected volume discounts.

The credit period of the Group's sale of goods is generally from 30 to 180 days. For most of the contracts, when the Group transfers the goods to customers and has a right to an amount of consideration that is unconditional, these contracts are recognized as accounts receivables. The Group usually collects the payments shortly after transfer of goods to customers; therefore, there is no significant financing component to the contract. For some of the contracts, the Group has transferred the goods to customers but does not has a right to an amount of consideration that is unconditional, these contacts should be presented as contract assets. Besides, in accordance with IFRS 9, the Group measures the loss allowance for a contract asset at an amount equal to the lifetime expected credit losses. For other services contracts, part of the consideration was received from customers upon signing the contract, and the Company has the obligation to provide the services subsequently; accordingly, these amounts are recognized as advance receipts or temporary receipts.

The period between the transfers of contract liabilities to revenue is usually within one year, thus, no significant financing component arose.

(18) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective assets. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

(19) Government grants

Government grants are recognized where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. Where the grant relates to an asset, it is recognized as deferred income and released to income in equal amounts over the expected useful life of the related asset. When the grant relates to an expense item, it is recognized as income over the period necessary to match the grant on a systematic basis to the costs that it is intended to compensate.

Where the Group receives non-monetary grants, the asset and the grant are recorded gross at nominal amounts and released to the statement of comprehensive income over the expected useful life and pattern of consumption of the benefit of the underlying asset by equal annual installments. Where loans or similar assistance are provided by governments or related institutions with an interest rate below the current applicable market rate, the effect of this favorable interest is regarded as additional government grant.

(20) Post-employment benefits

All regular employees of the Company and its domestic subsidiaries are entitled to a pension plan that is managed by an independently administered pension fund committee. Fund assets are deposited under the committee's name in the specific bank account and hence, not associated with the Company and its domestic subsidiaries. Therefore, fund assets are not included in the Group's consolidated financial statements. Pension benefits for employees of the overseas subsidiaries and the branches are provided in accordance with the respective local regulations. For the defined contribution plan, the Company and its domestic subsidiaries will make a monthly contribution of no less than 6% of the monthly wages of the employees subject to the plan. The Group recognizes expenses for the defined contribution plan in the period in which the contribution becomes due. Overseas subsidiaries and branches make contribution to the plan based on the requirements of local regulations.

Post-employment benefit plan that is classified as a defined benefit plan uses the Projected Unit Credit Method to measure its obligations and costs based on actuarial assumptions. Remeasurements, comprising of the effect of the actuarial gains and losses, the effect of the asset ceiling (excluding net interest) and the return on plan assets, excluding net interest, are recognized as other comprehensive income with a corresponding debit or credit to retained earnings in the period in which they occur. Past service costs are recognized in profit or loss on the earlier of:

A, the date of the plan amendment or curtailment, and

B. the date that the Group recognizes restructuring-related costs or defined benefit

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset, both as determined at the start of the annual reporting period, taking account of any changes in the net defined benefit liability (asset) during the period as a result of contribution and benefit payment.

(21) Income taxes

Income tax expense (income) is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. Current income tax relating to items recognized in other comprehensive income or directly in equity is recognized in other comprehensive income or court or loss.

The income tax for undistributed earnings is recognized as income tax expense in the subsequent year when the distribution proposal is approved by the Shareholders' meeting.

Deferred income tax

Deferred tax is provided on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- A. Where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination; at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and at the time of the transaction, does not give rise to equal taxable and deductible temporary differences.
- B. In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- A. Where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination; at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and at the time of the transaction, does not give rise to equal taxable and deductible temporary differences.
- B. In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date. The measurement of deferred tax assets and deferred tax liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities. Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in other comprehensive income or directly in equity. Deferred tax assets are reassessed at each reporting date and are recognized accordingly. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current income tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

5. Significant accounting judgments, estimates and assumptions

The preparation of the Group's consolidated financial statements require management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumption and estimate could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

(1) Judgement

In the process of applying the Group's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the consolidated financial statements;

A. De facto control without a majority of the voting rights in subsidiaries

The Group does not have over 50% of the voting rights in certain subsidiaries. Thus, after taking the factors into consideration, the Group does not have control and only has significant influence. Please refer to Note 6.(11) for further details.

(2) Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

A. Fair value of financial instruments

Where the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be derived from active markets, they are determined using valuation techniques including the income approach (for example the discounted cash flows model) or market approach. Changes in assumptions about these factors could affect the reported fair value of the financial instruments. Please refer to Note 12 for more details.

B. Inventories

The Group estimates the net realizable value of inventory for damage, obsolescence and price decline. The net realizable value of the inventory is mainly determined based on reliable evidence of expected cash flow. Please refer to Note 6.

C. Impairment of non-financial assets

An impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs to sell and its value in use. The fair value less costs to sell calculation is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date less incremental costs that would be directly attributable to the disposal of the asset or cash generating unit. The value in use calculation is based on a discounted cash flow model. The cash flows projections are derived from the budget for the next five years and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset's performance of the cash generating unit being tested. The recoverable amount is most sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. The key assumptions used to determine the recoverable amount for the different cash generating units, including a sensitivity analysis, are further explained in Note 6.

D. Pension benefits

The cost of post-employment benefit and the present value of the pension obligation under defined benefit pension plans are determined using actuarial valuations. An actuarial valuation involves making various assumptions. These include the determination of the discount rate and changes of the future salary etc.

E. Revenue recognition - sales returns and allowance

The Group estimates sales returns and allowance based on historical experience and other known factors at the time of sale, which reduces the operating revenue. In assessing the aforementioned sales returns and allowance, revenue is recognized to the extent it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur. Please refer to Note 6 for more details.

F. Income tax

Uncertainties exist with respect to the interpretation of complex tax regulations and the amount and timing of future taxable income. Given the wide range of international business relationships and the long-term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Group establishes provisions, based on reasonable estimates, for possible consequences of audits by the tax authorities of the respective counties in which it operates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective Group's domicile.

Deferred tax assets are recognized for all carryforward of unused tax losses and unused tax credits and deductible temporary differences to the extent that it is probable that taxable profit will be available or there are sufficient taxable temporary differences against which the unused tax losses, unused tax credits or deductible temporary differences can be utilized. The amount of deferred tax assets determined to be recognized is based upon the likely timing and the level of future taxable profits and taxable temporary differences together with future tax planning strategies.

G. Trade receivables-estimation of impairment loss

The Group estimates the impairment loss of trade receivables at an amount equal to lifetime expected credit losses. The credit loss is the present value of the difference between the contractual cash flows that are due under the contract (carrying amount) and the cash flows that expects to receive (evaluate forward looking information). However, as the impact from the discounting of short-term receivables is not material, the credit loss is measured by the undiscounted cash flows. Where the actual future cash flows are lower than expected, a material impairment loss may arise. Please refer to Note 6 for more details.

6. Contents of significant accounts

(1) Cash and cash equivalents

| | As of December 31, | |
|---|--------------------|-------------|
| | 2023 | 2022 |

(9) Disposal groups held for sale and discontinued operations

- A. On September 14, 2022, TG Donghai Glass Co., Ltd., a subsidiary of the Group, signed an equity transfer agreement with Luoyang Glass Co., Ltd. to sell all the shares held by TG Fujian Photovoltaic Glass Co., Ltd., a subsidiary, with a total transaction amount of CNY421,963 thousand, and the final price of the equity transfer was determined to be CNY390,388 thousand after adjusting the profit and loss during the transition period prescribed in the equity transfer agreement. A reasonableness opinion issued by an accountant has been obtained. As of December 31, 2022, the Group had received second instalments of CNY337,570 thousand in accordance with the contract, and the remaining balance of the final price of the equity transfer in the amount of CNY52,818 thousand was transferred as security deposit of the equity transfer agreement. After deducting the contingent liabilities of CNY144 thousand as stated in the equity transfer agreement, the final payment of CNY52,674 thousand was received in October 2023. The abovementioned transaction has concluded the transfer of equity and the industrial and commercial registration of the change of company name was completed on October 13, 2022, which met the definition of a discontinued operation unit.
- B. On April 27, 2022, TG TECO VACUUM INSULATED GLASS CORP., a subsidiary of the Group, signed the equipment demolition work and sales agreement with JUNG SHENG METAL STEEL MATERIAL CO., LTD. with a total transaction amount of NT\$4,500 thousand. The related assets were reclassified from mechanical equipment and other equipment to net non-current assets held for sale (or disposal groups), which were measured at the lower of their carrying amount and fair value less costs to sell and met the definition of a discontinued operation unit. During the year ended December 31, 2022, TG TECO VACUUM INSULATED GLASS CORP was dissolved.
- C. On September 28, 2023, the Group entered into an agreement with Tangban Mineral Corp. and Ching-Lun Chiu to sell the land located in Touwu Township, Gongguan Township and Tongluo Township, Miaoli County, with a total transaction amount of NT\$160,000 thousand. As of December 31, 2023, the related assets were reclassified from investment property to net non-current assets held for sale (or disposal groups) in the amount of NT\$5,978 thousand, which are measured at the lower of their carrying amount and fair value less costs to sell without impairment loss.

D. Details of the disposal groups held for sale As of December 31, 2023 and 2022 are as follows:

| | As of Decer | nber 31, |
|---|-------------|----------|
| Investment property Less: Accumulated impairment | 2023 | 2022 |
| | \$5,978 | S- |
| Total | \$5,978 | \$- |

Based on the assessment results valued at lower of book value and fair value less costs to sale, the Group recognized impairment loss in the amount of NT\$0 thousand for the year ended December 31, 2023.

E. The asset sale transaction of the Group's subsidiary, TG Yueda Solar Glass Co., Ltd. has been completed for transfer, thus the discontinued operations are restated.

The restatement of the results of discontinued operations for the 2022 is as follows:

| Original Financial Statement | | Restated | |
|----------------------------------|----------|---|---------------|
| Discontinued operations | | Continuing operations | |
| Gain from discontinued operation | \$20,298 | Operating revenue | 5- |
| | | Operating costs | (10 |
| | | Gross profit | (10 |
| | | Operating expenses Selling and marketing expenses General and administrative | (26 (3,337 |
| | | expenses Expected credit losses and gains | 17,672 |
| | | Subtotal | 14,309 |
| | | Net amount of other revenues and gains and expenses and losses | (1,452 |
| | | Operating income Non-operating income and expenses | 12,847 |
| | | Interest revenue | 874 |
| | | Other gains and loss | 6,577 |

| Totals | \$7,227,111 | 0 3 | \$6,639,524 | | |

A. Information on the material associate of the Group:

Company name: Shihlien China Holding Co., Ltd. (SCH)

Significant influence assessment: The Group's ownership in SCH accounted for 43.99%, and totalled 44.43% along with the other related party's consolidated interest. The other two investors separately held 15.11% and 8.39% voting rights, and the remaining voting rights were held by other numerous shareholders, none of whom held more than 5% voting right. There is no agreement between the Group and other shareholders to exercise voting power, nor does the Group has any right from other contractual agreements. The total number of the board is nine. The Group and the other related parties accounted for only four members of the board. Therefore the Group does not have substantive voting power. Decisions about major resolutions by the invests must be approved at the shareholders' meeting by a majority vote. The Group and the other related parties attended a recent shareholders' meeting representing 45.26% of the total number of shares present, which did not exceed majority votes.

According to IFRS B46, after considering factors listed in B42(a) to (d), if it's not clear whether the investors have the substantive rights, the investor does not control the investee.

Significant influence assessment: According to the above assessment, the Group does not have control of SCH, and only has significant influence.

Nature of the relationship with the associate: Shihlien China Holdings Co., Ltd. is in the business of manufacturing and selling related products in the Group's industry chain. The Group invested in Shihlien China Holdings Co., Ltd. for the purpose of upstream/downstream integration.

Principal place of business (country of incorporation): Hong Kong

The summarized financial information of the associate is as follows:

| | As of Dece | mber 31. |
|--|--------------|--------------|
| | 2023 | 2022 |
| Current assets | \$8.073.525 | \$7,414,823 |

Government grants have been received for prepaid long-term rent and property, plant and equipment. There are no unfulfilled conditions or contingencies attached to these grants.

(20) Post-employment benefits

Defined contribution plan

The Company and its domestic subsidiaries adopt a defined contribution plan in accordance with the Labor Pension Act of the R.O.C. Under the Labor Pension Act, the Company and its domestic subsidiaries will make monthly contributions of no less than 6% of the employees' monthly wages to the employees' individual pension accounts. The Company and its domestic subsidiaries have made monthly contributions of 6% of each individual employee's salaries or wages to employees' pension accounts. Subsidiaries located in the People's Republic of China will contribute social welfare benefits based on a certain percentage of employees' salaries or wages to the employees' individual pension accounts.

Pension benefits for employees of overseas subsidiaries are provided in accordance with the local regulations.

Pension expenses under the defined contribution plan for the years ended December 31, 2023 and 2022 were NT\$375,211 thousand and NT\$371,457 thousand, respectively.

Defined benefits plan

The Company and its domestic subsidiaries adopt a defined benefit plan in accordance with the Labor Standards Act of the R.O.C. The pension benefits are disbursed based on the units of service years and the average salaries in the last month of the service year. Two units per year are awarded for the first 15 years of services while one unit per year is awarded after the completion of the 15th year. The total units shall not exceed 45 units. Under the Labor Standards Act, the Company and its domestic subsidiaries contribute an amount equivalent to 2% of the employees' total salaries and wages on a monthly basis to the pension fund deposited at the Bank of Taiwan in the name of the administered pension fund committee. Before the end of each year, the Company and its domestic subsidiaries assess the balance in the designated labor pension fund. If the amount is inadequate to pay pensions calculated for workers retiring in the same year, the Company and its domestic subsidiaries will make up the difference in one appropriation before the end of March the following year.

The Ministry of Labor is in charge of establishing and implementing the fund utilization plan in accordance with the Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund. The pension fund is managed in-house or under a mandate, based on a passive-aggressive investment strategy for long-term profitability. The Ministry of Labor establishes checks and risk management mechanism based on the assessment of risk factors including market risk, credit risk and liquidity risk, in order to maintain adequate manager flexibility to achieve targeted return without over-exposure of risk. With regard to utilization of the pension fund, the minimum earnings in the annual distributions on the final financial statement shall not be less than the earnings attainable from the amounts accrued from twoyear time deposits with the interest rates offered by local banks. Treasury Funds can be used to cover the deficits after the approval of the competent authority. As the Group does not participate in the operation and management of the pension fund, no disclosure on the fair value of the plan assets categorized in different classes could be made in accordance with paragraph 142 of IAS 19. The Group expects to contribute NT\$145,696 thousand to its defined benefit plan during the 12 months beginning after December 31, 2023. Apart from the abovementioned pension funds, the Group has another fund managed by the pension fund management committee, and the plan is categorized as follows:

| As of December 31, 2023 2022 | |
|---------------------------------|--------------------|
| 2023 | 2022 |
| | |
| 85% | 87% |
| 15% | 1.3% |
| 0% | 0% |
| | 2023 85% 15% |

The durations of the defined benefits plan obligation as of December 31, 2023 and 2022 are 4 and 5 years, respectively.

Pension costs recognized in profit or loss for the years ended December 31, 2023 and 2022 are as follows:

| | As of December 31, | | |
|------------------------------|--------------------|----------|--|
| | 2023 | 2022 | |
| Current period service costs | \$19,563 | \$21,982 | |
| Interest income or expense | (4,932) | (2,148) | |
| Past service cost | (#) | 90. G | |
| Payments from the plan | | | |
| Total | \$14,631 | \$19,834 | |

Parent Company

Changes in the defined benefit obligation and fair value of plan assets are as follows:

| Contributions by employer | in the second | 1.697 | (1,697) |
| Effect of changes in foreign exchange rates | | 1049411 121 | 12 |
| As of December 31, 2023 | \$8,765 | \$9,470 | \$(705) |

The following significant actuarial assumptions are used to determine the present value of the defined benefit obligation:

| | As of December 31, | | |
|-----------------------------------|--------------------|-------------|--|
| | 2.023 | 2022 | |
| Discount rate | 1.09%~1.18% | 1.10%~1.19% | |
| Expected rate of salary increases | 1.00% | 1.00% | |

A sensitivity analysis for significant assumption:

| Effect on the defined benefit obligation | | | | |
|---|--|--|--|--|
| 2023 | | 2022 | | |
| Increase in defined benefit obligation | Decrease in defined benefit obligation | Increase in defined benefit obligation | Decrease in defined benefit obligation | |
| 5- | \$1,658 | S- | \$4,005 | |
| 15,959 | 311 | 20,957 | 5 | |
| 15,628 | 54 | 20,585 | 20 | |
| | 1,667 | (. | 4,028 | |
| | 20 Increase in defined benefit obligation \$- 15,959 | 2023 Increase in Decrease in defined defined benefit benefit obligation obligation \$- \$1,658 15,959 - 15,628 - | 202320Increase inDecrease inIncrease indefineddefineddefinedbenefitbenefitbenefitobligationobligationobligation\$-\$1,658\$-15,959-20,95715,628-20,585 | |

The sensitivity analyses above are based on a change in a significant assumption (for example: change in discount rate or future salary), keeping all other assumptions constant. The sensitivity analyses may not be representative of an actual change in the defined benefit obligation as it is unlikely that changes in assumptions would occur in isolation of one another.

There was no change in the methods and assumptions used in preparing the sensitivity analyses compared to the previous period.

(21) Equities

A. Common stock

The Company's authorized capital were both NT\$30,000,000 thousand as of December 31, 2023 and 2022. The Company's issued capital were both NT\$29,080,608 thousand as of December 31, 2023 and 2022, each at a par value of NT\$10. The Company has issued both 2,908,061 thousand common shares as of December 31, 2023 and 2022. Each share has one voting right and a right to receive dividends.

B. Capital surplus

| | As of Dece | mber 31, |
|--|-------------|-------------|
| | 2023 | 2022 |
| Additional paid-in capital | \$1,540,300 | \$1,540,300 |
| Increase through changes in ownership interests in subsidiaries | 258,091 | 258,091 |
| Expired employee stock warrants | 23,661 | 23,661 |
| Gains on disposal of assets | 103,166 | 103,166 |
| Total | \$1,925,218 | \$1,925,218 |

According to the Company Act, the capital reserve shall not be used except for making good the deficit of the company. When a company incurs no loss, it may distribute the capital reserves related to the income derived from the issuance of new shares at a premium or income from endowments received by the company. The distribution could be made in cash or in the form of dividend shares to its stockholders in proportion to the number of shares being held by each of them.

C. Earnings distribution and dividend policies

According to the Company's Articles of Incorporation, the Company's annual earnings, if any, shall first set aside 1.5% as employee bonuses and no higher than 1.5% as directors and supervisor's remunerations. Nevertheless, the Company shall first make up for losses if there are accumulated losses. The Company shall make distributions from its net income (less any deficit) in the following order:

- a. Offset an accumulated deficit.
- b. Set aside 10% as legal reserve.
- c. Set aside or reverse special reserve.
- d. Following distributions of items "a" to "c" indicated above, the remaining amount, if any, shall be proposed by the board of directors at a board meeting to be distributed as shareholders dividends and bonuses.

Based on the Company's plan to achieve healthy financial standing, whether to distribute the beginning undistributed earnings should consider the actual operation of the year and the budget planning for the following year, to evaluate the necessity of providing funding via earnings distribution so as to determine the most appropriate dividend policy for sustainable business development. The said shareholders dividend and bonus distribution shall not be less than 50% of the distributable earnings after deducting the above items "a" to "c" from current net income. However, if the shareholders dividends and bonuses are less than 1% of the paid-in capital, the company may resolve to transfer it to retained earnings without distribution. At least 20% of the dividends must be paid in the form of cash.

According to the Company Act, the Company needs to set aside amount to legal reserve unless where such legal reserve amounts to the total authorized capital. The legal reserve can be used to make good the deficit of the Company. When the Company incurs no loss, it may distribute the portion of legal serve which exceeds 25% of the paid-in capital by issuing new shares or by cash in proportion to the number of shares being held by each of the stockholders.

When the Company distributing distributable earnings, it shall set aside to special reserve, an amount equal to "other net deductions from shareholders" equity for the current fiscal year, provided that if the company has already set aside special reserve according to the requirements for the adoption of IFRS, it shall set aside supplemental special reserve based on the difference between the amount already set aside and other net deductions from shareholders" equity. For any subsequent reversal of other net deductions from shareholders' equity, the amount reversed may be distributed from the special reserve.

Following the adoption of TIFRS, the FSC on March 31, 2021 issued Order No. Jin-Guan-Cheng-Fa-Zi-1090150022, which sets out the following provisions for compliance:

On a public company's first-time adoption of the TIFRS, for any unrealized revaluation gains and cumulative translation adjustments (gains) recorded to stockholders' equity that the company elects to transfer to retained earnings by application of the exemption under IFRS 1, the company shall set aside an equal amount of special reserve. The special reserves booked from first-time adoption of International Financial Reporting Standards were both NT\$3,232,749 thousand as of December 31, 2023 and 2022. The Company did not reverse special reserve to retained earnings for using, disposing of or reclassifying relevant assets in 2023 and 2022.

The Group has reversed special reserve to retained earnings for the years ended December 31, 2023 and 2022 as results of the use, disposal or reclassification of related assets in the amounts set out below:

| | For the years ended December 31, | | |
|--|-------------------------------------|-------------|--|
| | 2023 | 2022 | |
| Beginning balance | \$3,232,749 | \$3,232,749 | |
| Disposal of subsidiaries or associates Reclassification of investment property or property, plant | 57 | | |
| and equipment | | | |
| Ending balance | \$3,232,749 | \$3,232,749 | |

Details of the 2023 and 2022 earnings distribution and dividends per share as approved by Board of Directors' meeting on March 6, 2023 and by the stockholders' meeting on June 9, 2023, respectively, are as follows:

| | Appropriation of earnings | | Appropriation of earnings Dividend per share | | share (NTS) |
|----------------------------|---------------------------|------|--|------|-------------|
| | 2023 | 2022 | 2023 | 2022 | |
| Legal reserve | S | \$- | S- | \$- | |
| Common stock-cash dividend | 140 | 122 | | | |

Please refer to Note 6. (26) for further details on employees' compensation and remuneration to directors.

The China subsidiary of the Group passed the earnings distribution proposal in the third quarter of 2023, and after deducting income tax, it is expected that NT\$7,714,059 thousand (CNY 1,739,125 thousand) will be remitted to Taiwan Glass China Holdings Co., Ltd. in the third region, which has been fully remitted as of December 31, 2023.

D. Non-controlling interests

| | As of December 31, | | |
|--|--------------------|-------------|--|
| | 2023 | 2022 | |
| Beginning balance | \$3,222,877 | \$3,730,383 | |
| Net (losses) gains attributable to non-controlling interests | (9,745) | (102.298) | |
| Other comprehensive income, attributable to non- controlling interests, net of tax: | | | |
| Exchange differences resulting from translating the financial statements of foreign operations | (44,692) | 52,250 | |
| Share of other comprehensive income of associates and joint ventures accounted for using the equity method | (12,940) | (13,863) | |
| Actuarial gains on defined benefit | 25 | 29 | |
| Capital decreased by cash | 340 | (438,318) | |
| Proceeds from disposal of subsidiaries | | (5,306) | |
| Ending balance | \$3,155,525 | \$3,222,877 | |

(22)Operating revenues

| | As of December 31. | | |
|---------------|--------------------|--------------|--|
| | 2023 | 2022 | |
| Sale of goods | \$45,619,038 | \$43,859,066 | |

Analysis of revenue from contracts with customers during the years ended December 31, 2023 and 2022 are as follows:

A. Disaggregation of revenue:

The timing of revenue recognition was at a point in time. Please refer to Note 14 Segment Information for more details.

- B. Contract balances
 - a. Contract assets current

| | December 31, | December 31, | January 1. |
|----------------------|--------------|--------------|------------|
| | 2023 | 2022 | 2022 |
| Sales of goods | \$138,544 | \$118,159 | \$211,279 |
| Less: loss allowance | (390) | (392) | (10,062) |
| Net | \$138,154 | \$117,767 | \$201,217 |

Please refer to Note 6.(23) for more details on the impairment impact.

The significant changes in the Group's balances of contract assets during the years ended December 31, 2023 and 2022 are as follows:

| | As of December 31, | | |
|--|--------------------|-----------|--|
| | 2023 | 2022 | |
| The opening balance transferred to trade receivables | \$118,159 | \$211,279 | |
| Acquisition | 138,544 | 118,159 | |
| Impairment | (390) | (392) | |

b. Contract liabilities - current

| | December 31, | December 31, | January 1, |
|----------------|--------------|--------------|-------------|
| | 2023 | 2022 | 2022 |
| Sales of goods | \$1,205,163 | \$1,109,130 | \$1,126,405 |

The significant changes in the Group's balances of contract liabilities for the years ended December 31, 2023 and 2022 are as follows:

| | As of December 31, | | |
|---|--------------------|-------------|--|
| | 2023 | 2022 | |
| The opening balance transferred to revenue | \$1,109,130 | \$1,126,405 | |
| Increase in receipts in advance during the period | | | |
| (excluding the amount incurred and transferred to | | | |
| revenue during the period) | 1,205,163 | 1,109,130 | |

C. Assets recognized from costs to obtain or fulfill a contract: None.

(23) Expected credit losses/ (gains)

| | As of December 31, | | |
|---|--------------------|-----------|--|
| | 2023 | 2022 | |
| Operating expenses - Expected credit losses/(gains) | | | |
| Contract assets | \$4 | \$(8,495) | |
| Notes receivables | (20,135) | (38,223) | |
| Trade receivables | (49,870) | 78,864 | |
| Overdue receivables | 3,619 | | |
| Total | \$(66,382) | \$32,146 | |

Please refer to Note 12 for more details on credit risk.

The Group measures the loss allowance of its contract assets and trade receivables (including note receivables, trade receivables and other receivables) at an amount equal to lifetime expected credit losses. The assessment of the Group's loss allowance As of December 31, 2023 and 2022 is as follow:

(A) The historical credit loss experience for contract assets shows that different customer segments do not have significantly different loss patterns. Therefore, the loss allowance of contract assets is measured at an amount equal to lifetime expected credit losses and with no distinction between groups, details are as follow:

| | As of December 31, | | |
|----------------------------|--------------------|-----------|--|
| | 2023 | 2022 | |
| Total carrying amount | \$138,544 | \$118,159 | |
| Expected credit loss rates | 0%-10% | 0%~10% | |
| Loss allowance | (390) | (392) | |
| Total | \$138,154 | \$117,767 | |

(B) The Group considers the grouping of trade receivables by counterparties' credit rating, by geographical region and by industry sector and its loss allowance is measured by using a provision matrix, details are as follow:

As of December 31, 2023

| Group 1 | 10.5 | | Overdue | | |

| As of December 31, 2022 | \$392 | \$58,806 | \$299,004 | \$38,440 | \$772,210 |

(24)Net amount of other revenues and gains and expenses and losses

| | For the years ended | December 31, |
|---|---------------------|--------------|
| | 2023 | 2022 |
| Gain (loss) on disposal of property, plant, and equipment | \$128,683 | \$146,582 |
| Gain on disposal of right-of-use asset | 6 | |
| Total | \$128,689 | \$146,582 |

(25)Leases

A. Group as a lessee

The Group leases various properties, including real estate such as land and buildings, machinery and equipment, transportation equipment, office equipment and other equipment. The lease terms range from three to five years. There are no restrictions placed upon the Group by entering into these leases.

The Group's leases effect on the financial position, financial performance and cash flows are as follow:

1. Amounts recognized in the balance sheet

i. Right-of-use assets

The carrying amount of right-of-use assets

| As of December 31, | |
|--------------------|--|
| 2023 | 2022 |
| \$2,410,156 | \$2,414,065 |
| 36,535 | 53,793 |
| 5,682 | 5,437 |
| 15,849 | 24,151 |
| \$2,468,222 | \$2,497,446 |
| | 2023 \$2,410,156 36,535 5,682 15,849 |

1 22 4 26

During the years ended December 31, 2023 and 2022, the Group's additions to right-ofuse assets amounting to NT\$127,939 and NT\$11,237 thousand, respectively. ii. Lease liabilities

| | As of December 31, | |
|-------------------|--------------------|----------|
| | 2023 | 2022 |
| Current | \$48,400 | \$29,089 |
| Non-current | 98,136 | 44,245 |
| Lease liabilities | \$146,536 | \$73,334 |

Please refer to Note 6. (27)(d) for the interest on lease liabilities recognized during the years ended December 31, 2023 and refer to Note 12. (5) Liquidity Risk Management for the maturity analysis for lease liabilities As of December 31, 2023.

2. Amounts recognized in the statement of profit or loss

Depreciation charge for right-of-use assets

| | For the year ended December | |
|--------------------------|-----------------------------|-----------|
| | 2023 | 2022 |
| Land | \$86,247 | \$94,964 |
| Buildings | 15,988 | 17,086 |
| Transportation equipment | 2,477 | 391 |
| Other equipment | 10,362 | 10,199 |
| Total | \$115,074 | \$122,640 |

3. Income and costs relating to leasing activities

| | For the year ended | December 31 |
|--|--------------------|-------------|
| | 2023 | 2022 |
| The expenses relating to short-term leases | \$14,823 | \$4,714 |
| The expenses relating to leases of low-value assets (Not | 4,418 | 6,873 |
| including the expenses relating to short-term leases of | | |
| low-value assets) | | |

4. Cash outflow relating to leasing activities

During the year ended December 31, 2023 and 2022, the Group's total cash outflows for leases amounting to NT\$75,436 thousand and NT\$65,584 thousand, respectively.

(26)<u>Summary statement of employee benefits</u>, depreciation and amortization expenses by function:

| | For the year ended December 31, | | | | | |
|------------------------------------|---------------------------------|-----------------------|-------------|--------------------|-----------------------|-------------|
| | | 2023 | | 2022 | | |
| | Operating costs | Operating expenses | Total | Operating costs | Operating expenses | Total |
| Employee benefits expense | | | | | | |
| Salaries | \$4,521,449 | \$1,179,020 | \$5,700,469 | \$4,697,151 | \$1,376,473 | \$6,073,624 |
| Labor and health insurance | 375,625 | 73,357 | 448,982 | 377,744 | 75,292 | 453,036 |
| Pension | 285,745 | 104,097 | 389,842 | 286,242 | 105,049 | 391,291 |
| Other employee benefits expense | 138,566 | 41,816 | 180,382 | 144,016 | 42,504 | 186,520 |
| Depreciation(Note) | 4,397,634 | 352,230 | 4,749,864 | 4,343,961 | 401,846 | 4,745,807 |
| Amortization(Note) | 326 | 2,055 | 2,381 | 201 | 2,273 | 2,474 |

Note: The differences between the amount stated above and the depreciation stated in the Consolidated Statements of Cash Flows was recognized in other gains and losses and discontented operations.

According to the Company's Articles of Incorporation, when there is profit of the current year, the Company shall distribute 1.5% of profit of the current year as employees' compensation and no higher than 1.5% of profit of the current year as remuneration to directors. However, the Company's accumulated losses shall have been covered. Information on the Board of Directors' resolution regarding the employees' compensation and remuneration to directors can be obtained from the "Market Observation Post System" on the website of the TWSE.

Based on the profit for the current year, the Company shall separately estimate 1.5% of profit for employees' compensation and directors' remuneration. The employees' compensation and remuneration to directors for the year ended December 31, 2023 amounted to NT\$651 thousand, recognized as salaries expense. The Company did not estimate the amounts of the employees' compensation and remuneration to directors for the year ended December 31, 2022.

A resolution was approved at the board meeting held on March 11, 2024 to distribute employees' compensation and remuneration to directors for the year ended December 31, 2023 amounted to NT\$651 thousand, which did not differ from the amount recorded as expenses in the financial statements for the year ended December 31, 2023.

The actual amount of employees' compensation and remuneration to directors for the year ended December 31, 2023 was \$0 thousand, which did not differ from the amount recorded as expenses in the financial statements for the year ended December 31, 2022.

(27)Non-operating income and expenses

A. Interest income

| | As of Decen | nber 31. |
|---|-------------|----------|
| | 2023 | 2022 |
| Bank deposit interest | \$63,626 | \$71,861 |
| Financial assets measured at amortized cost | | 2,152 |
| Total | \$63,626 | \$74,013 |

The following table contains information of the unused tax losses of the Group:

Unrecognized deferred tax assets

As of December 31, 2023 and 2022, deferred tax assets that have not been recognized as they may not be used to offset taxable profits amounted to NT\$2,528,653 thousand and NT\$1,945,867 thousand, respectively.

Unrecognized deferred tax liabilities relating to the investment in subsidiaries

The Group did not recognize any deferred tax liability for taxes that would be payable on the unremitted earnings of the Group's overseas subsidiaries, as the Group has determined that undistributed profits of its subsidiaries will not be distributed in the foreseeable future. As of December 31, 2023 and 2022, the taxable temporary differences associated with investment in subsidiaries, for which deferred tax liability has not been recognized, aggregated to NT\$17,682,741 thousand and NT\$16,711,803 thousand, respectively.

The assessment of income tax returns

As of December 31, 2023, the assessment of the income tax returns of the Company and its subsidiaries is as follows:

| | The assessment of income tax returns |
|--------------------------------|--------------------------------------|
| The Company | Assessed and approved up to 2021 |
| TAG | Assessed and approved up to 2021 |
| TGCH | Not required |
| TAGH | Not required |
| Subsidiaries in Mainland China | Assessed and approved up to 2022 |

(30)Earnings per share

Basic earnings per share amounts are calculated by dividing net (loss) profit for the year attributable to ordinary equity holders of the parent entity by the weighted average number of ordinary shares outstanding during the year. Diluted earnings per share amounts are calculated by dividing the net (loss) profit attributable to ordinary equity holders of the parent entity (after adjusting for interest on the convertible preference shares) by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

| | For the years ende | d December 31. |
|--|---|--------------------------|
| | 2023 | 2022 |
| Basic earnings per share Profit attributable to ordinary equity holders of the Company (in thousands): | | |
| Gains (losses) from continuing operations Gains (losses) from discontinued operations | \$34,594 | \$(579,557) (141,019) |
| Profit | \$34,594 | \$(720,576) |
| Weighted average number of ordinary shares outstanding for basic earnings per share (in thousands) | 2,908,061 | 2,908,061 |
| Basic earnings (loss) per share from continuing operations | \$0.01 | \$(0.20) |
| Basic earnings (loss) per share from discontinued operations | (¥) | (0.05) |
| Basic earnings (loss) per share (NT\$) | \$0.01 | \$(0.25) |
| | For the years ender | December 31. |
| | 2023 | 2022(Note) |
| Diluted earnings per share | | |
| Profit attributable to ordinary equity holders of the Company (in thousands): | | |
| Gain from continuing operations Gain from discontinued operations | \$34,594 | |
| Profit | \$34,594 | |
| Weighted average number of ordinary shares outstanding after dilution (in thousands) | 2,908,061 | |
| Employees' compensation | 34 | |
| Weighted average number of ordinary shares outstanding after dilution (in thousands) | 2,908,095 | |
| Basic earnings per share from continuing operations | \$9.01 | |
| Basic earnings per share from discontinued operations | 17 A 26 A 2 | |
| | | |
| Diluted earnings per share (NT\$) | \$0.01 | |

Note : There were not potential ordinary shares as of year ended December 31, 2022, hence not necessary to calculate diluted earnings per share.

There have been no other transactions involving ordinary shares or potential ordinary shares between the reporting date and the date of completion of the financial statements.

(31) Changes in parent's interest in subsidiaries

Losing control of a subsidiary

(A) The Company disposed of 100% of the shares of TG Fujian Photovoltaic Glass Co., Ltd on October 13, 2022, thereby losing control over the company for a disposal price of CNY390,388 thousand (NT\$1,745,800 thousand) which was adjusted based on the profit and loss during the transition period described in the share transfer agreement.

| | Book value |
|---|-------------|

9. Commitments and contingencies

As of December 31, 2023, the contingency and off balance sheet commitments are as follows:

- As of December 31, 2023, the outstanding promissory notes signed for business needs, including importing equipment, purchase of equipment, performance bond, and loan guarantee, totaled NT\$21,755,989 thousand.
- (2) Commodity tax and export tariff were NT\$12,699 thousand.
- (3) Unsecured balance of letters of credit is as follows:

| Currency | Unused Balance (in thousands) | | |
|----------|-------------------------------|--|--|
| JPY | 5,432 | | |
| USD | 22,405 | | |
| EUR | 2,177 | | |

(4) Significant contracts of construction in progress and equipment are as follows:

| | Contract | | |
|--|-------------|-------------|---------------|
| ltems | amount | Amount paid | Amount unpaid |
| Significant contracts of construction in | | | |
| progress and equipment | \$4,722,823 | \$3,023,433 | \$1,699,390 |

The above amount paid was recognized as construction in progress under property, plant and equipment and prepayment for equipment under other noncurrent assets.

- (5) As of December 31, 2023 the Company issued a letter of support to Shihlin China Holding Co., Ltd. to negotiate a loan of USD\$569,150 thousand from the bank according to the credit contract. The commitments are as follows:
 - A. It shall hold and maintain at least (including) 30% of the issued shares of the borrower with the related parties of the company at any time. The scope and target of the "related party" shall be determined in accordance with the International Financial Reporting Standards (IFRS) that apply to the Company.
 - B. The Company shall ensure that the borrower maintains a good financial standing at all times and has the ability to perform the credit granting and related document obligations in this case; if the borrower is unable to perform the related obligations, the Company will try its best to provide assistance and urge the borrower to perform the obligations in accordance with the agreement.

10. Losses due to major disasters

None.

11. Significant subsequent events

TG Yueda Solar Glass Co., Ltd., a subsidiary of the Group, sold its property, plant and equipment and suspended production. The liquidation was approved at the board of directors' meeting held on March 11, 2024.

12. Others

Financial Instruments

(1) Categories of financial instruments

| Financial assets | As of December 31. | | |

| Lease linbilities | 146,536 | 73,334 | |
| Deposits-in(including current and non-current) | 149,726 | 148,066 | |
| Total | \$36,591,292 | \$38,044,629 | |

(2) Financial risk management objectives and policies

The Group's principal financial risk management objective is to manage the market risk, credit risk and liquidity risk related to its operating activates. The Group identifies, measures and manages the aforementioned risks based on the Group's policy and risk appetite.

The Group has established appropriate policies, procedures and internal controls for financial risk management. Before entering into significant transactions, due approval process by the Board of Directors must be carried out based on related protocols and internal control procedures. The Group complies with its financial risk management policies at all times.

(3) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of the changes in market prices. Market prices comprise currency risk, interest rate risk and equity risk.

In practice, it is rarely the case that a single risk variable changes independently from other risk variables, there are usually interdependencies between risk variables. The sensitivity analysis disclosed below does not take into account the interdependencies between risk variables.

ы

Foreign currency risk

The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities (when revenue or expense are denominated in a different currency from the Group's functional currency) and the Group's net investments in foreign subsidiaries.

The Group has certain foreign currency receivables to be denominated in the same foreign currency with certain foreign currency payables, therefore natural hedge is received. Hedge accounting is not applied as they did not qualify for hedge accounting criteria. Furthermore, as net investments in foreign subsidiaries are for strategic purposes, they are not hedged by the Group.

The foreign currency sensitivity analysis of the possible change in foreign exchange rates on the Group's profit is performed on significant monetary items denominated in foreign currencies as at the end of the reporting period. The Group's foreign currency risk is mainly related to the volatility in the exchange rates for US dollars and CNY. The information of the sensitivity analysis is as follows:

A. When NTD weakens/strengthens against US dollars by 1%, the profit for the years ended December 31, 2023 and 2022 is decreased/increased by NT\$10,424 thousand and NT\$10,904 thousand, respectively. B. When CNY strengthens/weakens against US dollars by 1%, the profit for the years ended December 31, 2023 and 2022 is increased/decreased by NT\$6,051 thousand and NT\$23,569 thousand, respectively.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's debt instrument investments and receivables at variable interest rates, bank borrowings with fixed interest rates and variable interest rates.

The Group manages its interest rate risk by having a balanced portfolio of fixed and variable loans and borrowings.

The interest rate sensitivity analysis is performed on items exposed to interest rate risk as at the end of the reporting period, including investments and borrowings with variable interest rates and interest rate swaps. At the reporting date, a change of 10 basis points of interest rate in a reporting period could cause the profit for the years ended December 31, 2023 and 2022 to decrease/increase by NT\$11,209 thousand and NT\$15,712 thousand, respectively.

Equity price risk

The fair value of the Group's listed and unlisted equity securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Group's listed and unlisted equity securities are classified under financial assets measured at fair value through other comprehensive income. The Group manages the equity price risk through diversification and placing limits on individual and total equity instruments. Reports on the equity portfolio are submitted to the Group's senior management on a regular basis. The Group's Board of Directors reviews and approves all equity investment decisions.

The amount of the investment in the unlisted equity securities is not significant. Therefore, a change in the overall earnings stream of the valuations performed on the invested company would not have a significant impact on the income nor equity attributable to the Group for the years ended December 31, 2023 and 2022.

At the reporting date, a change of 10% in the price of the listed equity securities measured at fair value through profit or loss could increase/decrease the Group's profit for the years ended December 31, 2023 and 2022 by NT\$27,211 thousand and NT\$27,319 thousand, respectively.

(4) Credit risk management

Credit risk is the risk that a counter party will not meet its obligations under a contract, leading to a financial loss. The Group is exposed to credit risk from operating activities (primarily for accounts receivables and notes receivables) and from its financing activities, including bank deposits and other financial instruments.

Customer credit risk is managed by each business unit subject to the Group's established policy, procedures and control relating to customer credit risk management. Credit limits are established for all customers based on their financial position, rating from credit rating agencies, historical experience, prevailing economic condition and the Group's internal rating criteria etc. Certain customer's credit risk will also be managed by taking credit enhancing procedures, such as requesting for prepayment or insurance.

As of December 31, 2023 and 2022, accounts receivables from top ten customers represented amounts less than 10% of the total accounts receivables of the Group. The credit concentration risk of accounts receivables is insignificant.

Credit risk from balances with banks, fixed income securities and other financial instruments is managed by the Group's treasury in accordance with the Group's policy. The Group only transacts with counterparties approved by the internal control procedures, which are banks and financial institutions, companies and government entities with good credit ratings and with no significant default risk. Consequently, there is no significant credit risk for these counter parties.

The Group adopted IFRS 9 to assess the expected credit losses. Except for trade receivables, the remaining debt instrument investments which are not measured at fair value through profit or loss, low credit risk for these investments is a prerequisite upon acquisition and makes an assessment at each reporting date as to whether the expected credit losses increase significantly, and then further determines the method of measuring the loss allowance and the loss rates. The details of the assessment for the credit risk of the Group are described as follows:

| | | 24 | Total carry in | ig amount |
|-------------------------------|---------------------------------------|---------------------------------|----------------|------------|
| Level of credit | | Measurement method for | As of Dece | mber 31, |
| risk | Indicator | expected credit losses | 2023 | 2022 |
| Low credit risk | Counterparty with good credit risk | Lifetime expected credit losses | \$387,024 | \$- |
| Credit-impaired | Other impaired evidence | Lifetime expected credit losses | 1,068,365 | 1,148,145 |
| Simplified approach (Note) | (Note) | Lifetime expected credit losses | 12,993,588 | 12,395,888 |

Note: By using simplified approach (loss allowance is measured at lifetime expected credit losses), including contract assets, note receivables, accounts receivables and other receivables.

Financial assets are written off when there is no realistic prospect of future recovery (the issuer or the debtor is in financial difficulties or bankruptcy).

(5) Liquidity risk management

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of cash and cash equivalents, highly liquid equity investments and bank borrowings. The table below summarizes the maturity profile of the Group's financial liabilities based on the contractual undiscounted payments and contractual maturity. The payment amount includes the contractual interest. The undiscounted payment relating to borrowings with variable interest rates is extrapolated based on the estimated interest rate yield curve as at the end of the reporting period.

Non-derivative financial instruments

| | Less than | 2 to 3 years | 4 to 5 years | > 5 years | Total |
|--------------------------|-------------|--------------|--------------|-----------|-------------|

(7) Fair values of financial instruments

A. The methods and assumptions applied in determining the fair value of financial instruments:

The fair value of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

- a. The carrying amount of cash and cash equivalents, trade receivables, accounts payable and other current liabilities approximate their fair value due to their short maturities.
- b. For financial assets and liabilities traded in an active market with standard terms and conditions, their fair value is determined based on market quotation price (including listed equity securities - beneficiary certification - bonds and futures).
- c. Fair value of equity instruments without market quotations (including private placement of listed equity securities, unquoted public company and private company equity securities) are estimated using the market method valuation techniques based on parameters such as prices based on market transactions of equity instruments of identical or comparable entities and other relevant information (for example, inputs such as discount for lack of marketability, P/E ratio of similar entities and Price-Book ratio of similar entities).

- d. Fair value of debt instruments without market quotations, bank loans, bonds payable and other non-current liabilities are determined based on the counterparty prices or valuation method. The valuation method uses DCF method as a basis, and the assumptions such as the interest rate and discount rate are primarily based on relevant information of similar instrument (such as yield curves published by the GreTai Securities Market, average prices for Fixed Rate Commercial Paper published by Reuters and credit risk, etc.)
- B. Fair value of financial instruments measured at amortized cost

The carrying amount of the Group's financial assets and liabilities measured at amortized cost approximate their fair value.

C. Fair value measurement hierarchy for financial instruments

Please refer to Note 12.(8) for fair value measurement hierarchy for financial instruments of the Group.

- (8) Assets measured at fair value
 - A. Fair value measurement hierarchy

All asset and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole. Level 1, 2 and 3 inputs are described as follows:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities that the entity can access at the measurement date.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: Unobservable inputs for the asset or liability.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization at the end of each reporting period.

B. Fair value measurement hierarchy of the Group's assets and liabilities

The Group does not have assets that are measured at fair value on a non-recurring basis. Fair value measurement hierarchy of the Group's assets and liabilities measured at fair value on a recurring basis is as follows:

| | Level 1 | Level 2 | Level 3 | Total |
|--|-----------|---------|-------------|-------------|
| Financial assets: | | | | |
| Financial assets at fair value through profit or loss | | | | |
| Structured deposit | 5- | S. | \$4,020,908 | \$4,020,908 |
| Mutual Fund | | | 614 | 614 |
| Financial assets at fair value through other comprehensive income | | | | |
| Equity securities | 272,111 | | 67,442 | 339,553 |
| As of December 31, 2022 | Level 1 | Levei 2 | Level 3 | Total |
| Financial assets: | 100.100.1 | | incertain 5 | 1. 90'y FAA |
| Financial assets at fair value through profit or loss Structured deposit | s- | 5- | \$3,483,459 | \$3,483,459 |
| Financial assets at fair value through other comprehensive income | 10252120 | | 19125 | 50000 |
| Equity securities | 273,194 | | 52,839 | 326,033 |

During the years ended December 31, 2023 and 2022, there were no transfers between Level 1 and Level 2 fair value measurements.

Reconciliation for fair value measurements in Level 3 of the fair value hierarchy is as follows:

| | | At fair value through profit or loss | | |
|--|-------------|---|-------------|--------------|
| | Muraal Fund | Structured deposit and Guaranteed financial product | Stocka | Total |
| Beginning balances as of January 1, 2022 | ş- | \$7,109,379 | \$52,397 | \$7,161,776 |

thousand

Valuation process used for fair value measurements categorized within Level 3 of the fair value hierarchy

The Group is responsible for validating the fair value measurements and ensuring that the results of the valuation are in line with market conditions, based on independent and reliable inputs which are consistent with other information, and represent exercisable prices. The Department analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Group's accounting policies at each reporting date.

C. Fair value measurement hierarchy of the Group's assets and liabilities not measured at fair value but for which the fair value is disclosed

As of December 31, 2022

| | Level 1 | Level 2 | Level 3 | Total |
|--|---------|-----------|-----------|-----------|
| Financial assets not measured at fair value but for which the fair value is disclosed: | | | | |
| Investment property (please refer to Note 6.(14)) | \$- | S- | \$116,682 | \$116,682 |

(9) Significant assets and liabilities denominated in foreign currencies

Information regarding the significant assets and liabilities denominated in foreign currencies is listed below:

| (in t | housands) |
|-------|-----------|
|-------|-----------|

| | As of December 31, | | | | | | | |
|-----------------------|-----------------------|-----------------------------|-------------|-----------------------|-----------------------------|-------------|--|--|
| | | 2023 | | | 2022 | | | |
| | Foreign currencies | Foreign exchange rate | NTD | Foreign currencies | Foreign exchange rate | NTD | | |
| Financial assets | | | | | | | | |
| Monetary items: | | | | | | | | |
| USD | \$79,728 | 30.705 | \$2,448,036 | \$88,309 | 30.71 | \$2,711,963 | | |
| CNY | 4,919,000 | 4.3352 | 21,324,902 | 4,869,589 | 4,4094 | 21,472,169 | | |
| Non-Monetary items: | | | | | | | | |
| USD | 234,839 | 30.705 | 7,210,719 | 215,721 | 30.71 | 6,624,798 | | |

| Financial liabilities | | | | | | | | |
| Monetary items: | 0 | | | | | | | |
| USD | 21,844 | 30,705 | 670,718 | 54,357 | 30.71 | 1,669,295 | | |
| CNY | 3,237,684 | 4.3352 | 14,036,044 | 2,880,773 | 4.4094 | 12,702,604 | | |

The above information is disclosed based on the carrying amount of foreign currency (after conversion to functional currency).

Since there were various functional currencies used within the subsidiaries of the Group, the Group was unable to disclose foreign exchange gains (losses) towards each foreign currency with significant impact. The realized and unrealized foreign exchange gains (losses) was NT\$(21,758) thousand and NT\$(247,281) thousand for the years ended December 31, 2023 and 2022, respectively.

(10) Capital management

The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize stockholder value. The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust dividend payment to stockholders, return capital to stockholders or issue new shares.

(11) Information of financial asset transferred

Transferred financial assets that are partially-derecognized in their entirety

The Group entered into a factoring agreement with a financial institution, which is partly with recourse and partly non-recourse. The Group has transferred the right on those nonrecourse factoring, and in accordance with the contract, the Group shall not be liable for the credit risks associated with uncollectable receivables (except for commercial disputes), which met the requirements for derecognizing financial assets. The related information is as follows:

As of December 31, 2023

| | Amount | | Advanced | Interest rate | |
|------------|-------------|----------|----------|---------------|-----------|
| Transferce | transferred | Amount | amount | range | Credit |
| O-Bank | \$51,859 | \$46,673 | \$47,559 | 1.97% | \$525,000 |

As of December 31, 2022

| | Amount | | Advanced | Interest rate | |
|------------|-------------|-----------|-----------|---------------|-----------|
| Transferee | transferred | Amount | amount | range | Credit |
| O-Bank | \$206,638 | \$185,974 | \$187,204 | 1%-2% | \$525,000 |

13. Other disclosure

(1) Information at significant transactions

- A. Lending fund to others: Please refer to Attachment 1.
- B. Endorsement/guarantee provided to others: Please refer to Attachment 2.
- C. Securities held at the end of the period: Please refer to Attachment 3.
- D. Individual securities acquired or disposed of with accumulated amount exceeding NT\$300 million or 20 percent of the capital stock or more: Please refer to Attachment 4.
- E. Acquisition of real estate with amount exceeding NT\$300 million or 20 percent of the capital stock or more: None.
- F. Disposal of real estate with amount exceeding NT\$300 million or 20 percent of the capital stock or more: None.
- G. Related party transactions for purchases and sales amounts exceeding NT\$100 million or 20 percent of the capital stock or more: Please refer to Attachment 5.
- H. Receivables from related parties with amounts exceeding NT\$100 million or 20 percent of capital stock or more: Please refer to Attachment 6.
- I. Financial instruments and derivative transactions: None.
- J. Business relationship between the parent and the subsidiaries and between each subsidiary, and the circumstances and accounts of any significant transactions between them: Please refer to Attachment 7.

(2) Information on investees

Information of the investees in which the Company directly or indirectly has significant influence or control: Please refer to Attachment 8.

(3) Information on investments in Mainland China

- A. Investee's name, main businesses and products, total amount of capital, method of investment, accumulated inflow and outflow of investments from Taiwan, percentage of ownership, investment income or loss, carrying value of the investments, inward remittance of earnings and limits on investments in Mainland China: Please refer to Attachment 9.
- B. Directly or indirectly significant transactions through other regions with the investees in Mainland China, including price, payment terms, unrealized gain or loss, and other events with significant effects on the operating results and financial condition are disclosed as follows:
 - a. Accumulated amount and percentage of purchase and related payables at the end of the period: None. *
 - b. Accumulated amount and percentage of sales and related receivables at the end of the period: None. *
 - c. Amount of property transaction and related gain or loss: None. *
 - d. Endorsement/guarantee provided to others at the end of the period: None. *
 - e. Financing provided to others at the end of the period: None. *
 - f. Other significant transactions, such as service provided or received: None. *
 - The transactions have been eliminated in the consolidation financial statements.

(4) Information of main stockholders

| Shares | Common Shares | Preferred Shares | Total Shares Owned | Percentage of Ownership (%) |

14. Segment information

(1) General Information

For management purposes, the Group is organized into business units based on their products and services and has three reportable operating segments as follows:

- A. Flat Glass Segment: Manufacturing and selling of flat glasses.
- B. Glass Container Segment: Manufacturing and selling of glass containers.
- C. Glass Fiber Segment: Manufacturing and selling of glass fibers.

No operating segments have been aggregated to form the above reportable operating segments.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss and is measured based on accounting policies consistent with those in the consolidated financial statements. However income taxes are managed on a group basis and are not allocated to operating segments.

Transfer prices between operating segment are on an arm's length basis in a manner similar to transactions with third parties.

(2) Reportable segment information

For the year ended December 31, 2023

| | Flat Olass | Gless Container | Olasa Fiber | Subiotal | Other Operating Segments (Note 1) | Adjustment and Elimination | Consolidated |

VI. If the Company or any of its affiliates has encountered any financial difficulties from the most recent years until the date the Annual Report was printed, the impact on the Company's financial condition shall be set forth: None.

Seven. Financial Highlights:

I. 2023 vs. 2022 financial analysis

The causes resulting in material changes in assets, liabilities and shareholders' equity in the most recent two years and the effect thereof:

| | | | Currency Un | it: NTD thousand |
|-------------------------------|-------------|-------------|---------------|------------------|
| Year | | | Increase | Variation Ratio |
| | 2023 | 2022 | (decrease) in | |
| Item | | | amount | % |
| Current assets | 37,395,343 | 39,881,845 | (2,486,502) | -6.23 |
| Investments accounted for | | | | |
| using the equity method | 7,227,111 | 6,639,524 | 587,587 | +8.85 |
| Property, plant and equipment | 41,731,313 | 42,343,801 | (612,488) | -1.45 |
| Other noncurrent assets | 4,124,110 | 4,164,848 | (40,738) | -0.98 |
| Total assets | 90,477,877 | 93,030,018 | (2,552,141) | -2.74 |
| Current liabilities | 27,580,360 | 31,285,228 | (3,704,868) | -11.84 |
| Long-term liabilities | 10,190,152 | 8,070,172 | 2,119,980 | +26.27 |
| Other noncurrent liabilities | 1,996,783 | 2,013,567 | (16,784) | -0.83 |
| Total liabilities | 39,767,295 | 41,368,967 | (1,601,672) | -3.87 |
| Capital | 29,080,608 | 29,080,608 | 0 | -0.00 |
| Additional paid-in capital | 1,925,218 | 1,925,218 | 0 | -0.00 |
| Retained earnings | 20,416,518 | 20,451,537 | (35,019) | -0.17 |
| Other components of equity | (3,867,287) | (3,019,189) | (848,098) | -28.09 |
| Non-controlling interests | 3,155,525 | 3,222,877 | (67,352) | -2.09 |
| Total equity | 50,710,582 | 51,661,051 | (950,469) | -1.84 |

Changes in the Company's assets, liabilities and equity by more than 20% in the previous and subsequent periods and by more than NT\$10,000,000, if any, in the most recent two years:

1. Root cause:

- (1) Long-term liabilities: The renewal of long-term borrowings maturing within one year in 2022 resulted in 2023.
- (2) Other components of equity: The increase in foreign exchange gains resulted from the translation of financial statements of overseas operating entities in the current period.

II. 20223vs. 2022 financial performance analysis:

The causes resulting in material changes in operating revenues, operating income and income before income tax in the most recent two years:

| (I) Comparison and analysis of operating | results | | Currency | Unit: NTD thousand |
|--|------------|-------------|----------------------------------|----------------------|
| Year Item | 2023 | 2022 | Increase (decrease) in amount | Variation Ratio % |
| Operating revenues | 45,619,038 | 43,859,066 | 1,759,972 | +4.01 |
| Operating costs | 41,051,700 | 39,390,748 | 1,660,952 | +4.22 |
| Gross profit (loss) | 4,567,338 | 4,468,318 | 99,020 | +2.22 |
| Operating expenses | 4,973,309 | 5,360,777 | (387,468) | -7.23 |
| Net amount of other revenues and gains | | | | |
| and expenses and losses | 128,689 | 146,582 | (17,893) | -12.21 |
| Operating (loss) gain | (277,282) | (745,877) | 468,595 | +62.82 |
| Non-operating income and expenses | 563,923 | 1,367,381 | (803,458) | -58.76 |
| Gain from continuing operations before | | | | |
| income tax | 286,641 | 621,504 | (334,863) | -53.88 |
| Income tax (expenses) benefits | (261,792) | (1,302,864) | 1,041,072 | +79.91 |
| (Loss) Gain from continuing operations | 24,849 | (681,360) | 706,209 | +103.65 |
| (Loss) Gain from discontinued | | | | |
| operations, net of tax | 0 | (141,514) | 141,514 | +100.00 |
| Net Income | 24,849 | (822,874) | 847,723 | +103.02 |

Variation of more than 20% and explanation of such variation:

(1) The decrease in operating losses was due to the impact of port congestion easing and a significant reduction in shipping costs in 2023.

(2) The decrease in non-operating income and gains was due to a reduction in investment income recognized from SCJ.

(3) The significant decrease in pre-tax net profit was due to a reduction in investment income recognized from SCJ.

(4) The significant decrease in income tax expense was due to subsidiary earnings repatriated with withholding tax in 2022, which was not applicable in 2023.

(5) The increase in net profit for the current period and net profit from continuing operations is attributable to the significant decrease in

(6) The decrease in losses from discontinued operations was due to the disposal of FPG and TVIG in 2022.

| | Increase/decrease in | | Cause o | f Variation | |
|-----------------|---------------------------------|----------------------------|-------------------------|------------------------|-----------------------|
| Product type | previous and subsequent periods | Variation in selling price | Variation in cost price | Variation in portfolio | Variation in quantity |
| Flat glass | 2,742,734 | 262,017 | 2,047,046 | 246,587 | 187,084 |
| Fiberglass | (2,763,274) | (974,283) | (1,888,457) | 400,430 | (300,964) |
| Glass Container | 118,991 | 13,130 | 10,397 | 3,822 | 91,642 |
| Others | 569 | 569 | 0 | 0 | 0 |
| Total | 99,020 | (698,567) | 168,986 | 650,839 | (22,238) |

(II) Analysis of changes in gross profit:

Notes:

The increase in gross profit for the current period was primarily due to favorable cost differentials and favorable sales mix differentials. For plate glass, the inflation crisis eased and container shortages in the port alleviated, leading to a drop in raw material and energy prices and generating favorable cost differentials, resulting in a significant increase in gross profit. However, for glass fiber, the inflation crisis triggered by the Ukraine-Russia war and the continued decline in demand for consumer electronics led to unfavorable sales price differentials and quantity differentials. Additionally, some kilns underwent cold repairs, leading to a significant increase in production costs and unfavorable cost differentials, resulting in a significant decrease in gross profit. As for glassware, the increase in various bid projects in the domestic market generated favorable quantity differentials, leading to an increase in gross profit.

- (III) Anticipated sales volume and the basis thereof, and the potential effect against the Company's finances and business and remedial measures thereof:
 - The Company has not yet started to disclose the financial forecast in 2024, and no financial forecast was disclosed to the public. Explanation: omitted.

III. Cash flows analysis: Any cash flow changes during the most recent fiscal year, corrective measures to be taken in response to illiquidity, and a liquidity analysis for the coming year.

noond

| | | | | Currency | y Unit: NTD thousand |
|---------------------------|--------------------------------|-------------|-------------------|-----------------------|----------------------|
| | Annual net cash | Annual cash | Cash balance- | Plan for cash balan | ce-ending shortage |
| Cash balance-beginning | flow from operating activities | outflow | ending (shortage) | Investment activities | Financing activities |
| 8,374,101 | 4,350,442 | 6,051,021 | 6,673,522 | - | - |
| 1. Analysis of changes in | cash flows this year: | | | | |
| | 2023 | 2022 | Change | Variation Ratio (%) | |
| (1) Operating activities: | 4,350,442 | 6,710,097 | (2,359,655) | (35.17) | |
| (2) Investing activities: | (4,272,695) | (1,905,920) | (2,366,775) | (124.18) | |
| (3) Financing activities: | (1,589,177) | (5,165,180) | 3,576,003 | 69.23 | |
| Total | (1,511,430) | (361,003) | (1,150,427) | (318.68) | |
| | | | | | |

Cash flows in this period have increased YoY, mostly due to a decrease in market demand and lower product prices.

2. Plan for cash balance-ending shortage and liquidity analysis:

The Company's operating profit appears to be normal each year, and there is no likelihood for deficit in cash in the future.

3. Analysis of liquidity for next year

| Cash balance-beginning | Annual net cash flow from operating activities | Annual cash outflow | Cash balance- ending (shortage) |
|------------------------|--|---------------------|------------------------------------|
| 6,673,522 | 4,823,000 | -4,746,000 | 6,750,522 |

(1) Operating activities: The normal operation is estimated to generate a cash inflow of NT\$4,823,000 thousand.

(2) Investing activities: In order to optimize manufacturing process and replace equipment routinely,

the Company plans to purchase additional machine and equipment in 2024 to generate cash outflow.

(3) Financing activities: Repayments of bank loans will be granted and thereby generate cash outflow.

IV. Significant capitalized expenditure analysis

(I)Utilization of material capital expenditure and source of funds None.

V. Long-term reinvestment policy, main reasons for gain or loss, improvement plan and the coming year investment plan

- (I) Reinvestment policy: Based on the existing Company's scale, all of the Group's employees are required to do their jobs, develop business, solidify the foundation, work hard to carry out business, rise from little winnings to greatness, and exert the maximum economic effect.
- (II) Main reasons for gain or loss, and improvement plan: The net investment gain from investment in Mainland companies recognized in 2023 was NT\$802,542 thousand. It is mainly the finished goods of the invested company rising prices and increasing sales volume in 2023.
- (III) The coming year investment plan: None.

VI. Risk Management:

- 1. Effect of interest rate, change in foreign exchange rate and inflation to the Company, and countermeasures:
 - 1. Effect of interest rate risk:

The Company maintains a fair financial structure as a favorable counter for price negotiation and bargain with financial institutions, and keeping in touch with various banks in order to seek more favorable lending rates.

2. Effect of foreign exchange rate fluctuation risk:

Given that the foreign exchange rate risk generated from the sale or purchase valued based on non-functional currency may offset against each other, no material foreign exchange rate risk would be generated.

- 3. Effect of inflation: No material effect generated.
- 2. Policies to engage in high-risk and high-leverage investment, granting loan to others, making endorsements/guarantees and transactions of derivative instruments, the main reasons for profit or loss, and countermeasures:

The Company did not engage in any high-risk or high-leverage investment, or granting loan to others, but did engage in granting loan and making endorsements/guarantees to/for subsidiaries in Mainland China for the funding or turnover for establishment of factories, in 2023.

- 3. Projected R&D plans and R&D expenditure:
 - (1) The Company's product life is long and investment in equipment is large. Main production technologies are also matured upon improvement. Meanwhile, the Company is able to research and develop the items with such functions as energy-saving, energy-generation, pollution-reduction and maintenance of product quality.
 - (2) Continue to introduce the technology and equipment for glass.
 - (3) Future expected R&D Spending: NT\$291,922 thousand.
- 4. Changes in Government Apparatus policies and legal environment domestically and overseas, and the effect on the Financial Status and operation of the Company, and Countermeasures N/A
- 5. The impacts and countermeasures of technological changes, including information security risks and industry changes, on the company's business: N/A
- 6. Effect of change in corporate identity to an enterprise's crisis management, and countermeasures: N/A
- 7. Anticipated benefit for merger and acquisition, potential risk and countermeasures: N/A
- 8. Anticipated benefit for expansion and potential risk, and countermeasures: Please see Page 315.
- 9. Risk encountered by centralization of purchases or sales, and countermeasures: N/A
- 10. Effect and risk of mass transfer or exchange of equity of directors, supervisors and shareholders who hold more than 10% of the Company's shares to the Company, and countermeasures: N/A
- 11. The effect of change in the management of the Company, possible risk and countermeasures: N/A
- 12. Litigations, non-litigations or administrative actions of the Company and the Company's directors, supervisors, presidents, responsible persons in fact, shareholders who hold more than 10% of the Company's shares and affiliates which became final or are still pending may result in major impacts on shareholders' equity or stock price of the Company are disclosed by the facts, value of object, commencing date of the action, concerned parties, and treatment thereof until the date the Annual Report was printed: N/A
- 13. Other significant risk and countermeasures Information security risk assessment: N/A

VII. Other important notes: N/A

3. Entities presumed in parent-subsidiary relations and information on identical shareholders: N/A

4. The industries housed in the same business location of the whole business group:

Except TG \cdot TGF \cdot TCD and TBF, which are electronics industries engaged in electronic fiberglass fabric and fiberglass reinforced and cell module assembly, the other entities are engaged in production of glass.

5. Division of labor among affiliates:

(1) QRG, QFG, CFG, CDG, HNG, DHG, TJG, TTAR, TXY, TAH, TYAU, TWAR, TYSM, TGF, TCD, TBF and TQPT are the manufactories invested in Mainland China by the Company. QFG, CFG, CDG, HNG, DHG, TJG, TXY and TAH are engaged in production of float glass. TTAR and TWAR are engaged in production of Low-E glass. TYAU is engaged in production of auto glass. QRG is engaged in production of rolled glass. TYSM is engaged in production of solar mirror. TGF, TCD and TBF are engaged in production of fiberglass fabric. TQPT is engaged in production of ITO conductive glass. The Company is engaged in production of said products, except ITO conductive glass, auto glass and solar mirror.

The Company and the Mainland China companies are independent business entities, and there is no division of labor among each one.

- (2) TGUS is the distributor of the Company and its affiliates in the U.S.A..
- (3) TAGC is the Company's down-stream supplier (processing and sale of auto glass).
- (4) HZSS is engaged in supplying the silica sand to CDG, TXY and TCD.
- (5) TRAE is engaged in supplying the natural gas to TAH.
- (6) XYES is sale of LOW-E glasses by TXY.
- (7) WHES is sale of LOW-E glasses by TWAR.
- (8) KSES is sale of LOW-E glasses by CFG.
